### Household Selection Procedure

*Interviewer: It is your job to select a random (this means any) household. A household is a group of people who presently eat together from the same pot.*

*Start your walk pattern from the start point that has been randomly chosen by your Field Supervisor. Team members must walk in opposite directions to each other. If A walks towards the sun, B must walk away from the sun; C and D must walk at right angles to A and B.*

*Use a 5 / 10 interval pattern to select a household. That is, walking in your designated direction away from the start point, select the 5<sup>th</sup> household for the first interview, counting houses on both the right and the left (and starting with those on the right if they are opposite each other). Once you leave your first interview, continue on in the same direction, this time selecting the 10<sup>th</sup> household, again counting houses on both the right and the left. If the settlement comes to an end and there are no more houses, turn at right angles to the right and keep walking, continuing to count until finding the tenth dwelling.*

*Interviewer: If a call is unsuccessful, use the table below to record your progress until you make a successful call. Circle a code number for unsuccessful calls only.*

*If no one is at home (i.e., premises empty) after two visits, substitute with the very **next** household. If the interview is refused, use an interval of 10 to select a substitute household, counting houses on both the right and the left.*

*When you find a household with someone home, please introduce yourself using the following script. You must learn this introduction so that you can say it exactly as it is written below.*

Good day. My name is \_\_\_\_\_. I am from Hatchile Consult Ltd and Afrobarometer, independent research organizations. I do not represent the government or any political party. We are studying the views of citizens in Uganda about how the country is governed and how the economy is managed. We would like to discuss these issues with a member of your household. We would like to choose an adult from your household. Would you help us pick one?

**Your answers will be confidential.** They will be put together with 1200 other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us what you think. This interview will take about 45 minutes. There is no penalty for refusing to participate.
