Statistiese vrystelling

P0201

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die overheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

MORE WORKERS IN PROFESSIONAL, SEMI-PROFESSIONAL AND TECHNICAL OCCUPATIONS

The professional, semi-professional and technical occupations that were measured in the 1993 Manpower Survey showed an increase of 2,6% (19 042 workers) compared with the 1992 survey.

Except the above-mentioned major occupational group an increase was also reported (0,1% or 293 workers) in respect of transport, delivery and communication occupations. Managerial, executive and administrative occupations decreased by 6,9% or 15 737 workers. Production foremen and supervisors, miners and quarry workers, operators, production and related workers also reflected a considerable decrease of 8,3% (-202 471 workers).

On 26 March 1993 there were 5 583 883 persons employed in the industrial sectors of the formal sector that is covered by the Manpower Survey. This is 272 182 fewer workers (4,6%) than on 27 March 1992. During the same period the vacancies increased by 5,5% to 105 296.

The industrial sectors that showed more workers are agriculture, hunting, forestry and fishing (5,6%), financing, insurance, real estate and business services (13,4%) and community, social and personal services (0,7%). Although the agricultural sector and private households are not included in the Manpower Survey, occupations from those sectors do occur because of the firm basis of the survey.

MEER WERKERS IN PROFESSIONELE, SEMI-PROFESSIONELE EN TEGNIESE BEROEPE

Die professionele, semi-professionele en tegniese beroepe wat in die 1993-mannekragopname gemeet is, het 'n styging van 2,6% (19 042 werkers) getoon teenoor die 1992-opname.

Buiten bogenoemde hoofberoepsgroep is ook 'n styging (0,1% of 293 werkers) ten opsigte van vervoer-, aflewering en kommunikasieberoepe gerapporteer. Besturende, uitvoerende en administratiewe beroepe het met 6,9% of 15 737 persone gedaal. Produksievoormanne en -toesighouers, myn- en steengroefwerkers, operateurs, produksie- en verwante werkers het ook 'n aansienlike daling van 8,3% (-202 471 werkers) getoon.

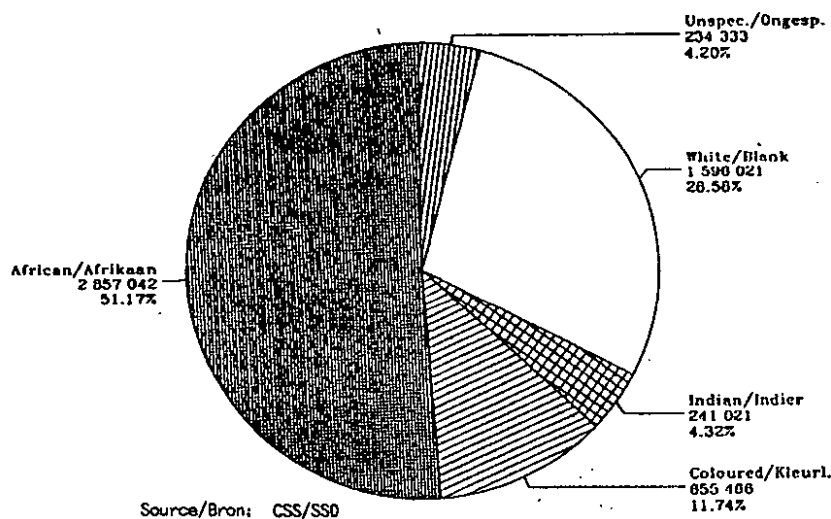

Op 26 Maart 1993 was daar in totaal 5 583 883 persone werksaam in die nywerheidssektore van die formele sektor wat deur die Mannekragopname gedek word. Dit is 272 182 minder werkers (4,6%) as op 27 Maart 1992. Gedurende dieselfde tydperk het die vakatures met 5,5% tot 105 296 gestyg.

Die nywerheidssektore wat meer werkers getoon het, is landbou, jag, bosbou en visserye (5,6%), finansiering, versekering, vaste eiendom en besigheidsdienste (13,4%) en gemeenskaps-, maatskaplike en persoonlike dienste (0,7%). Alhoewel die landbousektor en private huishoudings nie in die Mannekragopname gedek word nie, is daar vanweë die firmabasis van die opname beroepe wat voorkom in die landbousektor.

