Domestic Tourism Survey 2023 Metadata

ISBN: 978-1-77997-766-3

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Domestic Tourism Survey 2023: Metadata/Statistics South Africa. Pretoria: Statistics South Africa, 2023
[Statistical Release P0352.1 2023]

ISBN: 978-1-77997-766-3

Stats SA products

A complete set of Stats SA publications is available at Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Library of Parliament, Cape Town
Bloemfontein Public Library
Natal Society Library, Pietermaritzburg
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho

This report is available on the Stats SA website: www.statssa.gov.za

CD-ROM is available from: Printing and Distribution, Statistics South Africa

Domestic Tourism Survey 2023

The Domestic Tourism Survey 2023 data are in two files. The files are flat, ASCII, fixed field files, with one line of given length per record. This format was chosen so as to make the data usable with as many statistical programs as possible, and thus accessible to as wide a range of people.

Users can also access, explore and download the microdata in various formats, i.e. SAS, SPSS, Stata, etc. Users can access the metadata from StatsOnline at www.statssa.gov.za.

Other important information for users is found in the:

- Questionnaire
- Relevant publications
- Website (www.statssa.gov.za)

Data files

The files and the corresponding sections of the questionnaire are as follows:

Daytrips:	Data from Cover and Sections 1 to 2
Overnighttrips:	Data from Cover and Sections 3 to 5

The files also contain some derived variables.

The information in each file contains the following:

- Nature of records in the file and population covered.
- Description of variables

Description of variables

The description of the variables comprises the following information:

Descriptive name: This is a short English description plus the variable name in the original file used by Stats SA to construct the ASCII file.

Position of the variable: The position of the data within the record, recorded in the format (@xxx y). '@xxx' indicates that the data begins at position (i.e. column) xxx and 'y' indicates that it is y digits wide. All data is numeric. All data is right justified.

Source: This is either the question in the questionnaire or, for derived variables, the method of derivation. Derived variables are usually found towards the end of a file.

Valid range: The range of valid values for the variable. For continuous variables this reflects the upper and lower limits as found in the data.

Not applicable: The code for 'not applicable' is provided for each variable. These are now numeric.

Missing value: A code for 'missing/unspecified' values is given for each variable.

Notes: Specific observations to be noted by users.

Most questions in the Domestic Tourism Survey (DTS) questionnaire are pre-coded, i.e. there is a set number of choices from which one or more must be selected. For open-ended 'write-in' questions, the description will state that post-coding occurred and explain how this was done. Most variables have been pre-coded from the questionnaire and are not repeated in the variable description. Where the coding is not apparent, the description either provides the codes or indicates where code lists are to be found.

Linking files

The data from different files can be linked on the basis of a record identifier. The record identifier is the first field/s in each file. Each record contains a number (UqNo), which constitutes a unique household identifier. All records with a given unique household identifier, no matter which file they are in, belong to the same household. For individuals, a further two digits constitute the Person number (PersonNo). When these are added to the unique household identifier, a unique individual identifier is created. Again, these can be used to link records from the respective files.

Target population

The target population of the survey consists of all private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old-age homes, hospitals, prisons and military barracks, and is therefore only representative of non-institutionalised and non-military persons or households in South Africa.

A. Sample design of the DTS 2023

The sample design for the DTS 2023 was based on a Master Sample (MS) that was originally designed for the Quality Labour Force Survey (QLFS). This Master Sample is shared by the QLFS, General Household Survey (GHS), Living Conditions Survey (LCS), Domestic Tourism Survey (DTS), Income and Expenditure Survey (IES), and Victims of Crime Survey (VOCS).

The Master Sample used a two-staged, stratified design with probability-proportional-to-size (PPS) sampling of PSUs from within strata, and systematic sampling of dwelling units (DUs) from the sampled primary sampling units (PSUs). A self-weighting design at provincial level was used. Stratification was done in two stages: Primary stratification was defined by metropolitan and non-metropolitan geographic area type. During secondary stratification, the Census 2001 data were summarised at PSU level. The following variables were used for secondary stratification: household size, education, occupancy status, gender, industry, and income.

Census enumeration areas (EAs) as delineated for Census 2001 formed the basis of the PSUs. The following additional rules were used:

- Where possible, PSU sizes were kept between 100 and 500 dwelling units (DUs);
- EAs with fewer than 25 DUs were excluded;
- EAs with between 26 and 99 DUs were pooled to form larger PSUs and the criteria used was 'same settlement type';
- Virtual splits were applied to large PSUs: 500 to 999 splits into two; 1 000 to 1 499 splits into three; and 1 500 plus split into four PSUs; and
- Informal PSUs were segmented.

A randomised probability-proportional-to-size (RPPS) systematic sample of PSUs was drawn in each stratum, with the measure of size being the number of households in the PSU. Altogether, approximately 3 080 PSUs were selected. In each selected PSU, a systematic sample of this report deals with the data that were collected from January 2022 to March 2023. Given that a three-month recall period is used, the data of DTS 2023 January to March had to be included to fully construct the October, November, and December 2023 datasets. The DTS 2023 was based on the new Master Sample that was developed after Census 2011.

B. Sample design of the DTS 2023 Quarter 1

One of the objectives of the DTS is to obtain estimates that indicate the tourism contribution towards South Africa's economy. However, this can be obtained by calculating estimates within the calendar year. Due to the rolling three-month recall period, there was a need to supplement the DTS 2023 data with the DTS 2024 Quarter 1 data. This first quarter of the DTS 2024 contains data from the trips undertaken in October, November and December 2023.

Allocating sample sizes to strata¹

The randomised PPS systematic sampling method is described below. This procedure was applied independently within each design stratum.

Let N be the total number of PSUs in the stratum, and the number of PSUs to be selected from the stratum is denoted by n . Also, let x_i denote the size measure of the PSU i within the stratum, where $i = 1, 2, 3, \dots, N$. Then, the method for selecting the sample of n PSUs with the Randomised PPS systematic sampling method can be described as follows:

Step 1: Randomise the PSUs within the stratum.

The list of N PSUs within the stratum can be randomised by generating uniform random between 0 and 1, and then by sorting the N PSUs in ascending or descending order of these random numbers. Once the PSUs have been randomised, we can generate permanent sequence numbers for the PSUs.

Step 2: Define normalised measures of size for the PSUs.

We denote by x_i the measure of size (MOS) of PSU i within the design stratum. Then, the measure of size

for the stratum is given by $X = \sum_{i=1}^N x_i$. We define the normalised size measure p_i of PSU i as $p_i = x_i / X$; $i = 1, 2, 3, \dots, N$, where N is the total number of PSUs in the design stratum. Then, p_i is

the relative size of the PSU i in the stratum, and $\sum_{i=1}^N p_i = 1$ for all strata.

It should be noted that the value of $n \times p_i$, which is the selection probability of PSU i must be less than one.

Step 3: Obtain inverse sampling rates (ISRs)

Let R be the stratum inverse sampling rate (ISR). The stratum ISR is the same as the corresponding provincial ISR, because of the proportional allocation within the province.

It should also be noted that the proportional allocation within the province also results in a self-weighting design.

Then, the PSU inverse sampling rates (ISRs) are obtained as follows:

First, define N real numbers $Z_i = n \times p_i \times R$; $i = 1, 2, 3, \dots, N$. It is easy to verify that $\sum_{i=1}^N Z_i = n \times R$.

Next, round the N real numbers Z_i ; $i = 1, 2, 3, \dots, N$ to integer values R_i ; $i = 1, 2, 3, \dots, N$ such that each R_i is as close as possible to the corresponding Z_i value and the R_i values add up to $n \times R$ within the stratum.

In other words, the sum of the absolute differences between the R_i and the corresponding Z_i values is minimised subject to the constraint that the R_i values add up to $n \times R$ within the stratum. Drew, Choudhry and Gray (1978) provide a simple algorithm to obtain the integer R_i values as follows:

¹ Source: Sample Selection and Rotation for the Redesigned South African Labour Force Survey, by G. Hussain Choudhry, 2007.

Let " d " be the difference between the value $n \times R$ and the sum $S = \sum_{i=1}^N [Z_i]$, where $[\cdot]$ is the integer function, then R_i values can be obtained by rounding up the " d " Z_i values with the largest fraction parts, and by rounding down the remaining $(N - d)$ of them.

It should be noted that the integer sizes $R_i; i = 1, 2, 3, \dots, N$ are also the PSU inverse sampling rates (ISRs) for systematic sampling of dwelling units.

