 Library of Parliament, Cape Town  
 South African Library, Cape Town  
 Bloemfontein Public Library  
 Natal Society Library, Pietermaritzburg  
 Johannesburg Public Library

## VOORWOORD

1. Hierdie is die twaalfde uitgawe van die kodelys wat in Junie 1977 vir die eerste keer gepubliseer is. Die totstandkoming van die nuwe grondwet vir die RSA het meegebring dat hierdie uitgawe in verskeie opsigte van die vorige (elfde) uitgawe van die kodelys verskil. Meer inligting oor hierdie verskille word in paragraaf 6 (bladsy v) en in die ooreenstemmingstabelle op bladsy xx verstrekk. //
2. Die kodelys is in sekere opsigte slegs 'n interim weergawe aangesien dit nie voorsiening maak vir die samevoeging van dorpe wat tans in 'n oorgangsfase verkeer nie of vir veranderings in die name van provinsies wat reeds aangekondig is of nog aangekondig kan word nie. Die indeling van provinsies in statistiese streke is grootliks op grond van die geskiedkundige indeling gedoen (met aanpassings waar nodig om met die provinsiale grense ooreen te stem) maar moet as voorlopig beskou word. Die Sentrale Statistiekdiens (SSD) is waarskynlik die vernaamste enkele gebruiker van die kodelys en onderneem die instandhouding en verspreiding daarvan. Sover moontlik is gepoog om aan die vereistes van belanghebbende instansies te voldoen.
3. Alle gebruikers van kodes van hierdie aard, word aangemoedig om hierdie kodelys te gebruik ten einde standaardisasie te bevorder. Hierdie kodelys is ook op magneetband, disket en ander rekenaarmedia, teen koste, beskikbaar.
4. Hierdie lys word normaalweg tweejaarliks hersien. Enige wysigings wat tussen herpublikasies mag plaasvind, sal op aanvraag aan gebruikers verstrekk word. Rig versoeke aan die Hoof: SSD, Private Sak X44, Pretoria, 0001, telefoon (012) 310-8911.

## PREFACE

1. This is the twelfth edition of the code list which was first published in June 1977. The passing of the new constitution for the RSA brought about that this edition differs in various instances from the previous (eleventh) edition of the code list. More information regarding these differences is given in paragraph 6 (page v) and in the correspondence tables on page xx. //
2. The code list is in certain respects only an interim version since it does not make provision for the amalgamation of towns which is at present in a transitional phase or for changes in the names of provinces, which have already been announced, or which may still be announced. The division of provinces into statistical regions has mainly been done on the grounds of the historical division (with adaptations where necessary to correspond with provincial boundaries) but should be regarded as preliminary. The Central Statistical Service (CSS) is probably the largest single user of such a code list and undertakes the maintenance and distribution thereof. An effort has been made to comply as far as possible with the demands of interested bodies.
3. All users of codes of this nature, are encouraged to employ this code list in order to promote standardisation. This code list is also available, at cost, on magnetic tape, diskette and other computer media.
4. Normally this list is revised biennially. Any amendments which may occur between republications, will be supplied to users on request. Address requests to the Head: CSS, Private Bag X44, Pretoria, 0001, telephone (012) 310-8911.

A.P.T. DU TOIT  
HOOF: SENTRALE STATISTIEKDIENS  
HEAD: CENTRAL STATISTICAL SERVICE

PRETORIA

29 MEI 1995  
29 MAY 1995

## VERDUIDELIKENDE NOTAS

## EXPLANATORY NOTES

## 1. GRONDSLAG

1.1 Die kodelys is gegrond op die volgende gebiedsindeling:

1.1.1 Statistiese streek - 'n Statistiese streek bestaan gewoonlik uit een of 'n aantal verwante aangrensende landdrosdistrikte. Homogeniteit ten opsigte van fisiese eienskappe en ekonomiese aktiwiteite is sover moontlik nagestreef.

1.1.2 Stede, dorpe en nie-stedelike gebiede - Binne elke landdrosdistrik is 'n verdere onderverdeling gemaak van stede, dorpe en ander gebiede met een of ander vorm van plaaslike bestuur, asook die oorblywende nie-stedelike gebied.

