STUDY TYPE

Household Survey

ABSTRACT

The Living Off-Grid Food and Infrastructure Collaboration (LOGIC) is a multi-country, multi-institution research collaboration led by the Institute of Development Studies, UK, and including experts in urban research from Africa and Asia. Partners are the African Centre for Cities at the University of Cape Town, the University of Ghana, the Indian Institute for Human Settlements, and the Colombo Urban Lab in Sri Lanka. The LOGIC research is designed to help improve the lives of the poorest residents of cities in Africa and Asia by focusing on how they are meeting their basic needs and accessing infrastructure, particularly when they are living 'off-grid'. The project covers five main types of infrastructure - water, sanitation, energy, transport, and communications. The research focuses on one important way of understanding whether and how basic needs are being met: access to and the availability of sufficient, diverse, and nutritious diets. The LOGIC team studied the social and material systems that drive food and infrastructure access across five cities, three in Africa (Tamale, Ghana; Mossel Bay, South Africa; Harare, Zimbabwe) and two in Asia (Bengaluru, India; Colombo, Sri Lanka). The LOGIC project is funded by UK Research and Innovation (UKRI). More information can be found on the LOGIC website <https://www.ids.ac.uk/projects/rethinking-the-off-grid-city/>

KIND OF DATA

Survey data

UNIT OF ANALYSIS

Households and individuals

Version

VERSION DESCRIPTION

v1: Edited, anonymised data for public distribution

VERSION DATE

2024

Scope

NOTES

The LOGIC project collects data on the relationship between infrastructure, food security and nutrition. The data relates to food security and food's dependency on infrastructure such as water, sanitation, electricity, transport and markets.

Coverage

GEOGRAPHIC UNIT

The data is at the city level.

Before COVID, they used to eat all 3 meals.		1	11.1%
Didn't pay their electricity bill during COVID and now they have arrears to pay. The month before last, Irangani pawned a piece of gold jewellery and paid LKR 15,000.		1	11.1%
During COVID, Shaloni notes that they didn't pay any bills, they only spent their money on food to eat.		1	11.1%
Latha got her husband to live in his garage as he couldn't travel due to lockdown/movement restrictions. During COVID, they didn't buy any food. They managed by cooking whatever they had at home. They didn't buy fish and meat during that time - bu		1	11.1%
buying a lot less compared to then. For example, chicken - previously, even during Covid times, if they used to buy for LKR 300, it would be sufficient for two meals. They could eat for lunch and then for dinner too and could feed even another person. Now		1	11.1%
in the last two years, the price of food has gone up and as a result they are buying less takes much longer to cook with kerosene than with gas " it takes her about 4 to 5 hours. Additionally, there is soot. Sometimes if breakfast is taking long to prep		1	11.1%
she doesn't stop buying what she likes/needs. She just buys a lesser quantity. Mariyam used the example of tomatoes - she finds tomatoes expensive now, however, she will even buy one and use it. Even with cabbage, she used to buy 500g, now she buys 250g		1	11.1%
there weren't any places to buy merchandise from, for her shop. Spent all the money they had in hand, during the first lockdown. Increase in prices of grocery items has made it more difficult		1	11.1%
was doing business in a cart, however during COVID it was removed. Water connection was disconnected during covid as they were unable to pay the bills. People who have piped water connections also use public wells, because they don't want it adding to t		1	11.1%