Step 4: Obtain cumulative ISR values

We denote by $C_i; i = 1, 2, 3, \dots, N$ the cumulative ISRs of the PSUs within the stratum. It should be noted that the PSUs within the stratum have been sorted according to the sequence numbers that were assigned after the randomisation. Then, the cumulative ISRs are defined as follows:

$$C_1 = R_1,$$

$$C_j = C_{(j-1)} + R_j; \quad j = 2, 3, \dots, N.$$

It should be noted that the value C_N will be equal to $n \times R$, which is also the total number of systematic samples of dwelling units that can be selected from the stratum.

Step 5: Generate an integer random number r between 1 and R , and compute n integers r_1, r_2, \dots, r_n as follows:

$$r_1 = r$$

$$r_2 = r_1 + R$$

$$r_3 = r_2 + R$$

.

.

$$r_i = r_{(i-1)} + R$$

.

.

$$r_n = r_{(n-1)} + R.$$

Step 6: Select n PSUs out of the N PSUs in the stratum with the labels (sequence numbers) number i_1, i_2, \dots, i_n such that:

$$C_{i_1-1} < r_1 \leq C_{i_1}$$

$$C_{i_2-1} < r_2 \leq C_{i_2}$$

.

.

$$C_{i_n-1} < r_n \leq C_{i_n}.$$

Then, the n PSUs with the labels i_1, i_2, \dots, i_n would get selected with probabilities proportional to size, and the selection probability of the PSU i will be given by $\frac{R_i}{R}$.

Weighting

DTS 2023 was collected continuously, based on a rolling three-month recall period. This meant that to reconstruct travel for the period January to December 2023, data from the 2023 DTS and the DTS 2024 January to March collection were used to create the final data set. Thus 14 survey months from February 2023 to March 2024 were used to create the 12 monthly data files for the calendar year 2023. Sampling weights were then constructed for the 12 reference months. These included both full sample and replicate weights for each of the 12 reference months. The full sample and replicate weights were calibrated using the population control totals for the cells defined by the cross-classification Age-Group x Population-Group x Gender at the national level, and broad Age-Groups at the province level. These are the same population control totals that are used for constructing the calibrated weights for the Quarterly Labour Force Survey and the other household surveys. The weighted monthly data files can be combined to produce annual and bi-annual estimates with the WESVAR software.

Sampling and the interpretation of the data

Caution must be exercised when interpreting the results of the DTS at low levels of dis-aggregation. Revisions to the DTS data sets based on the new population estimates involved benchmarking at national level in terms of age, sex and population group while at provincial level, benchmarking was by population group only. The sample and reporting are based on the provincial boundaries as defined in December 2005. The DTS 2023 data was collected from January to December 2023 and therefore takes seasonality into consideration. Its unique weighting method also results in the data not being comparable with the data collected during the previous years.

Coverage

The target population is private households in all nine provinces of South Africa, and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

Definitions of terms

A **trip** is a journey taken outside the usual environment of the household.

Day trip is a trip during which the respondent or members of the household went for the trip and returned on the same day.

Overnight trip is a trip on which the respondent spent one or more nights away from his or her usual environment.

Package trip is a trip in which two or more items are included in the price (e.g. accommodation and transport).

Tourism includes all trips away from one's usual environment, not just holiday/leisure trips. It also includes trips related to business, visiting friends and/or relatives, medical/health, and religious journeys amongst others.

The **usual environment** is defined as all places within a 40 kilometres radius of the place of usual residence of the respondent, and all places that the respondent visits at least once a week (e.g. going to work), irrespective of the distance from their usual residence.

Period of reference refers to the three months prior to the survey period. For example, for the survey period January 2024, the period of reference would be trips undertaken in October 2023; November 2023 and December 2023.

Table A: Contents of the DTS 2023 questionnaire

Section	Details of each section
Background	Prefilled section, Aim and Use of the survey, Objectives of the survey, confidentiality clause, Particulars of dwelling unit and household
	Demographic information (name, sex, age, population group, education)
Section 1	Domestic day trips
Section 2	
Section 3	Domestic Overnight trips
Section 4	
Section 5	Level of satisfaction
Section 6	Household living conditions
Last section	Result codes and comments

Table B: Response rates per province (percentages), DTS 2023

Province / Metropolitan Area	Response Rates (%)
Western Cape	82.19
Eastern Cape	95.11
Northern Cape	90.41
Free State	92.11
KwaZulu-Natal	91.64
North West	88.27
Gauteng	76.21
Mpumalanga	91.38
Limpopo	97.57
National	86.88

Data file: Day trips

Unique number (UQNO) (@1 18.)
Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

Valid range: 160100090000004801-987106920000066401

Person (respondent) number within household (PERSONNO) (@19 2.)
Person (respondent) number within Household

Valid range: 1–28

Note: The two fields above (unique number and person number) create an 18-digit unique person identifier, which can be used to link a record from this file with another record for the same individuals from other files.

Individual number (INDIVIDUALNO) (@21 2.)
Person (respondent) number within Household.

Valid range: 1–28

Survey date (SURVEY_DATE) (@23 7.)

Identifies the quarter, month, and the year in which the survey takes place.

Valid range: 1012023 – 4122024

Data month (DATAMONTH) (@30 9.)

Identifies the month for which recall was done.

Valid range: 01JAN2023– 12DEC2023

Province (PROV) (@39 1.)

South African provinces

Derived variable: Derived from the first digit of the Unique Number taking the December 2005 provincial boundaries into account.

Final code list

- 1 = Western Cape
- 2 = Eastern Cape
- 3 = Northern Cape
- 4 = Free State
- 5 = KwaZulu-Natal
- 6 = Northwest
- 7 = Gauteng
- 8 = Mpumalanga
- 9 = Limpopo

Stayed Nights (FOUR_BY_FOUR)

(@40 1.)

B	<p>Has stayed here (in this household) for at least four nights on average per week during the last four weeks?</p> <p>01 = YES 02 = NO</p>
----------	---

Note to users

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered 'No' in this question. It is through this question that household members are identified within the selected dwelling.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

10 = Yes

Gender (SEX)

(@41 1.)

C	<p>Is a male or a female?</p> <p>01 = MALE 02 = FEMALE</p>
----------	--

Note to users

This question is asked for each household member, to determine his or her gender. This question, and all consequent questions, are applicable only if there is a 'Yes' answer in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

1 = Male
2 = Female
8 = Not applicable
9 = Unspecified

Date of birth (DOB)

(@42 10.)

D (i)	<p>What is 's date of birth?</p>
--------------	--

Note to users

This question is asked to find the date of birth of the household members.

Universe

Every person who normally resides in this household at least four nights per week.

Valid range: 1900-01-01 – 2024-02-22
9999999999 = Unspecified

Age (Age)

(@52 3.)

D(ii)	What is 's age in completed year?
--------------	--

Note to users This question is asked to find the ages of the household members. The instruction is to write the years in whole numbers and not in words. The age must be recorded as at last birthday or age in completed years. Thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write 000.

Universe

Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior to the interview.

Final code list

Less than 1 year = 0

Valid range: 0-120

999 = Unspecified

Population group (POPULATION)

(@55 1.)

E(i)	What population group does belong to?
	01 = BLACK AFRICAN
	02 = COLOURED
	03 = INDIAN/ASIAN
	04 = WHITE
	05 = OTHER, specify...

Note to users

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance, the enumerator is also instructed not to make any conclusions which may be influenced by his observation or the use of people's names during the interview. This question may seem very sensitive to some respondents especially in this post-apartheid era, but it is important to find out the composition of the South African population.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

1 = Black African

2 = Coloured

3 = Indian/Asian

4 = White

5 = Other, specify...

9 = Unspecified

Relationship to the household head (RELTOHEAD)

(@56 2.)

F	<p>What is 's relationship to the head/acting head of the household?</p> <p>1 = Head/acting head</p> <p>2 = Husband/wife/partner of household head</p> <p>3 = Son/daughter/stepchild/adopted child of household head</p> <p>4 = Brother/sister/stepbrother/sister of household head</p> <p>5 = Father/mother/stepfather/stepmother of household head</p> <p>6 = Grandparent/great grandparent of household head</p> <p>7 = Grandchild/great grandchild of household head</p> <p>8 = Other relative (e.g. in-laws or aunt/uncle) of household head</p> <p>9 = Non-related persons</p>
----------	---

Note to users

This is a single select question; the interviewer will select one response as given by the respondent. The aim is to establish the relationship between household member and the head or acting head of the household. It should be asked in such a way that reflects the relationship of the selected member to the head of the household, and not the head of the household's relationship to the household member.

