

Addis Ababa Industrial Survey 1993

Version 1 of this dataset was downloaded from the website of the Centre for the Study of African Economies, University of Oxford. The following data quality issues were found with this dataset:

1. Problems with data files

Data File -RD11C7

- There is no data in the file

Data File-RD12A10

- Data file cannot open

2. Problem variables

Data File-RD12C18

- R2C48ba-R2C48be - The number of "yes" (21) respondents does not correlate with the number who gave a bonus percentage (6) ,
- R2C49ba-be - these variables have a similar problem, with the number of "yes" respondents not matching the number who gave a bonus percentage (R2C49ba (30/29), R2C49dd (0/1), R2C49de (0/1))
- R7A1A - possible values here are 1 (No problem) and 3 (Big problem), but 2 is included as a response although this is not a valid value according to the question.

3. Duplicates and missing firm IDs

Data File-RD14PA25

- Of the 33 firms with **seasonal workers** only 17 have unique numbers

Data File-RD15H47

- There are only 130 unique firm IDs in this data file, instead of 220, and 76 of the firms listed have no firm ID number

Data File-WORKER1

- There are only 208 unique firm IDs although 220 firms are covered by the survey

Data File- RD12A15

- There are 219 unique firm IDs although 220 firms were surveyed. One firm ID (prf014) is duplicated

Data File-RD15G46

- There are 219 unique firm IDs although 220 firms were surveyed. One firm ID (pub23) is duplicated
