## VERDUIDELIKENDE OPMERKINGS

### 1 OMVANG VAN DIE OPNAME

1.1 Die opname sluit ondernemings in die private sektor (eennmansake, vennootskappe, maatskappye, koöperasies en beslote korporasies) sowel as instellings in die openbare sektor (plaaslike owerhede, parastatale instellings en staatsdepartemente) in die Republiek van Suid-Afrika in.

1.2 Huishulpe en tuinwersers in diens van privaathuishoudings sowel as wersers in die landbousektor is uitgesluit.

1.3 Gegewens van die TBVC-state is eweneens uitgesluit.

### 2 STEEKPROEF

2.1 Die opname het nie alle ondernemings ingesluit nie, maar is met behulp van steekproewe onderneem. 'n Gestratifiseerde sistematiese steekproefmetode is vir die kies van die steekproewe gebruik. Die basis vir die keuse van die steekproewe is die getal wersers behalwe in die geval van groot- en kleinhandel waar omset gebruik is.

2.2 Verhoudingskatting gegrond op die steekproefparameter is gebruik om die totale aantal wersers asook die getal wersers in die onderskeie beroepe te raam.

### 3 GRONDSLAG VIR DIE OPNAME

3.1 Die gegewens is op 'n firmagronslag versame.

3.2 Vir doeleindes van hierdie opname is met 'n firma bedoel 'n wetlike entiteit wat uit een of meer inrigtings (takke met inbegrip van die hoofkantoor, maar met uitsondering van houer- en filiaalmaatskappye) bestaan. Indien die firma uit meer as een inrigting bestaan, kan sodanige individuele inrigtings in een sektor of verspreid oor verskeie sektore van die ekonomiese (bv. landbou, visserye, mynbou, fabriekswese en dienste) bedrywig wees.

### 4 VERGELYKBAARHEID MET VORIGE MANNEKRAGOPNAMES EN ANDER OPNAMES VAN DIE SENTRALE STATISTIEKDIENS

4.1 Die beroepsindeling wat sedert die 1988-mannekragopname gebruik is, is gebaseer op dié van die Standaardberoepsklassifikasie, Verslag No. 09-90-01, Eerste Uitgawe, 1986. Die beroepsklassifikasie in hierdie verslag stem derhalwe coreen met dié van die 1988- en die 1989-verslag, maar verskil van dié wat gebruik is in die mannekragopnames voor 1988. Die gegewens is dus nie in alle gevalle vergelykbaar met die inligting wat gepubliseer is vir mannekragopnames voor 1988 nie.

4.2 Die adresse waaruit steekproewe gekies is, is verkry uit adresbronne van die Sentrale Statistiekdiens en dié van die Ongevallekommisaris. Vir opnames voor 1990 is steekproewe uit die adresse van die Ongevallekommisaris gekies vir visserye; waterboorkontrakteurs; verversings- en akkommodasiydienste en vir gedeeltes van hoofafdeling vervoer, opbergung en kommunikasie; gedeeltes van hoofafdeling financiering, versekering, vaste eiendom en besigheidsdienste en die grootste gedeelte van die hoofafdeling gemeenskaps-, maatskaplike en persoonlike dienste (bv. haarkappers, begrafnisondernemers, dansale en bioskope, rekenmeesters, ouditeurs, advokate en prokureurs).

4.3 Vir die 1990-mannekragopname is al die steekproefadresse vir hoofafdeling konstruksie uit eie bronne verkry. Die adresse van groot- en kleinhandelsondernemings is uit eie bronne verkry. Adresse van verversings- en akkommodasiydienste is, behalwe vir die adresse van gelisensieerde hotelle, vanaf die Ongevallekommisaris verkry. Hoofafdeling vervoer, opbergung en kommunikasie se steekproewe is in geheel herkies uit eie bronne, behalwe vir taxidienste en bestuursskole wat steeds uit die Ongevallekommisaris se adresbronne verkry word.

4.4 Wat die hoofafdeling financiering, versekering, vaste eiendom en besigheidsdienste betref, is steekproewe vir besit en verhuur van eiendom; dorpsontwikkeling; regsdienste; rekening-, ouditeerings- en boekhoudienste; dataverwerkingsdienste; raadgewende ingenieurs; reklamedienste; en werkverskaffingsagentskappe en werwingsorganisasies, wat voorheen uit die Ongevallekommisaris se adresse gekies is, uit die bronne van die Sentrale Statistiekdiens gekies.