Universe

Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior to the interview.

Final code list

- 1 = Head/acting head
- 2 = Husband/wife/partner of household head
- 3 = Son/daughter/stepchild/adopted child of household head
- 4 = Brother/sister/stepbrother/sister of household head
- 5 = Father/mother/stepfather/stepmother of household head
- 6 = Grandparent/great grandparent of household head
- 7 = Grandchild/great grandchild of household head
- 8 = Other relative (e.g. in-laws or aunt/uncle) of household head
- 9 = Non-related persons
- 99 = Unspecified

Marital status (MARITALSTATUS)

(@58 1.)

F(i)	<p>What is 's present marital status?</p> <p>1 = Married</p> <p>2 = LIVING TOGETHER LIKE HUSBAND AND WIFE</p> <p>3 = DIVORCED <input type="checkbox"/> GO TO G</p> <p>4 = SEPARATED, BUT STILL LEGALLY MARRIED <input type="checkbox"/> GO TO G</p> <p>5 = WIDOWED <input type="checkbox"/> GO TO G</p> <p>6 = SINGLE <input type="checkbox"/> GO TO G</p>
-------------	---

Note to users

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question. If the response is 'widow/widower', 'divorced or separated', or 'never married', the enumerator is instructed to go to Question G.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Legally married (include customary, traditional, religious, etc.)
 2 = Living together like husband and wife
 3 = Divorced
 4 = Separated, but still legally married
 5 = Widowed
 6 = Single
 9 = Unspecified

Partner (SPOUSEINHH)

(@59 1.)

F(ii)	Is’s spouse/partner a residing member of this household?
	01 = YES
	02 = NO <input type="checkbox"/> Go to G

Note to users

This question attempts to identify whether the spouse/partner of the household member lives in the household.

Universe

This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife' (F1).

Final code list

- 1 = Yes
 2 = No
 8 = Not applicable

Partner (Person number) (WHICHSPOUSE)

(@60 2.)

F(iii)	Which person is the spouse/partner of? Give person number
---------------	--

Universe This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife'.

- Valid range: 01 - 14
 88 = Not applicable
 99 = Unspecified

Highest Grade (EDUCATION)

(@62 2.)

G	What is the highest level of education that has successfully completed?
	<i>Diplomas or certificates must be of six months plus study duration full-time (or equivalent) to be included.</i>
	98 = NO SCHOOLING
	00 = GRADE R/0
	01 = GRADE 1/ SUB A/ CLASS 1
	02 = GRADE 2/ SUB B/ CLASS 2
	03 = GRADE 3/STANDARD 1/ABET/AET 1
	04 = GRADE 4/ STANDARD 2

05	= GRADE 5/STANDARD 3/ABET/AET 2
06	= GRADE 6/ STANDARD 4
07	= GRADE 7/STANDARD 5/ABET/AET 3
08	= GRADE 8/ STANDARD 6/ FORM 1
09	= GRADE 9/STANDARD 7/FORM 2/ABET /AET 4/NCV LEVEL 1/OCCUPATIONAL CERTIFICATE-NQF LEVEL 1
10	= GRADE 10/STANDARD 8/FORM 3/NCV LEVEL 2/OCCUPATIONAL CERTIFICATE-NQF LEVEL 2
11	= GRADE 11/STANDARD 9/FORM 4/NCV Level 3/OCCUPATIONAL CERTIFICATE-NQF LEVEL 3
12	= GRADE 12/STANDARD 10/FORM 5/NATIONAL SENIOR CERTIFICATE/MATRIC/NCV LEVEL 4/OCCUPATIONAL CERTIFICATE-NQF LEVEL 4
13	= NTC I/N1
14	= NTC II/N2
15	= NTC III/N3
16	= N4/NTC 4/OCCUPATIONAL CERTIFICATE-NQF LEVEL 5
17	= N5/NTC 5/OCCUPATIONAL CERTIFICATE-NQF LEVEL 5
18	= N6/NTC 6/OCCUPATIONAL CERTIFICATE-NQF LEVEL 5
19	= CERTIFICATE WITH LESS THAN GRADE 12/STANDARD 10
20	= DIPLOMA WITH LESS THAN GRADE 12/STANDARD 10
21	= HIGHER/NATIONAL/ADVANCED CERTIFICATE WITH GRADE 12/STD 10/OCCUPATIONAL CERTIFICATE-NQF LEVEL 5
22	= DIPLOMA WITH GRADE 12/STANDARD 10/OCCUPATIONAL CERTIFICATE-NQF LEVEL 6
23	= HIGHER DIPLOMA/OCCUPATIONAL CERTIFICATE (B-TECH DIPLOMA)-NQF LEVEL 7
24	= POST HIGHER DIPLOMA (MASTERS DIPLOMA AND MASTERS DEGREE)-NQF LEVEL 9
25	= BACHELORS DEGREE/OCCUPATIONAL CERTIFICATE-NQF LEVEL 7
26	= HONOURS DEGREE/POSTGRADUATE DIPLOMA/OCCUPATIONAL CERTIFICATE-NQF LEVEL 8
27	= DOCTORAL DEGREES (DOCTORAL DIPLOMA AND PHD)-NQF LEVEL 10
28	= OTHER
29	= DO NOT KNOW

Note to users

The interviewers are instructed to recognise qualifications that have already been completed and only diploma and certificates with a duration of at least six months and more.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 98 = No schooling
- 0 = Grade R/0
- 1 = Grade 1/ Sub A/ Class 1
- 2 = Grade 2 / Sub B/ Class 2
- 3 = Grade 3/Standard 1/ABET/AET 1

Work status (WORKSTATUS)

(@64 1.)

H	Which of the following best describes ...'s work status?
	SINGLE SELECTION 01 = WORKING: FULL-TIME 02 = WORKING: PART-TIME 03 = NOT WORKING: LOOKING FOR A JOB 04 = NOT WORKING: NOT LOOKING FOR A JOB 05 = NOT WORKING: RETIRED/PENSIONER 06 = NOT WORKING: STUDENT/SCHOLAR 07 = NOT WORKING: DISABLED

Note to users

The purpose of the question is to establish whether the respondent is working or not working.

Universe

Every person 15 years and above who normally resides in this household for at least four nights per week.

Final code list

- 1 = Working: full-time
 2 = Working: part-time
 3 = Not working: looking for a job
 4 = Not working: not looking for a job
 5 = Not working: retired/pensioner
 6 = Not working: student/scholar
 7 = Not working: disabled
 8 = Not applicable
 9 = Unspecified

Physically present (PRESENT)

(@65 1.)

I	<p>Isphysically present to answer the following questions for him/herself on trips they have taken?</p> <p>01 =YES 02 =NO</p>
----------	--

Note to users

The purpose of the question is to find whether all members of the household are available to respond to the trip questions themselves.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Yes
- 2 = No
- 9 = Unspecified

Person who was the respondent (Respondent)

(@66 2.)

J	<p>Indicate the column number of the person who was the respondent throughout the questionnaire</p>
----------	--

Note to users

This question was in Section 8 in the previous surveys. It is important to identify your respondent first when conducting the DTS questionnaire since the respondent is most of the time our reference person. Hence the question is moved in the initial stages of the interview Universe, the respondent who is responding on behalf of the household.

Valid range: 1–12

99 = Unspecified

Day trip (Q11DAYSA)

(@68 1.)

1.1	<p>In the three calendar months before/prior to survey date has ... taken any day trip inside South Africa? (i.e 40km and above, outside your usual environment)?</p> <p>SINGLE SELECTION</p> <p>01 = YES, 40 KM AND MORE (ANY PURPOSE) 02 = YES, LESS THAN 40KM FOR LEISURE 03 NO, LESS THAN 40KM. 04 = NO, DID NOT TRAVEL AT ALL 05 = DO NOT KNOW</p>
------------	--

Note to users

This is about day trip(s) the members of the household took and returned on the same day within the borders of South Africa i.e. members of the household did not spend the night away or sleep over.

Universe

Every person who normally resides in this household at least four nights per week.

Final list code

- 1 = Yes, 40km and more any purpose)
- 2 = Yes, less than 40km for leisure
- 3 = No, less than 40km
- 4 = No, did not travel at all
- 5 = Do not know
- 9 = Unspecified

Why were no day trips taken (Q12WHYNODAY)

(@69 2.)

