STUDY TYPE
Marriages and Divorces

ABSTRACT

The Marriages and Divorces (MD) dataset is one of three primary sources of marriage and divorce statistics in South Africa. Unlike the other two sources (population censuses and household sample surveys), the MD dataset is compiled from administrative data and based on continuous recording (i.e. from civil registration systems and administrative records). Statistics South Africa (Stats SA) regularly publishes a series of data on marriages and divorces, with the first dataset in the series beginning in 2006. The most recent dataset in the series is MD 2024.

Marriage data: Data on marriages for citizens and permanent residents are obtained from registered marriage records that are collected through the civil registration systems of the Department of Home Affairs (DHA). South Africa recognises three types of marriages by law: civil marriages, customary marriages, and civil unions. Before 2008, marriage data only covered civil marriages. The registration of customary marriages and civil unions began in 2003 and 2007 respectively. However, from 2008 onwards, Stats SA began publishing available data on customary marriages and civil unions.

Divorce data: Data on divorces are obtained from various regional courts that deal with divorce matters. The data are based on successful divorce cases that have been issued with a decree of divorce by the Department of Justice and Constitutional Development (DoJCD) and the Office of the Chief Justice. Divorce cases come from marriages that were registered in different years as well as divorce cases that were filed in different years but whose divorce decrees were granted in the relevant year of collection.

NOTE: Although both the data on marriages and divorces are collected in the same year, the data files from each cannot be merged because there is no to link the records at the individual level

VERSION NOTES
DataFirst downloaded this version from the StatsSA website on 8th May, 2026

Scope

NOTES

The marriage data is provided to Statistics South Africa by the South African Department of Home Affairs (DHA) from their marriage registration database based on registration forms. The province of registration of marriages and unions recorded may not necessarily be the province or place of usual residence of the couple. Hence, registration of the marriage can take place at any DHA office. The divorce data is obtained by Statistics South Africa from the South African Department of Justice and Constitutional Development from administrative records on divorces granted for civil marriages by its divorce courts.

Coverage

GEOGRAPHIC UNIT

The lowest level of geographic aggregation covered by the data is province

UNIVERSE

The data covers all civil marriages, civil unions and customary marriages that were recorded by the Department of Home Affairs and all divorce applications that were granted by the Department of Justice and Constitutional Development in 2024 in South Africa.

Author(s)	Statistics South Africa
Date	2026-05-18T22:00:00.000Z
Country	South Africa
Language	English
Publisher(s)	StatsSA
Abstract	This statistical release presents information on civil marriages, customary marriages and civil unions that were registered in 2024 in the South African national marriage registration system maintained by the national Department of Home Affairs (DHA). It highlights trends in the number of marriages and unions as well as demographic and other dynamics amongst married partners.