4.5 Vir hoofafdeling gemeenskaps-, maatskaplike en persoonlike dienste is steekproewe vir welsyndienste; rolprent- en videoopnames; rolprentvertoning en rolprent- en videoverhuring; wasserye, wasserydiensste en skoonmaak- en kleurinrigtings; fotografiese ateljees; begrafnisondernemers en krematoriums en diverse persoonlike dienste uit die adresse van die Sentrale Statistiekdiens gekies. 'n Groot gedeelte van hierdie hoofafdeling se steekproewe word egter steeds uit die Ongevallekommisaris se adresse gekies.

4.6 Waar die getal wersers wat in 'n bepaalde nywerheidsgroep (Tabel 3) getoon word, verskil van dié wat in die vorige verslag getoon is, word dit toegeskryf aan 'n meer suiwer klassifikasie van ondernemings volgens die Standaardnywerheidsklassifikasie van alle Ekonomiese Bedrywighede.

4.7 Totale per nywerheidsgroep (Tabel 3) of hoofafdeling (Tabel 2), kan verskil van die totale van ander Sentrale Statistiekdienstes opnames wanneer vergelykings getref word. Hierdie verskille word toegeskryf aan die feit dat die Mannekragopname op 'n firmagrondslag opgeneem word terwyl ander opnames hoofsaaklik op 'n inrigtingsgrondslag opgeneem word. In baie gevalle bestaan 'n firma uit slegs een inrigting sodat 'n bepaalde instelling tot dieselfde soort ekonomiese bedrywigheid geklassifiseer word ongeag die grondslag van die opname. In die geval van firmas met bedrywighede wat klassifisaal word onder meer die grondslag van die opname. So byvoorbeeld kan 'n inrigting op grond van die hoofbedrywigheid wat beoefen word geklassifiseer. So byvoorbeeld kan 'n inrigting van 'n firma, toegespits wees op treilvissery, terwyl die firma se hoofaktiwiteit fabriekswese is. Die werkers van hierdie inrigting sal dus op die firmagrondslag nie onder die hoofafdeling landbou, jag, bosbou en vissery ressorteer nie, maar wel onder die hoofafdeling, fabriekswese waaronder die firma in sy geheel ressorteer. So byvoorbeeld sal die beroep visser, visteler en verwante werker kan onder enige hoofafdeling van die Standaardnywerheidsklassifikasie ressorteer, afhangende van die hoofaktiwiteit van die firma.

4.8 Waar die getal werkers wat in 'n bepaalde beroep getoon word verskil van dié wat in die vorige verslag getoon is, is dit by wyse van navrae bevestig.

## 5 BEGRIFFE GEbruIK

### 5.2 BEROEPSINDELING

5.2.1 Verskeie faktore is in ag geneem met die indeling van werkers onder die verskillende beroepe. Alhoewel die soort werk wat verrig word as uitgangspunt gebruik is, is daar in sommige gevalle ook gelet op die opleiding wat 'n spesifieke beroep vereis.

5.2.2 Behalwe waar dit anders aangedui is, is dieselfde beroepstitels vir gekwalificeerde en nie-gekwalificeerde werkers (d.i. leerlinge en assistente) gebruik. Byvoorbeeld leerlingmynwerkers en stads- en streekbeplannerassistentes, is onderskeidelik as myners (verwerkingskode 454) en stads- en streekbeplanners (verwerkingskode 048) aangedui.

## 6 PROFESSIONELE EN TEGNIESE BEROEPE

6.1 Professionele, semi-professionele en tegniese beroepe is beroepe waarvoor normaalweg tersiêre opleiding vereis word.

7 GESKOOLDE AMBAGSMANNE

  - in 'n vaktoets ingevolge die Wet op Mannekragopleiding geslaag het; of
  - in besit is van 'n sertifikaat uitgereik deur die Registrateur van Mannekragopleiding waarin aan die houer vakmanstatus verleen word; of
  - nie wetlike vakmanstatus geniet nie, dog as ambagsman werksaam is en minstens vyf jaar ondervinding in die betrokke ambag het. (Hierdie bepaling maak veral voorsiening vir persone in plattelandse gebiede waar die Wet op Mannekragopleiding nie van toepassing is of was nie, sodat die betrokke persone nie opleidingsgeleenthede gehad het nie, maar tog wel die werk van ambagsman verrig).
- 7.2 Ambagsmanne wat hoofsaaklik verkoopswerk doen, ambagsmanne wat werkbestuurders of administratiewe beamptes is en ambagsmanne wat instrukteurs aan opleidingsinrigtings is, is by Afdeling 1 van Tabel 5 ingesluit.