 - 5 = Foreman, supervisor, miner, operator,
labourer//Voorman, toesighouer,
mynwerker, arbeider
 - 6 = Transport, service, farming//
Vervoer, diens, boerdery

EXPLANATORY NOTES**1. SCOPE OF THE SURVEY**

The survey includes establishments in the private sector (one-man businesses, partnerships, companies, co-operatives and close corporations) as well as institutions in the public sector (local authorities, parastatal institutions, national and provincial government departments - including those of the former self-governing territories, universities and technikons, public corporations and agricultural marketing boards) in the Republic of South Africa.

Domestics and garden workers employed by private households, as well as workers in the agricultural sector are excluded.

Information of the former TBVC states is excluded.

2. SAMPLE

The survey is undertaken by means of samples. A stratified systematic sample design is used for the selection of the samples.

3. BASIS OF THE SURVEY

The data were collected on a firm basis. The results are therefore not necessarily comparable with other CSS survey results.

4. WORKERS

"Workers (employers and employees)" means all persons listed in the employment records as at 26 March 1993 of the various enterprises and institutions.

5. CLASSIFICATION OF OCCUPATIONS

The classification of occupations used since the 1988 Manpower Survey, is based on the Standard Classification of Occupations, Report No. 09-90-01, First Edition, 1986. Various factors are taken into consideration with the classification of workers under the different occupations. Although the type of work done is used as a basis, attention is also, in cases where necessary, given to the training required for a specific occupation.

6. PROFESSIONAL AND TECHNICAL OCCUPATIONS

Professional, semi-professional and technical occupations normally require tertiary training.

7. PRESENT NUMBER OF VACANT POSTS

"Present vacant posts" or "employment opportunities" means the number of additional employees that could be taken into service in various occupations on 26 March 1993.

8. ABBREVIATIONS AND SYMBOLS USED

n.e.c. = Not elsewhere classified
unspec. = unspecified population group

VERDUIDELIKENDE OPMERKINGS**1. OMVANG VAN DIE OPNAME**

Die opname sluit ondernemings in die private sektor (eenmansake, vennootskappe, maatskappye, koöperasies en beslote korporasies) sowel as instellings in die openbare sektor (plaaslike owerhede, parastatale instellings, nasionale en provinsiale staatsdepartemente - insluitende dié van die voormalige selfregerende gebiede, universiteite en teknikons, openbare korporasies en landboubeoordelingsrade) in die Republiek van Suid-Afrika in.

Huishulpe en tuinwerkers in diens van privaat-huishoudings, sowel as werkers in die landbousektor is uitgesluit.

Gegewens van die voormalige TBVC-state is uitgesluit.

2. STEEKPROEF

Die opname is met behulp van steekproewe onderneem. 'n Gestratifiseerde sistematiese steekproefmetode is vir die kies van die steekproewe gebruik.

3. GRONDSLAG VIR DIE OPNAME

Die gegewens is op 'n firmagrondslag versamel. Die resultate is dus nie noodwendig vergelykbaar met ander SSD-opnameresultate nie.

4. WERKERS

Met "werkers (werkgewers en werknemers)" is bedoel alle persone wat op 26 Maart 1993 op die diensstaat van die onderskeie ondernemings en instellings was.

5. BEROEPSINDELING

Die beroepsindeling wat sedert die 1988-mannekrageopname gebruik is, is gebaseer op dié van die Standaardberoepsklassifikasie, Verslag No. 09-90-01, Eerste Uitgawe, 1986. Verskeie faktore is in ag geneem met die indeling van werkers onder die verskillende beroepe. Alhoewel die soort werk wat verrig word as uitgangspunt gebruik is, is daar in gevalle waar nodig ook gelet op die opleiding wat 'n spesifieke beroep vereis.

6. PROFESSIONELE EN TEGNIESE BEROEPE

Professionele, semi-professionele en tegniese beroepe is beroepe waarvoor normaalweg tersiêre opleiding vereis word.

7. HUIDIGE GETAL VAKANTE POSTE

Met "huidige vakante poste" of "indiensnemingsgeleenthede" is bedoel die getal bykomende werkers wat op 26 Maart 1993 in die verskillende beroepe in diens geneem sou kon word.

8. AFKORTINGS EN SIMBOLE GEBRUIK

n.e.g. = Nie elders geklassifiseer
ongesp. = ongespesifiseerde bevolkingsgroep
