Par 10, 11 en/and 12

In alle gevalle waar gemeld word dat die onderskeie rekords "geweeg" moet word, word bedoel dat elke rekord die aantal kere soos deur sy gewig aangedui, gedupliseer moet word.

In die praktyk sal dit egter daarop neerkom dat slegs die waardes van elke gewigveld gesommeer hoef te word by enige bepaalde ontleding.

In all cases where it is stated that the various records are "weighted", it is meant that each record must be duplicated the number of times as determined by its weight.

However, in practice, only the values of each weight field need to be added together for any specific analysis.