1.2	<p>Why did ... not take any trips inside South Africa in the past three calendar months?</p> <p>Record only ONE response</p> <p>01 = NO FAMILY/FRIENDS TO VISIT SOMEWHERE ELSE</p> <p>02 = FINANCIAL REASONS</p> <p>03 = TOO EXPENSIVE, CANNOT AFFORD TO TRAVEL</p> <p>04 = TIME CONSTRAINTS</p> <p>05 = DISLIKE TRAVELLING</p> <p>06 = HEALTH REASONS</p> <p>07 = HAVE YOUNG CHILDREN</p> <p>08 = LIVING WITH DISABILITY</p> <p>09 = TOO OLD TO TRAVEL</p> <p>10 = SAFETY AND SECURITY REASONS</p> <p>11 = NO REASON TO UNDERTAKE A TRIP</p> <p>12 = DUE TO FLOODS</p> <p>13 = OTHER</p>
------------	--

Note to users

The purpose of the question is to find why the respondent and/or other household members didn't go on any day trips in the three months prior to the survey. This question is asked if the response to Q1.2 was 'No'.

Universe

All members of the household who did not take any day trips inside South Africa.

Final Code List

- 1 = No family/ friends to visit somewhere else
- 2 = Financial reasons (Not enough money)
- 3 = Too expensive/ I would rather spend money on something else
- 4 = Time constraints
- 5 = Dislike travelling
- 6 = Health reasons

- 8 = Living with disability
- 9 = Too old to travel
- 10 = Safety and security reasons
- 11 = No reason to undertake a trip
- 12 = Due to floods
- 13 = Other
- 88 = Not applicable
- 99 = Unspecified

Number of trips taken (Q13BDAYSA)

(@71 2.)

1.3	How many day trips did ... take inside South Africa in the three calendar months before/prior to survey date?
-----	--

Note to users

The purpose of the question is to find the number of day trip(s) the member(s) of the household took inside South Africa within the reference period, i.e. the past three months.

Universe

The household members who took day trips.

Valid range: 1 – 40

88 = Not applicable

99 = Unspecified

Months in which trips were undertaken.

Read out the following statement to the respondent: **You've already told me that you took a day trip(s) inside South Africa in the past three calendar months,**

1.4	Can you tell me which month(s) these trips took place? Record number of trips per month. If exact months are not known, help respondent to make rough estimates.	NUMBER OF TRIPS
	(A) Interview month January	<input type="text"/> <input type="text"/>
	01 = December	<input type="text"/> <input type="text"/>
	02 = November	<input type="text"/> <input type="text"/>
	03 = October	<input type="text"/> <input type="text"/>
	Total (Add 01 – 03 to confirm total)	<input type="text"/> <input type="text"/>
	(B) Interview month February	<input type="text"/> <input type="text"/>
	04 = January	<input type="text"/> <input type="text"/>
	05 = December	<input type="text"/> <input type="text"/>
	06 = November	<input type="text"/> <input type="text"/>
	Total (Add 04 – 06 to confirm total)	<input type="text"/> <input type="text"/>
	(C) Interview month March	<input type="text"/> <input type="text"/>
	07 = February	<input type="text"/> <input type="text"/>
	08 = January	<input type="text"/> <input type="text"/>
	09 = December	<input type="text"/> <input type="text"/>
	Total (Add 07 – 09 to confirm total)	<input type="text"/> <input type="text"/>

Note to users

The months used for this question differ between quarters. The example is based on a Quarter 1 questionnaire. The question seeks to find the number of trips taken by the member(s) of the household in each month or months within the reference period, i.e. the past three months. The instruction to the interviewer is to record the number of all trips taken. These are day trip(s) taken outside the usual environment i.e. 40 kilometres and above, away from the usual place of residence.

Note to users

The purpose of the question is to find the final destination of the member(s) of the household. The member(s) of the household was asked to tick the province and district which was visited and write the place name of the town(s) which were visited during the trip. Final code list is as per the listing above.

Universe

All household members who took day trips.

Valid Range: 11-71

888 = Not applicable

999 = Unspecified

Place name (Q251PLACE)

(@160 5.)

2.5a	What was the main place visited on this trip?
-------------	--

Note to users:

Place names are listed in the final dataset and are coded.

Universe

All household members who took day trips.

Valid Range: 72-12558

88888 = Not applicable

99999 = Unspecified

Place name (uncoded) (Q252NOPLACENAME)

(@165 16.)

Place names are listed in the final dataset and are not coded. Note to users, the place names of the town(s) are included in the final datasets but not in a coded format and were not standardised. Only spelling errors were corrected and released as it was received from the field. The updated code list for place names will be available after Census 2022.

Purpose of trip (Q26MAINP)

(@181 2.)

2.6	<p>What was the main purpose of this trip?</p> <p><i>Select ONE response only</i></p> <p>01 = HOLIDAY/ LEISURE AND RECREATION 02 = SHOPPING - PERSONAL 03 = SPORTING- SPECTATOR 04 = VISITING FRIENDS AND/OR RELATIVES 05 = BUSINESS AND PROFESSIONAL 06 = EDUCATION AND TRAINING 07 = MEDICAL 08 = RELIGIOUS 09 = FUNERAL 10 = OTHER</p>
------------	---

Note to users

The question refers to the purpose in the absence of which the trip would not have been made or the given destination would not have been visited. This is the main reason why the trip was undertaken.

Universe

All household members who took day trips.

Final code List

- 1 = Holiday/Leisure and Recreation
- 2 = Shopping - Personal
- 3 = Sporting- Spectator
- 4 = Visiting Friends and/ or Relatives
- 5 = Business and Professional
- 6 = Education and Training
- 7 = Medical
- 8 = Religious
- 9 = Funeral
- 10 = Other
- 88 = Not applicable
- 99 = Unspecified

2.7	<p>What was the main type of transport used to reach the main destination? <i>This is the transport used for the longest part of the journey in terms of distance to reach the destination.</i></p> <p>01 = MY OWN CAR/ VAN/ BAKKIE 02 = SOMEONE'S CAR/ VAN/ BAKKIE 03 = RENTAL CAR 04 = MINIBUS TAXI 05 = METERED TAXI 06 = APP BASED CABS (e.g. UBER) 07 = COMMERCIAL BUS 08 = TOUR BUS 09 = ON FOOT OR BICYCLE 10 = MOTORCYCLE 11 = TRUCK OR LORRY 12 = TRAIN 13 = AIRCRAFT 14 = OTHER</p>
------------	--

Note to users

The purpose of the question is to find out the main type of transport that was used to travel to the destination. This should be the transport that covered most or the longest part of the journey in kilometres, before reaching the destination. An example would be a situation where the family fly to a destination for a holiday (2 hours) and then rent a car upon their arrival to travel to the hotel (30 minutes). In this case, the main type of transport would be an aeroplane.

Trip bookings (Q217BOOK)

(@320 1.)

2.17	How was the trip booked?
01	= A TOUR OPERATOR
02	= A TRAVEL AGENT
03	= BOOKED INDEPENDENTLY
04	= NO BOOKING NECESSARY
05	= DO NOT KNOW

Note to users

The aim of the question is to find out which methods the members of the household used to book their trip, if any bookings were necessary for their trip. The traveller(s) might have booked for himself/ herself or used agents such as Travel Agents that are intermediaries between themselves and the Tour Operator and also deal with package deals to make the bookings for them.

Universe

To the members of the household who took day trip(s) in South Africa.

Final code list

2 = Travel agent
 3 = Booked independently
 4 = No booking necessary
 5 = Do not know
 8 = Not applicable
 9 = Unspecified

Booking method (Q218METHOD)

(@321 1.)

2.18	What method was used to book?
01	= PERSONAL VISIT TO TRAVEL SHOP
02	= ENTIRELY BY TELEPHONE
03	= ON THE INTERNET
04	= THROUGH FAX/ POST
05	= DO NOT KNOW

Note to users

The question seeks to find the manner in which the member(s) of the household made their booking for the trip. That is if they went personally to the offices of Tour Operators or Travel Agents to make the bookings or whether they just made telephone calls, fax or through the Internet for their travel arrangements.

Universe

To the member(s) of the household who took day trip(s) in South Africa and who made bookings for their trip.

Final code list

1 = Personal visit to travel shop
 2 = Entirely by telephone
 3 = On the Internet
 8 = Not applicable
 9 = Unspecified

Period of booking (Q219DURATN)

(@322 2.)

2.19	How long before the trip was the booking made?
01	= UNDER TWO WEEKS
02	= TWO TO THREE WEEKS
03	= ONE MONTH
04	= TWO MONTHS
05	= THREE MONTHS
06	= FOUR MONTHS
07	= FIVE MONTHS
08	= SIX MONTHS OR MORE
09	= DO NOT KNOW

Note to the users

The aim of the question is to find the timeframe in weeks and months, the period it has taken before the trip was confirmed i.e. the member(s) was informed that he/she has secured the booking for the trip.

Universe

To the member(s) of the household who took day trip(s) in South Africa and who made bookings for their trip.

Final code list

1 = Under two weeks
 2 = Two to four weeks
 3 = One month
 5 = Three months
 7 = Five months
 88 = Not applicable
 99 = Unspecified

Package terms (Q220PACKTYPE)

(@324 1.)

2.20	Which of the following packages didbuy for his/her trip?
	<p>01 FULLY INCLUSIVE PACKAGE (I.E. TRANSPORT, ACCOMMODATION, SHOPPING, COACH TOURS, FOOD AND BEVERAGES)</p> <p>02 FULL PACKAGE (I.E. TRANSPORT, ACCOMMODATION, CAR HIRE, FOOD AND BEVERAGES)</p> <p>03 PACKAGE (I.E. TRANSPORT, ACCOMMODATION AND CAR HIRE BUT NOT FOOD)</p> <p>04 INDEPENDENT ARRANGEMENT / NO PACKAGE (E.G. TRANSPORT, ACCOMMODATION, CAR HIRE, COACH TOURS AND FOOD WERE EACH BOOKED SEPARATELY)</p>

Note to users

The aim of the question is to attribute what was included in the price of the package.

Universe

To the members of the household who took day trip(s) in South Africa

Final code list

- 1 = Fully inclusive package (i.e. transport, accommodation, shopping, coach tours, food and beverages)
- 2 = Full package (i.e. transport, accommodation, car hire, food and beverages)
- 3 = Package (i.e. transport, accommodation and car hire but not food)
- 4 = Independent arrangement/ no package (e.g. transport, accommodation, car hire, coach tours and food were each booked separately)
- 8 = Not applicable
- 9 = Unspecified

Cost of package trip (Q2201COST)

(@325 5.)

2.20.1	How much did this package trip cost?	Rands
	Give the total cost of the package for household members who were in the group	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>

Note to users

The aim of the question is to attribute the cost of the package amount from Q2.22 to the different elements included in the package price. It also acts as a check to individual expenditure items, that they are not recorded twice in Q2.12.

Universe

To the member(s) of the household who took day trip(s) in South Africa whose last trip was a package trip.

Final code list

Valid range: 0 – 29000

9 = Unspecified

DERIVED VARIABLES:**Survey month (SURVEYMONTH)**

(@422 7.)

Note to users

Identifies the month in which the household was visited during the enumeration stage.

Derived from:

Survey date (SURVEY_DATE)

Valid range: 01-12

1022023 – 1032024

Verified age (Verified age)

(@429 3.)

Note to users

This question is asked to find ages of the household members. The instruction is to write the years in whole numbers and not in words. The age must be recorded as at last birthday or age in completed years. Thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write 000.

Universe

Every person who normally resides in this household at least four nights per week.

Valid range: 0 - 120

Age group 1 (Age_grp1)

(@432 1.)

Final code list

1 = 00–09 years

2 = 10–19 years

3 = 20–29 years

4 = 30–39 years

5 = 40–49 years

6 = 50–64 years

7 = 65+ years

Age group 2 (Age_grp2)

(@433 1.)

Note to users

This is a broad age group at provincial level.

Final code list

- 1 = 00–14 years
- 2 = 15–34 years
- 3 = 35–64 years
- 4 = 65+ years

Person identifier (PERSON_ID) (@434 20.)

Note to users

This variable was derived from combining the unique number of the household and the person number of a particular member of that household.

Derived from logical series of questions:

Unique number (UQNO)

Person number (PersonNO)

Valid range: 16010009000000480101 - 98710692000006640105

Month of recent trip (Q22_Month) (@454 2.)

Derived from Q22DATE

Note to users

This is the date (month) on which the member(s) of the household returned home or their usual place of residence from their respective day trips.

Valid range: 1 – 12

88 = Not applicable

99 = Unspecified

Total number of day trips (day_trips) (@456 2.)

Derived from:

Q1.4 Questions that ask about the month the trip took place.

Note to users

This variable was derived from the responses to the number of trips a member of the household would have taken in the three months before the interview.

Valid range: 0-15

88 = Not applicable

99 = Unspecified

Household size (hholdsz) (@458 2.)

Valid range: 1 – 28

Food and beverages (Food) (@460 4.)

Expenses whilst on trip (q213foodc)

Valid range: 1 – 5000

Domestic transport (Transport) (@463 4.)

Derived from:

Expenses before trip (Q212vehc)

Expenses whilst on trip (Q213TRANSC)

Valid range: 3 – 8600**Recreation and Culture (RECANDCULT)** (@ 466 4.)

Derived from:

Expenses whilst on trip (Q213RECREC)

Valid range: 5 –2000**Shopping (Shopping)** (@468 5.)

Derived from:

Expenses before trip (Q212SHOPC)

Expenses whilst on trip (Q213SHOPC, Q213SHOPBC)

Valid range: 2 – 51000**Other (Other)** (@471 4.)

Derived from:

Total expenses before trip (Q212TRAVINC, Q212SECUC, Q212MEDIC, Q212OTHRC)

Total expenses whilst on trip (Q213MEDIC, Q213OTHRC)

Valid range: 0 – 5050**Total (Total)** (@474 4.)

Derived from:

This variable is the sum of expenses for the trip (Accommodation, food, transport, recandcult, shopping, other)

Valid range:1–65950**EA type (ea_gtype_code)** (@478 1.)**Note to users**

This variable is based on the Census 2011 typology. This typology was used to classify all enumeration areas (EA) and per implication the DTS sampled PSUs into one of three classes namely: Urban, traditional and farms.

Final code list:

1 = Urban

2 = Traditional

3 = Farms

Municipality code (Municipality_CODE) (@479 3.)**Valid range:** 160 – 987

Day trips by weight (daytripsBYweight)

(@482 13.)

Note to users

Derived weight variable:

This weight is a product of the number of trips undertaken by a household member and their individual calibrated weight (cal_abwgt). It applies weights to all the trips that an individual undertook during the reference period, and results in a weighted number of trips undertaken by a particular individual. It can be used if one wants to extrapolate the detailed trip information for the most recent trip to all trips undertaken during a particular reference month. This weight was used for the calculation of total expenditure on trips.

Valid range: 0 – 2235243.0107

Divided weight (divided_calwgt)

(@495 11.)

Note to users

Derived weight variable:

This weight was derived by adjusting the calibrated weight (cal_abwgt) by the twelve monthly weight files in the data. This weight is not trip based, but rather population based and should only be used under circumstances where seasonality does not play a role. For example, any analysis using absolute numbers and which relate to the population age, sex etc. should be done using this weight.

Valid range: 4.1666666667 – 2116,7073965

Weight (cal_abwgt)

(@506 12.)

Note to users

This is a monthly weight. It is the result of weighting the recall data for each data month separately up to the total population of South Africa. Thus, all weighted data related to the January recall period will add up to the population total of South Africa, that of February to the total population of South Africa and so on. If the whole dataset for all months is combined and analysed the population total will therefore add up to twelve times the population of South Africa. This weight should always be used if the total number of trips per month need to be calculated. Most of the analysis in the DTS 2018 release is based on this weight. However, when tables refer to the “most recent trip” only records for which the trip date corresponds with the data month is taken into consideration during analysis.

Valid range: 50 – 2116,7073965

Data file: Overnight

Unique number (UQNO) (@1 18.)
Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

Valid range: 160100090000004801 - 987106920000066401

Note: The two fields above (unique number and person number) create an 18-digit unique person identifier, which can be used to link a record from this file with another record for the same individuals from other files.

Person (respondent) number within household (PERSONNO) (@19 2.)
Person (respondent) number within Household

Valid range: 1–28

Note: The two fields above (unique number and person number) create an 18-digit unique person identifier, which can be used to link a record from this file with another record for the same individuals from other files.

Individual number (INDIVIDUALNO) (@21 2.)
Person (respondent) number within Household.

Valid range: 1–28

Survey date (SURVEY_DATE) (@23 7.)
Identifies the quarter, month, and the year in which the survey takes place.

Valid range: 1022023 – 1032024

Data month (DATAMONTH) (@30 9.)
Identifies the month for which recall was done.

Valid range: 01JAN2023 – 12DEC2024

Province (PROV) (@39 1.)
South African provinces

Derived variable: Derived from the first digit of the Unique Number taking the December 2005 provincial boundaries into account.

Final code list

- 1 = Western Cape
- 2 = Eastern Cape
- 3 = Northern Cape

- 4 = Free State
- 5 = KwaZulu-Natal
- 6 = Northwest
- 7 = Gauteng
- 8 = Mpumalanga

Stayed Nights (FOUR_BY_FOUR)
1)

(@40

B	<p>Has stayed here (in this household) for at least four nights on average per week during the last four weeks?</p> <p>01 = YES</p> <p>02 = NO</p>
----------	---

Note to users

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered 'No' in this question. It is through this question that household members are identified within the selected dwelling.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

1 = Yes

Gender (SEX)

(@41 1.)

C	<p>Is a male or a female?</p> <p>01 = MALE</p> <p>02 = FEMALE</p>
----------	--

Note to users

This question is asked for each household member, to determine his or her gender. This question, and all consequent questions, are applicable only if there is a 'Yes' answer in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

- 1 = Male
- 2 = Female
- 9 = Unspecified

Date of birth (DOB)

(@42 10.)

D(i)	What is 's date of birth and age in completed years?
-------------	---

Note to users

This question is asked to find the date of birth of the household members.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

Age (Age)

(@52 3.)

D(ii)	What is 's age in completed year?
--------------	--

Note to users

This question is asked to find ages of the household members. The instruction is to write the years in whole numbers and not in words. The age must be recorded as at last birthday or age in completed years. Thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write 000.

Universe

Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior to the interview.

Final code list

Less than 1 year = 0
Valid range: 0-120

Population group (POPULATION)

(@55 1.)

E	What population group does belong to?
	01 = AFRICAN/BLACK
	02 = COLOURED
	03 = INDIAN/ASIAN
	04 = WHITE
	05 = OTHER, specify.....

Note to users

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions which may be influenced by his observation or using people's names during the interview. This question may seem very sensitive to some respondents especially in this post-apartheid era, but it is really important to find out the composition of the South African population.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

- 1 = African/Black
- 2 = Coloured
- 3 = Indian/Asian
- 4 = White
- 5 = Other
- 9 = Unspecified

Relationship to the household head (RELTOHEAD

(@56

2.)

F	<p>What is 's relationship to the head/acting head of the household?</p> <ul style="list-style-type: none"> 1 = Head/acting head 2 = Husband/wife/partner of household head 3 = Son/daughter/stepchild/adopted child of household head 4 = Brother/sister/stepbrother/stepsister of household head 5 = Father/mother/stepfather/stepmother of household head 6 = Grandparent/great grandparent of household head 7 = Grandchild/great grandchild of household head 8 = Other relative (e.g. in-laws or aunt/uncle) of household head 9 = Non-related persons
---	--

Note to users

This is a single select question; the interviewer will select one response as given by the respondent. The aim is to establish the relationship between household member and the head or acting head of the household. It should be asked in such a way that it reflects the relationship of the selected member to the head of household, and not the head of the household's relationship to the household member.

Universe

Every person who has stayed in the household in the selected dwelling unit at least four nights on average per week in the four weeks prior to the interview.

Final code list

- 1 = Head/acting head
- 2 = Husband/wife/partner of household head
- 3 = Son/daughter/stepchild/adopted child of household head
- 4 = Brother/sister/stepbrother/stepsister of household head
- 5 = Father/mother/stepfather/stepmother of household head
- 6 = Grandparent/great grandparent of household head
- 7 = Grandchild/great grandchild of household head
- 8 = Other relative (e.g. in-laws or aunt/uncle) of household head
- 9 = Non-related persons
- 99 = Unspecified

Marital status (MARITALSTATUS)

(@58 1.)

F(i)	<p>What is’s present marital status?</p> <p>1 = Married</p> <p>2 = LIVING TOGETHER LIKE HUSBAND AND WIFE</p> <p>3 = DIVORCED <input type="checkbox"/> GO TO G</p> <p>4 = SEPARATED, BUT STILL LEGALLY MARRIED <input type="checkbox"/> GO TO G</p> <p>5 = WIDOWED <input type="checkbox"/> GO TO G</p> <p>6 = SINGLE <input type="checkbox"/> GO TO G</p>
-------------	--

Note to users

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question. If the response is 'widow/ widower', 'divorced or separated', or 'never married', the enumerator is instructed to go to Question G.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Legally married (include customary, traditional, religious, etc.)
- 2 = Living together like husband and wife
- 3 = Divorced
- 4 = Separated, but still legally married
- 5 = Widowed
- 6 = Single
- 9 = Unspecified

Partner (SPOUSEINHH)

(@59 1.)

F(ii)	<p>Does’s spouse/partner live in this household?</p> <p>1 = YES</p> <p>2 = NO <input type="checkbox"/> Go to G</p>
--------------	--

Note to users

This question attempts to identify whether the spouse/ partner of the household member lives in the household.

Universe

This question is only applicable to the people who indicated that they are 'Married' or 'Living together like husband and wife' (F1).

Final code list

- 1 = Yes
- 2 = No
- 8 = Not applicable

Partner (WHICHSPOUSE)

(@60 2.)

F(iii)	<p>Which person is the spouse/partner of?</p> <p>Give person number</p>
---------------	---

Universe

This question is only applicable to the people who indicated that they are 'Married' or 'Living together like husband and wife'.

Valid range: 01 - 14

88 = Not applicable

99 = Unspecified

Highest Grade (EDUCATION)

(@62 2.)

Present (PRESENT)

(@65 1.)

I	<p>Isphysically present to answer the following questions for him/herself on trips they have taken?</p> <p>01 =YES</p> <p>02 =NO</p>
----------	---

Note to users

The purpose of the question is to find out whether all members of the household are available to respond to the trip questions themselves.

Universe

The respondent who is responding on behalf of the household.

Final code list

- 1 = Yes
- 2 = No
- 9 = Unspecified

Taken overnight Trips (Q31TAKEOVEN)

1.)

(@66

3.1	<p>In the three Calendar months before/prior to ...(<i>Survey_date</i>), has ... taken any overnight trip inside South Africa?</p> <p>Single selection</p> <p>01 = YES, 40KM AND MORE (ANY PURPOSE)</p> <p>02 = YES, LESS THAN 40KM FOR LEISURE</p> <p>03 = NO, LESS THAN 40KM</p> <p>04 = NO, DID NOT TRAVEL AT ALL</p> <p>05 = DO NOT KNOW</p>
------------	---

Note to users

The purpose of the question is to find whether the member(s) of the household undertook an overnight trip, which is a trip where they spent at least one night or more away from their usual residence, but inside the borders of South Africa. If the respondent(s) answered 'Yes', go to Q3.3, whereas if the response is 'No' go to Q3.2

Universe

All members of the household who took overnight trips.

Final code list

- 1 = Yes, 40km and more any purpose)
- 2 = Yes, less than 40km for leisure
- 3 = No, less than 40km
- 4 = No, did not travel at all
- 5 = Do not know
- 9 = Unspecified

Why were no overnight trips taken (Q32WHYNOVEN)

(@67 2.)

3.2	<p>Why did ... not take any overnight trips inside South Africa in the past three calendar months?</p> <p>Record only ONE response.</p> <p>01 = NO FAMILY/ FRIENDS TO VISIT SOMEWHERE ELSE</p> <p>02 = FINANCIAL REASONS</p> <p>03 = TOO EXPENSIVE, CANNOT AFFORD TO TRAVEL</p> <p>04 = TIME CONSTRAINTS</p> <p>05 = DISLIKE TRAVELLING</p> <p>06 = HEALTH REASONS</p> <p>07 = HAVE YOUNG CHILDREN</p> <p>08 = LIVING WITH DISABILITY</p> <p>09 = TOO OLD TO TRAVEL</p> <p>10 = SAFETY AND SECURITY REASONS</p> <p>11 = NO REASON TO UNDERTAKE A TRIP</p> <p>12 = DUE TO FLOODS</p> <p>13 = OTHER</p>
------------	--

Note to users

The purpose of the question is to find reasons why the member(s) of the household did not take any overnight trips in the three months prior to the survey. This question is asked if the response to Q3.1 was 'No'.