Nota:

Die kodestelsel kan gebruik word vir 'n klassifikasie wat gebaseer is op plaaslike bestuursgebiede. In hierdie geval kan die kodes vir nie-stedelike gebiede gebruik word vir die resant van landdrosdistrikte en die kode vir die hoofdeel (kyk paragraaf 4) waar plaaslike owerheidsgebiede in meer as een distrik gelee is.

## 2. DIE KODESTELSEL

2.1 Die volledige kode bestaan uit sewe syfers waarvan die eerste twee die statistiese streek verteenwoordig. Die derde en vierde syfers dui die landdrosdistrik binne die statistiese streek aan, terwyl die vyfde en sesde syfers op hulle beurt die stad of dorp binne die landdrosdistrik onskryf. Die sewende syfer is 'n toetssyfer wat hieronder bespreek word.

Die kodes is soos volg toegeken:

2.1.1 Landdrosdistrikte - Binne elke statistiese streek is die landdrosdistrikte elke keer vanaf 01 genommer. Hierdie benadering laat voldoende ruimte vir byvoeging van nuwe proklamasies in logiese posisies in die stelsel.

2.1.2 Stede, dorpe en nie-stedelike gebiede - Binne elke landdrosdistrik is 'n verdere onderverdeling van stede, dorpe en ander gebiede met een of ander vorm van plaaslike bestuur gemaak. Die gebruik om nommers binne reekse toe te ken is gestaak. Om praktiese redes is die reeds toegeken nommers egter nie gewysig nie. Vir die oorblywende gedeelte van die landdrosdistrikte is die kode 99 toegeken en in die lys opgeneem as die NS (Nie-stedelike) gedeelte van die distrik.

## 1. BASIS

1.1 The code list is based on the following division of areas:

1.1.1 Statistical region - A statistical region generally consists of one or a number of related adjoining magisterial districts. Homogeneity in respect of physical characteristics and economic activities has been attempted as far as possible.

1.1.2 Cities, towns and non-urban areas - Within each magisterial district a further subdivision is made of cities, towns and other areas with some form of local government and the remaining non-urban area portion.

Note:

The coding system can be used for a classification based on local government areas. In this case the codes for non-urban areas can be used for the remainder of magisterial districts, and the code for the main part (see paragraph 4) where local government areas are situated in more than one district.

## 2. THE CODE SYSTEM

2.1 The complete code consists of seven digits of which the first two represent the statistical region. The third and fourth digits indicate the magisterial district within the statistical region, while the fifth and sixth digits in turn indicate the city or town within the magisterial district. The seventh digit is a check digit which is discussed below.

The codes are allocated as follows:

2.1.1 Magisterial districts - Within each statistical region the magisterial districts are numbered from 01. This approach leaves sufficient room for the addition of new proclamations in logical positions in the system.

2.1.2 Cities, towns and non-urban areas - With each magisterial district a further subdivision of cities, towns and other urban areas with some form of local government is made. The practice to allocate numbers within series has been discontinued. For practical purposes, however, the numbers previously allocated have not been changed. The remaining portion of the magisterial district is coded as 99 and is included in the list as the NU (Non-urban) portion of the district.

Wes-Kaap	xxxii	Western Cape
Oos-Kaap	xxxiii	Eastern Cape
Noord-Kaap	xxxiii	Northern Cape
Oranje-Vrystaat	xxxiv	Orange Free State
KwaZulu/Natal	xxxv	KwaZulu/Natal
Noordwes	xxxvi	North-West
PWV	xxxvii	PWV
Oos-Transvaal	xxxviii	Eastern Transvaal
Noord-Transvaal	xxxix	Northern Transvaal
Sistematiese kodelys	1.1 - 1.46	Systematical code list
Alfabetiese kodelys volgens distrikte	2.1 - 2.46	Alphabetical code list by districts
Alfabetiese kodelys volgens stad/dorp	3.1 - 3.46	Alphabetical code list by city/town

6.2 Ten einde die gebruik van die hersiene kodes te vergemaklik, word ooreenstemmings tussen die kodes in die twaalfde en elfde uitgawes van die standaardkode lys by wyse van ooreenstemmingstabelle te Bylae C gegee.

