This is a study about household welfare in South Africa, run by researchers at the University of Cape Town for the South African Presidency. The purpose of this study is to learn more about how people in South Africa are faring over time and the reason we selected you and this household is that you were freshly selected this year or you and/or other members of the household participated in the first round of this study in 2008 and/or the following rounds in 2010/2011, 2012 and 2014/2015. We would like to ask you some questions about this household member's education, employment, income and health.

We want to make sure you understand the following information about the study:

- Your participation is entirely voluntary. This applies to any question, sub-question, section or sub-section. You can skip any question or section and stop at any time.
- The average amount of time for this interview is about 15 minutes.
- You have the right to ask the interviewer questions at any point in time.
- All information collected for this study that could identify you or your household will be kept strictly confidential.
- Your personal details will be kept on record in order that you can be re-contacted to participate in future studies that form part of this project. However, we will ask your permission to participate in the survey again each time. Agreeing to participate now does not mean you have to participate in future surveys.

By signing below, you signify that you agree to participate in the study, and that your participation is entirely voluntary:
