We're working with the National Department of Basic Education for the second round of our national study on early learning. This study is called the Thrive by Five Index. You have been chosen for an interview because you are a practitioner at an early learning programme in one of the areas in which the Index is being conducted. We would like to ask you some questions about yourself and this early learning programme. This will take about 25 minutes. Your insights will help us to understand how we can better support our children and early learning programmes across the country.