## 7. ALGEMEEN

7.1 Name - Wanneer daar beide 'n Afrikaanse en 'n Engelse naam vir 'n plek bestaan, is, waar ruimte dit toelaat, albei gegee met die Afrikaanse naam eerste. Andersins is die naam in die taal verstrekk wat oorwegend in die betrokke gebied gebruik word.

### 7.2 Afkortings gebruik

ged. Gedeelte  
LBH Landbouhoewes  
LDG Landgoed  
NS Nie-stedelik  
SD Swart Dorp

6.2 In order to facilitate the use of the revised codes, correspondences between the codes used in the twelfth and eleventh editions have been given by means of correspondence tables in Annexure C.

## 7. GENERAL

7.1 Names - In cases where both an Afrikaans and an English name for a place exist, both space permitting, were provided with the Afrikaans name first. Otherwise the name is furnished in that language which is spoken by the majority in the area concerned.

### 7.2 Abbreviations used

ptn Portion  
AH Agricultural Holdings  
EST Estate  
NU Non-urban  
BT Black Township

### 3. TOETSSYFER

- 3.1 Die sewende syfer van die kode wat as toetssyfer bekend staan, is 'n hulpmiddel vir die versekering van korrekte versyfering en datavaslegging wanneer dit in groot volumes geskied en ander verifieeringsmetodes onprakties is.
- 3.2 Die gebruik van die toetssyfer is beleid in die SSD, maar opsioneel vir ander gebruikers.
- 3.3 Die toetssyfer word soos volg bereken: Vermenigvuldig die eerste syfer van die kode met 7, die tweede met 6, ens. Sommeer hierdie resultate en bepaal die res as hierdie som deur 11 gedeel word. Trek die res van 11 af. As die resultaat kleiner as 10 is, is dit die toetssyfer. As die resultaat 10 of 11 is, is die toetssyfer onderskeidelik 0 of 1.

### 4. OORSKRYDINGS VAN LANDDROSDISTRIK

- 4.1 Sekere plaaslike owerheidsgebiede is in meer as een distrik geleë. In hierdie gevalle word 'n "(+)" as deel van die naam van die hoofdeel aangetoon, terwyl 'n "(\*)" na die naam die ondergeskikte deel of dele uitwys.
- 4.2 In BYLAE A tot hierdie notas word, wanneer moontlik, die name van die dorpsgebiede ("voorstede") in die ondergeskikte dele verstreë. Wanneer die naam van 'n dorpsgebied ("voorstad") dus nie genoem word nie, moet die kode van die hoofdeel "(+)" gebruik word.

### 5. PROVINSIËS

- 5.1 Die name en kodes van die verskillende provinsies wat in die kodelyste verskyn is soos volg:

01 Wes-Kaap  
02 Oos-Kaap  
03 Noord-Kaap  
04 Oranje-Vrystaat  
05 KwaZulu/Natal  
06 Noordwes  
07 Pretoria-Witwatersrand-Vereeniging (PWV)  
08 Oos-Transvaal  
09 Noord-Transvaal

### 6. VERSKILLE IN KODES

- 6.1 As gevolg van die herstelling van die standaardkodelys stem die kodes wat aan statistiese streke en landdrosdistrikte toegeken is in verskeie gevalle nie ooreen met die vorige (elfde) uitgawe van die standaardkodelys nie.

v

### 3. CHECK DIGIT

- 3.1 The seventh digit of the code which is known as a check digit, is an aid in the determination of the validity of coding and data capture when this is done in large volumes and other verification methods are impracticable.
- 3.2 The use of the check digit is a matter of policy in the CSS but optional for other users.
- 3.3 The check digit is calculated as follows: Multiply the first digit of the code by 7, the second by 6, etc. Add these results and determine the remainder when the sum is divided by 11. Subtract the remainder from 11. If this result is less than 10, it is the check digit. If the result is 10 or 11, the check digit is 0 or 1 respectively.