Universe

All members of the household who did not take any overnight trips inside South Africa.

Final code list

- 1 = No family/ friends to visit somewhere else
- 2 = Financial reasons (Not enough money)
- 3 = Too expensive/ I would rather spend money on something else

- 4 = Time constraints
- 5 = Dislike travelling
- 6 = Health reasons
- 7 = Have young children
- 8 = Living with disability
- 9 = Too old to travel
- 10 = Safety and security reasons
- 11 = No reason to undertake a trip
- 12 = Due to floods
- 13 = Other
- 88 = Not applicable
- 99 = Unspecified

Number of overnight trips (Q33OVENTRIP) (@69 2.)

3.3	How many overnight trips did ... take inside South Africa in the three Calendar months before/prior to...(Survey_date)
------------	---

Note to users

The purpose of the question is to find the number of overnight trip(s) the member(s) of the household took inside South Africa within the reference period, i.e. the past three months.

Universe

All members of the household who took overnight trips inside South Africa.

Valid range: 1 - 74

88 = Not applicable

99 = Unspecified

Month of trip

3.4	Can you tell me which month(s) these trips took place? <i>Record number of trips per month. If exact months are not known, help respondent to make rough estimates.</i>	NUMBER OF TRIPS
	(A) Interview month January	<input type="text"/> <input type="text"/>
	01 = December	<input type="text"/> <input type="text"/>
	02 = November	<input type="text"/> <input type="text"/>
	03 = October	<input type="text"/> <input type="text"/>
	Total (Add 01 – 03 to confirm)	<input type="text"/> <input type="text"/>
	(B) Interview month February	<input type="text"/> <input type="text"/>
	04 = January	<input type="text"/> <input type="text"/>
	05 = December	<input type="text"/> <input type="text"/>
	06 = November	<input type="text"/> <input type="text"/>

		<input type="checkbox"/>	<input type="checkbox"/>
	Total (Add 04 – 06 to confirm)	<input type="checkbox"/>	<input type="checkbox"/>
	(C) Interview month March	<input type="checkbox"/>	<input type="checkbox"/>
	07 = February	<input type="checkbox"/>	<input type="checkbox"/>
	08 = January	<input type="checkbox"/>	<input type="checkbox"/>
	09 = December	<input type="checkbox"/>	<input type="checkbox"/>
	Total (Add 07 – 09 to confirm total)	<input type="checkbox"/>	<input type="checkbox"/>

Note to users

The months used for this question differ between quarters. The example is based on a Quarter 1 questionnaire. The question seeks to find the number of trips taken by the member(s) of the household in each month or months within the reference period, i.e. the past three months. The instruction to the interviewer is to record the number of all trips taken. These are overnight trip(s) taken outside the usual environment i.e. 40 kilometres and above the usual place of residence.

Universe

All members of the household who took overnight trips in South Africa.

Members of the household who took overnight trip(s) in South Africa.

Final code list

2022-10-15 – 2024-10-04
 8888888888 = Not Applicable
 9999999999 = Unspecified

Note to users

The purpose of the question is to find the destination of the member(s) of the household. The member(s) of the household was asked to tick the province and district which was visited and write the place name of the town(s) that was visited during the trip. The place names of the town(s) are included in the final datasets but not in a coded format and were not standardised. Only spelling errors were corrected and released as it was received from the field. The updated code list for place names will be available after Census 2022. The next wave of this survey will be released in a code format.

Universe

All household members who took day trips.

70 = Waterberg District Municipality
71 = Greater Sekhukhune District Municipality
72 = Do not know

Note to users

The purpose of the question is to find the final destination of the member(s) of the household. The member(s) of the household was asked to tick the province and district which was visited and write the place name of the town(s) that was visited during the trip. Final code list is as per the listing above.

Universe

All household members who took day trips.

Valid Range: 11-71

888 = Not applicable

999 = Unspecified

Place name (Q451PLACE)

(@168 5.)

4.5.1	What was the main place visited on this trip?
-------	---

Note to users Place names are listed in the final dataset and are not coded.

Valid Range: 0000.- 12555

Main Place (Q452NoPLACENAME)

(@173

38.)

4.5.2	Please type the name of (Suburb/Town/Place name)
-------	--

Note to users

The interviewer will type the place name provided by the respondent in a case where the response for

Q4.4 is "Don't know"

Main purpose of trip (Q46MAINP)

(@187 2.)

4.6	<p>What was the main purpose of this trip?</p> <p><i>Mark ONE response only</i></p> <p>01 = HOLIDAY/LEISURE AND RECREATION</p> <p>02 = SHOPPING - PERSONAL</p> <p>03 = SPORTING – SPECTATOR</p> <p>04 = VISITING FRIENDS AND/OR RELATIVES</p> <p>05 = BUSINESS OR PROFESSIONAL</p> <p>06 = EDUCATION AND TRAINING</p> <p>07 = MEDICAL</p> <p>08 = RELIGIOUS</p> <p>09 = FUNERAL</p> <p>10 = OTHER</p>
-----	--

Note to users

The question refers to the purpose in the absence of which the trip would not have been made or the given destination would not have been visited. This is the main reason why the trip was undertaken.

Final code List

- 1 = Holiday/ leisure and recreation
- 2 = Shopping - personal
- 3 = Sporting – spectator
- 4 = Visiting friends and/or relatives
- 5 = Business or professional
- 6 = Education and training
- 7 = Medical
- 8 = Religious
- 9 = Funeral
- 10 = Other
- 88 = Not applicable
- 99 = Unspecified

Main transport to reach destination (Q47TRANSP)

(@189

2.)

4.7	<p>What was the main type of transport used to reach the main destination? <i>This is the transport used for the longest part of the journey in terms of distance to reach the destination.</i></p> <ul style="list-style-type: none"> 01 = MY OWN CAR/VAN/BAKKIE 02 = SOMEONE'S CAR/VAN/BAKKIE 03 = RENTAL CAR 04 = MINIBUS TAXI 05 = METERED TAXI 06 = APP BASED CABS (e.g. UBER) 07 = COMMERCIAL BUS 08 = TOUR BUS 09 = ON FOOT OR BICYCLE 10 = MOTORCYCLE 11 = TRUCK OR LORRY 12 = TRAIN 13 = AIRCRAFT 14 = OTHER
------------	---

Note to users

The purpose of the question is to find the main type of transport that was used to travel to the destination. This should be the transport that covered most or longest part of the journey in kilometres, before reaching the destination. An example would be a situation where the family fly to a destination for a holiday and then rent a car upon their arrival to travel to the hotel. In this case, the main type of transport would be an aeroplane.

Universe

To members of the household who took overnight trip(s) in South Africa.

Final code list

- 1 = My own car/ van/ bakkie

Note to users

The aim of the question is to find which methods the members of the household used to book their trip, if any bookings were necessary for their trip.

The traveller(s) might have booked for himself/ herself or used agents such as Travel Agents that are intermediaries between themselves and the Tour Operator and also deal with package deals to make the bookings for them. If the answer is option 4 or 5, then the interviewer is instructed to go to Q4.20 as a skip instruction.

Universe

To the members of the household who took overnight trip(s) in South Africa.

Final code list

- 1 = Tour guide
- 2 = Travel agent
- 3 = Booked independently
- 4 = No booking necessary
- 5 = Do not know
- 8 = Not applicable
- 9 = Unspecified

What method was used to book (Q418METHD)

(@345 1.)

4.18	<p>What method was used to book?</p> <ul style="list-style-type: none"> 01 = PERSONAL VISIT TO TRAVEL SHOP 02 = ENTIRELY BY TELEPHONE 03 = ON THE INTERNET 04 = THROUGH FAX/ POST 05 = DO NOT KNOW
-------------	--

Note to users

The question seeks to find the manner in which the member(s) of the household made their booking for the trip. That is if they went personally to the offices of Tour Operators or Travel Agents to make the bookings or whether they just made telephone calls, sent faxes or communicated through the Internet for their travel arrangements.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa and who made bookings for their trip.

Final code list

- 1 = Personal visit to travel shop
- 2 = Entirely by telephone
- 3 = On the Internet
- 4 = Through fax/ post
- 5 = Do not know
- 8 = Not applicable
- 9 = Unspecified

Booking period (Q419DURATN)

(@346 2.)

