EXPLANATORY NOTES**1. SCOPE OF SURVEY**

- 1.1 This survey covers all households.
- 1.2 A household consists of a person or a group of people (whether related or not) dependent on a common pool of income who normally occupy a dwelling unit or a portion thereof and who provide themselves with food and the necessary supplies or who arrange for such provision.
- 1.3 A dwelling unit is a house, townhouse/cluster/semi-detached house, traditional dwelling (hut), shack, hostel/compound and other dwellings such as rooms in boarding houses and old-age homes.
- 1.4 Where people in a household want to complete more than one questionnaire, the enumerator can be requested therefor.

2. COMPLETION OF QUESTIONNAIRE

Please complete the questionnaire without combining two or more items, e.g. purchases of white and brown bread must be given separately. If an item cannot be found in a specific section, the description of the item must be shown against "Other – specify". All amounts must be shown in Rands.

3. PERIOD COVERED BY THE SURVEY

Certain information in respect of the previous month is required, whereas other questions cover the past 12 months.

4. INDIRECT TAX

Value added tax (VAT) must be included in the purchase/price except where explicitly stated otherwise.

5. EXPENDITURE REQUIRED

- 1.5 All expenditure of the household must be shown, including expenditure on food and certain other items in respect of guests, domestic workers, table boarders, etc.
- 1.6 If more than one questionnaire is completed by a household, duplication must be avoided.
- 1.7 Expenditure incurred for the acquisition of income or additional income by working for own account must not be included (e.g. hobbies or part-time farming).
- 1.8 Any net profit (from own business or part-time farming) must be shown against the relevant income item in section 22.1, item 2, page 34 or section 22.2, item 1, page 35 whereas net loss, if any, must be shown against item 1, section 19.6, page 31.
- 1.9 Employees must not include expenditure which is recovered/recoverable from their employers.
- 1.10 The estimated cash value of all benefits received in kind, whether from your employer or not, must on the one hand be shown as income against section 22.2, item 4, page 35, or item 6, page 36 of this questionnaire and on the other hand as expenditure under the relevant headings.
- 1.11 In this survey expenditure means the cost of good and services purchased, including used articles irrespective of whether or not these were paid for during the period concerned. In the case of furniture, equipment and vehicles, however, payments during the past 12 months in respect of articles purchased during the period or earlier are also specifically asked for.

6. GIFTS

For the purpose of this survey gifts must be treated as follows:-

- 6.1 Gifts exchanged between members of the household – the estimated value of these gifts must be included under the appropriate expenditure items. In addition, the estimated value of gifts given by members of the household to persons outside the household must be shown in section 19.2 item 2, page 29.
- 6.2 Gifts received by members of the household from persons outside the household – the estimated value of these gifts must be included as income against item 6 in section 22.2, page 36 and must be shown as expenditure against the relevant item received.

7. INCOME

Although in a survey of this nature the emphasis is on expenditure, it is also essential to obtain information concerning income in order to establish the income bracket into which the household falls.