### 4. OVERLAPS OF MAGISTERIAL DISTRICT

- 4.1 Certain local authority areas are situated in more than one district. In these cases a "(+)" is shown as part of the name of the main part, while a "(\*)" after the name indicates the subordinate part(s).
- 4.2 In APPENDIX A to these notes the names of the townships ("suburbs") in the subordinate parts are given, whenever possible. If the name of a township ("suburb") is not mentioned, the code for the main part "(+)" must be used.

### 5. PROVINCES

- 5.1 The names and codes of the various provinces appearing in the code lists are as follows:

01 Western Cape  
02 Eastern Cape  
03 Northern Cape  
04 Orange Free State  
05 KwaZulu/Natal  
06 North-West  
07 Pretoria-Witwatersrand-Vereeniging (PWV)  
08 Eastern Transvaal  
09 Northern Transvaal

### 6. DIFFERENCES IN CODES

- 6.1 As a result of the revision of the standard code list of areas the codes allocated to statistical regions and magisterial districts do in various cases not correspond with the previous (eleventh) edition of the standard code list.

REPUBLIEK VAN SUID-AFRIKA

REPUBLIC OF SOUTH AFRICA

Erkennings: Die gedetailleerde kaart is gegrond op koördinate wat verskaf is deur die Departement van Streek- en Grondsake. Aanpassings is aangebring om die distrikte van die voormalige TBVC-state sowel as die sogenaamde selfregerende gebiede te akkommodeer.