4.19	<p>How long before the trip was the booking made?</p> <p>01 = UNDER TWO WEEKS 02 = TWO TO THREE WEEKS 03 = ONE MONTH 04 = TWO MONTHS 05 = THREE MONTHS 06 = FOUR MONTHS 07 = FIVE MONTHS 08 = SIX MONTHS OR MORE 09 = DO NOT KNOW</p>
-------------	--

Note to users

The aim of the question is to find the time-frame in weeks and months, the period it took before the trip was confirmed i.e. the member(s) was informed that he/she has secured the booking for the trip.

Universe

To the member(s) of the household who took day trip(s) in South Africa and who made bookings for their trip.

Final code list

- 1 = Under two weeks
- 2 = Two to four weeks
- 3 = One month
- 4 = Two months
- 5 = Three months
- 6 = Four months
- 7 = Five months
- 8 = Six months or more
- 9 = Don't know
- 88 = Not applicable
- 99 = Unspecified

Package items (Q420PACKTYPE)

(@348 1.)

4.20	<p>Which of the following packages didbuy for his/her trip?</p> <p>01 = FULLY INCLUSIVE PACKAGE (I.E. TRANSPORT, ACCOMMODATION, SHOPPING, COACH TOURS, FOOD AND BEVERAGES) 02 = FULL PACKAGE (I.E. TRANSPORT, ACCOMMODATION, CAR HIRE, FOOD AND BEVERAGES) 03 = PACKAGE (I.E. TRANSPORT, ACCOMMODATION AND CAR HIRE BUT NOT FOOD) 04 = INDEPENDENT ARRANGEMENT/ NO PACKAGE (E.G TRANSPORT, ACCOMMODATION, CAR HIRE, COACH TOURS AND FOOD WERE EACH BOOKED SEPARATELY)</p>
-------------	---

Note to users

This question which refers to the member(s) of the household. The aim of the question is to attribute what was included in the price of the package.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa whose last trip was a package trip.

Final code list

- 1 = Fully inclusive package (i.e. transport, accommodation, shopping, coach tours, food and beverages)
- 2 = Full package (i.e. transport, accommodation, car hire, food and beverages)
- 3 = Package (i.e. transport, accommodation and car hire but not food)
- 4 = Independent arrangement / no package (e.g. transport, accommodation, car hire, coach tours and food were each booked separately)
- 8 = Not applicable
- 9 = Unspecified

Cost of package trip (Q4201COST)

(@349 5.)

4.20.1	How much did this package trip cost?	Rands
	Give the total cost of the package for household members who were in the group	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>

Note to users

This is a multiple question which refers to the member(s) of the household. The aim of the question is to attribute the cost of the package amount from Q4.20.1 to the different elements included in the package price. It also acts as a check to individual expenditure items, that they are not recorded twice in Q4.20.1

Universe

To the member(s) of the household who took overnight trip(s) in South Africa whose last trip was a package trip.

2 = No
9 = Unspecified

DERIVED VARIABLES

Survey month (SURVEYMONTH)

(@513 7.)

Note to users

Identifies the month in which the household was visited during the enumeration stage.

Derived from:

Survey date (*SURVEY_DATE*)

Valid range: 01–12

1022023 -1032024

Verified age (VERIFIEDAGE)

(@520 3.)

Note to users

This question is asked to find ages of the household members. The instruction is to write the years in whole numbers and not in words. The age must be recorded as at last birthday or age in completed years. Thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write 000.

Universe

Every person who normally resides in this household at least four nights per week.

Valid range: 0 - 120

Age group 1 (AGE_GRP1)

(@523 1.)

Final code list

1= 00–09 years
 2= 10–19 years
 3= 20–29 years
 4= 30–39 years
 5= 40–49 years
 6= 50–64 years
 7= 65+ years

Age group 2 (AGE_GRP2)

(@524 1.)

Note to users

This is a broad age group at provincial level.

Final code list

1 = 00–14 years
 2 = 15–34 years
 3 = 35–64 years
 4 = 65+ years

Person identifier PERSON_ID

(@525 20.)

Note to users

This variable was derived from combining the unique number of the household and the person number of a particular member of that household.

Derived from logical series of questions:

Person identifier (Personno)

Valid range: 16010009000000480101- 98710692000006640105

Month of recent trip (Q422_MONTH)

(@545 2.)

Derived from **Q422ENDDATE**

Note to users

This is the date (month) on which the member(s) of the household returned back home or their usual place of residence from their respective overnight trips.

Valid range: 1 – 12

Total number of overnight trips (OVERNIGHT_TRIPS)

(@547 2.)

Derived from:

Q3.4 questions that ask which month the trip was taken.

Note to users

This variable was derived from the responses to the number of trips a member of the household would have taken in the three months before the interview.

Valid range: 0 – 18

88= Not applicable

99 = Unspecified

Household size (HHOLDSZ) (@549 2.)

Valid range: 1 – 28

Accommodation (Accommodation) (@551 5.)

Derived from:

Expenses whilst on trip (Q413accom)

Valid range: 0.2 - 16000

Food and beverages (Food) (@559 5.)

Derived from:

Expenses before trip (q410foodc)

Expenses whilst on trip (q411foodc)

Valid range: 0.25 –10000

Domestic transport (Transport) (@567 5.)

Expenses whilst on trip (q411rechr)

Valid range: 5 – 25000

Recreation and Culture (RecandCult) (@575 4.)

Derived from:

Expenses whilst on trip (q411RECREC)

Valid range: 0,5 – 3000

Shopping (Shopping) (@582 8.)

Derived from:

Expenses before trip (q410shopc)

Expenses whilst on trip (q411shopc)

Valid range: 3.3 – 60166.666

Other (Other) (@590 8.)

Derived from:

Total expenses before trip (q411travinc, q410finc, q410secuc, q410medic, q410othrc)

Total expenses whilst on trip (q411medic, q411othrc)

Valid range: 1.5 – 15800

Total (Total) (@598 8.)

Derived from:

This variable is the sum of expenses for the trip (Accommodation, Food, Transport, RecAndCult, Shopping, Other)

Valid range: 4 – 80805

EA type (ea_gtype_code) (@606 1.)

Note to users

This variable is based on the Census 2011 typology. This typology was used to classify all enumeration areas (EA) and per implication the DTS sampled PSUs into one of three classes namely: Urban, traditional and farms.

Final code list:

- 1 = Urban
- 2 = Traditional
- 3 = Farms

Municipality code (MN_CODE) (@607 3.)

Valid range: 160 – 987

Municipality code (NIGHTTRIPSBYWEIGHT) (@610 10.)

Valid range: 0 –25400.488758

Derived weight variable:

This weight is a product of the number of trips undertaken by a household member and their individual calibrated weight (cal_abwgt). It applies weights to all the trips that an individual undertook during the reference period, and results in a weighted number of trips undertaken by a particular individual. It can be used if one wants to extrapolate the detailed trip information for the most recent trip to all trips undertaken during a particular reference month. This weight was used for the calculation of total expenditure on trips.

Valid range: 0 – 86488.951333

Divided weight (divided_calwgt) (@620 7.)

Note to users

Derived weight variable:

This weight was derived by adjusting the calibrated weight (cal_abwgt) by the twelve-monthly weight files in the data. This weight is not trip based, but rather population based and should only be used under circumstances where seasonality does not play a role. For example, any analysis using absolute numbers, and which relate to the population age, sex etc. should be done using this weight.

Valid range: 4.1666666667 – 2116.7073965

Weight (cal_abwgt) (@627 8.)

Note to users

This is a monthly weight. It is the result of weighting the recall data for each data month separately up to the total population of South Africa. Thus, all weighted data related to the January recall period will add up to the population total of South Africa, that of February to the total population of South Africa and so on. If the whole dataset for all months is combined and analysed the population total will therefore add up to twelve times the population of South Africa. This weight should always be used if the total number of trips per month needs to be calculated. Most of the analysis in the DTS 2018 release is based on this weight. However, when tables refer to the “most recent trip,” only records for which the trip date corresponds with the data month are taken into consideration during analysis.

Valid range: 50 – 25400.488758

Code list for questions with long code list/options.

Note to users

The Questionnaire for DTS 2023 was based on the Computer-Assistive-Personal-Interviews (CAPI). As a result, when printed, Questions with long code list or options do not appear in the questionnaire.

End.
