Workshop on Bootstrapping in Stata Monday, 7 September 2009 9am – 1pm

Workshop on Household Asset Indices Friday, 11 September 2009 9.30am – 12.30pm

Mellon Data Quality Project

Overview

The Data Quality Project of SALDRU/DataFirst will be hosting a workshop on bootstrapping in Stata as well a workshop on household asset indices. The focus of the workshops is both theoretical and practical.

Prerequisites

This course is pitched at individuals with advanced econometric knowledge and who are comfortable with the basics of Stata batch file processing (do files). Acquaintance with Stata programs will be a decided advantage.

Date

Monday 7 September and Friday 11 September

Instructor

Prof M. Wittenberg
University of Cape Town

To reserve your place, please contact Alison Siljeur, email: alison.siljeur@uct.ac.za