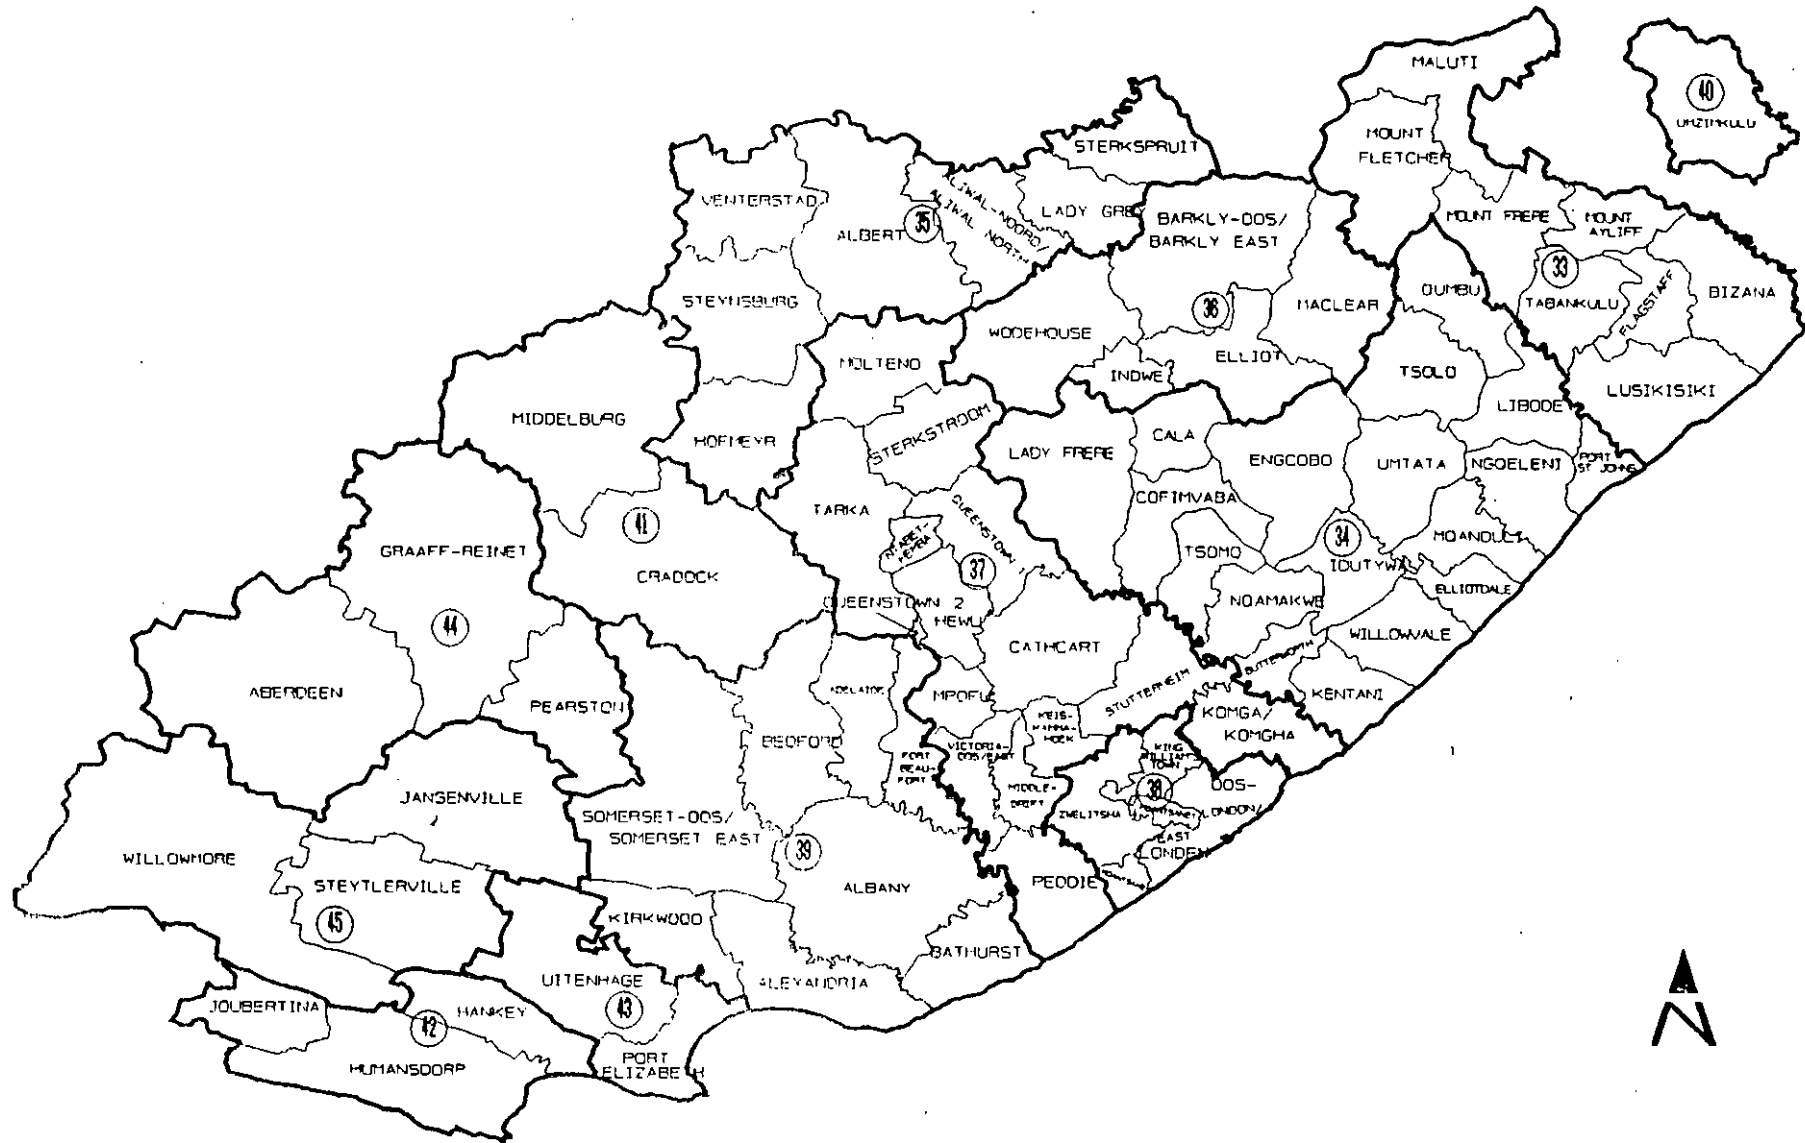

Acknowledgement: The detailed map is based on co-ordinates provided by the Department of Regional and Land Affairs. Adjustments were made to accommodate the districts of the former TBVC states as well as the so-called self-governing territories.