In gevalle waar die spesifieke ambag vervaag het, is 'n instrukteur egter in Afdeling 1 teenoor beroepe 164 of 165 getoon, terwyl 'n voorman teenoor die toepaslike beroep 434 tot 451 getoon is.
- 7.4 Leierhande en voormanne wat nie ambagsmanne is nie (mynbou of fabriekswese), is by Afdeling 1 ingesluit. Die ambagsvoormanne by myne en steengroewe is in Afdeling 1 by beroepe 434 tot 437 ingeval.

8 HUIDIGE GETAL VAKANTE POSTE

## EXPLANATORY NOTES

### 1 SCOPE OF THE SURVEY

- 1.1 The survey includes establishments in the private sector (one-man businesses, partnerships, companies, co-operatives and close corporations) as well as institutions in the public sector (local authorities, parastatal institutions and government departments) in the Republic of South Africa.
- 1.2 Domestic and garden workers employed by private households as well as workers in the agricultural sector are excluded.
- 1.3 Information of the TBVC states is also excluded.

### 2 SAMPLE

- 2.1 The survey does not include all enterprises, but is undertaken by means of samples. A stratified systematic sample design is used for the selection of the samples. The basis for the selection of the samples is the number of workers, except in the case of wholesale and retail trade where turnover is used.
- 2.2 Ratio estimate based on the sample parameter was used to estimate the total number of workers as well as the number of workers in the various occupations.

### 3 BASIS OF THE SURVEY

- 3.1 The data were collected on a firm basis.
- 3.2 For the purpose of this survey a firm means a legal entity consisting of one or more establishments (branches including the head office, but excluding holding or subsidiary companies). If the firm consists of more than one establishment, such individual establishments can be active in one sector or distributed over various sectors of the economy (e.g. agriculture, fishing, mining, manufacturing and services).

### 4 COMPARABILITY WITH PREVIOUS MANPOWER SURVEYS AND OTHER SURVEYS OF THE CENTRAL STATISTICAL SERVICE

- 4.1 The classification of occupations used since the 1988 Manpower Survey, is based on the Standard Classification of Occupations, Report No. 09-90-01, First Edition, 1986. The classification of occupations in this report therefore agrees with that of the 1988 and 1989 reports but differs from those that were used in the surveys before 1988. The information is thus not in all cases comparable with the information published for surveys prior to 1988.
- 4.2 The addresses from which samples are selected are obtained from address sources of the Central Statistical Service and that of the Workmen's Compensation Commissioner. For surveys before 1990 samples were selected from addresses of the Workmen's Compensation Commissioner for fisheries; water-drill contractors; catering and accommodation services and for sections of major division transport, storage and communication; sections of major division financing, insurance, real estate and business services and the largest section of the major division community, social and personal services (e.g. hairdressers, undertakers, ballrooms and cinemas, accountants, auditors, advocates and attorneys).
- 4.3 For the 1990 Manpower Survey all sampling addresses for major division construction are obtained from own sources. The addresses for wholesale and retail trade establishments were obtained from own sources. Addresses for catering and accommodation services, except for the addresses of licensed hotels, were obtained from the Workmen's Compensation Commissioner. Samples for major division transport, storage and communication were completely re-selected from own sources, except for taxi services and driving schools which are still obtained from the address sources of the Workmen's Compensation Commissioner.
- 4.4 Concerning the major division financing, insurance, real estate and business services, samples for property owning and letting; developing; legal services; accounting, auditing and bookkeeping services; data processing services; consulting engineers; advertising services; and employment agencies and recruiting organisations, which were previously selected from the Workmen's Compensation Commissioner's addresses, were selected from the sources of the Central Statistical Service.
- 4.5 For major division community, social and personal services, samples for welfare services; motion picture and video-recording; motion picture projection and motion picture and video renting; laundries, laundry services and cleaning and dyeing plants; photographic services; undertakers and crematoriums; and miscellaneous personal services were selected from sources of the Central Statistical Service. However, samples for a large section of this major division are still selected from addresses of the Workmen's Compensation Commissioner.
- 4.6 Where the number of workers shown in a certain industrial group (Table 3), differs from that shown in the previous report, it is ascribed to a more correct classification of enterprises according to the Standard Industrial Classification of all Economic Activities.

4.7 Totals per industrial group (Table 3) or major divisions (Table 2), can when compared, differ from the totals of other Central Statistical Service surveys. These differences can be ascribed to the fact that the Manpower Survey is enumerated on a firm basis while other surveys are mainly enumerated on an establishment basis. In many cases a firm consists of only one establishment so that a specific institution will be classified to the same kind of economic activity, regardless of the basis of the survey. In the case of firms with activities classifiable to various major divisions of the Standard Industrial Classification, the firm is classified according to the main activity that is carried out by the firm. For example, an establishment of a firm can principally be engaged in trawling, whilst the firm's main activity is manufacturing. The workers of this establishment will therefore, on the firm basis, not be assigned to the major division agriculture, hunting, forestry and fishing, but will be assigned to the major division manufacturing where the firm belongs to as a whole. For example the occupation fisherman, fish breeder and related worker (processing code 430) will not only appear under the major division agriculture, hunting, forestry and fishing, but also under the major division manufacturing. In the same way will workers in mining occupations (processing codes 452-462) not necessarily only appear under the major division mining, but can be assigned to any major division of the Standard Industrial Classification, depending on the main activity of the firm.

4.8 Where the number of workers shown in a certain occupation, differs from that shown in the previous report it was confirmed by means of enquiries.

## 5 CONCEPTS USED

### 5.1 WORKERS

5.1.1 "Workers (employers and employees)" means all persons listed in the employment records as at 30 March 1990 of the various enterprises and institutions.

5.1.2 Particulars in respect of the following are EXCLUDED:

- Persons rendering part-time services in a recognised professional, business or trade capacity and to whom fees rather than salaries or wages are paid for such services.
- Employees undergoing full-time military training.

5.1.2.1 For the private sector only, particulars in respect of the following are also EXCLUDED:

- Persons working in foreign branches, including branches in Transkei, Bophuthatswana, Venda, Ciskei and Namibia.
- In the case where a mine is situated partially in the RSA and partially in the TBVC states, all workers are included if the head office is situated in the RSA.

5.1.3 Particulars in respect of the following are INCLUDED:

- Owners working at their own firms, unpaid family assistants and managing and working directors who receive renumeration
- Temporary workers.
- Employees on vacation or sick leave or workers absent as a result of short military service.

5.1.3.1 For the public sector only particulars in respect of the following are also INCLUDED:

- All officers and employees at head offices, regional offices and suboffices, including those stationed overseas, but excluding workers recruited abroad and performing duties there.
- All seconded staff working in the TBVC states, the self-governing territories or in other departments, but who are still on the fixed establishment records of the institution.
- All officers and employees in offices of the State President, the Cabinet, Ministers, the President's Council, Ministers' Councils, the House of Assembly, the House of Representatives and the House of Delegates.

### 5.2 CLASSIFICATION OF OCCUPATIONS

5.2.1 Various factors are taken into consideration with the classification of workers under the different occupations. Although the type of work done is used as a basis, attention is also, in certain cases, given to the training required for a specific occupation.

5.2.2 Except where otherwise indicated, the same job description is used for qualified and non-qualified workers (i.e. learners and assistants). For example learner miners and town and regional planner assistants are listed as miners (processing code 454) and town and regional planners (processing code 048) respectively.

## 6 PROFESSIONAL AND TECHNICAL OCCUPATIONS

6.1 Professional, semi-professional and technical occupations normally require tertiary training.

**SKILLED ARTISANS**

- 7.1 An artisan is a person who practices a trade designated in terms of the Manpower Training Act and who
- has successfully completed a recognised apprenticeship; or
  - has passed a trade test in terms of the Manpower Training Act; or
  - is in possession of a certificate issued by the Registrar of Manpower Training according artisan status to the holder; or
  - does not enjoy statutory status as an artisan, but is engaged in work as an artisan and has had at least five years' experience in the trade concerned. (This clause makes special provision for persons in rural areas where the Manpower Training Act is not or has not been applicable, so that these persons did not have the opportunity of receiving training as artisans, but nevertheless do the work of artisans).
- 7.2 Artisans whose primary duties are associated with selling, artisans who are works managers or administrative officers and artisans who are instructors in training institutions are included in Section 1 of Table 5.
- 7.3 An artisan who is an instructor in a workshop, or who is a leading or chargehand or a foreman, is shown in Section 2 of Table 5 under the appropriate trade. However, in cases where the specific trade pays a less prominent role, an instructor is shown in Section 1 against occupations 164 or 165, while a foreman is shown against the applicable occupation 434 to 451.
- 7.4 Leading hands and foremen who are not artisans (mining and manufacturing) are included in Section 1. The artisan foremen at mines and quarries are shown in Section 1 under occupation 434 to 437.

**8 PRESENT NUMBER OF VACANT POSTS**

- 8.1 "Present vacant posts" or "employment opportunities" means the number of additional employees that could be taken into service in various occupations on 30 March 1990.
