Domestic Tourism Survey 2012

The Domestic Tourism Survey 2012 data are in four files. The files are flat, ASCII, fixed field files, with one line of given length per record. This format was chosen so as to make the data usable with as many statistical programs as possible, and thus accessible to as wide a range of people as possible.

Users can also access, explore and download the microdata in various formats, i.e. SAS, SPSS, Stata, etc. as well as the metadata from StatsOnline at www.statssa.gov.za at a later stage.

Other important information for users is found in the:

Questionnaire

Relevant publications

Website (www.statssa.gov.za)

Description of variables

The description of the variables comprises the following information:

Descriptive name: This is a short English description plus the variable name in the original file used by Stats SA to construct the ASCII file.

Position of the variable: The position of the data within the record, recorded in the format (@xxx y.). '@xxx' indicates that the data begin at position (i.e. column) xxx and 'y' indicates that it is y digits wide. All data are numeric. All data are right justified.

Source: This is either the question in the questionnaire or, for derived variables, the method of derivation. Derived variables are usually found towards the end of a file.

Valid range: The range of valid values for the variable. For continuous variables this reflects the upper and lower limits as found in the data.

Not applicable: The code for 'not applicable' is provided for each variable. These are now numeric.

Missing value: A code for 'missing/unspecified' values is given for each variable.

Notes: Specific observations to be noted by users.

Most questions in the Domestic Tourism Survey questionnaire are pre-coded, i.e. there is a set number of choices from which one or more must be selected. For open-ended 'write-in' questions, the description will state that post-coding occurred and explain how this was done. Most variables have been pre-coded from the questionnaire and are not repeated in the variable description. Where the coding is not apparent, the description either provides the codes or indicates where code lists are to be found.

Linking files

The data from different files can be linked on the basis of a record identifier. The record identifier is the first field/s in each file. Each record contains a number (UqNo), which constitutes a unique household identifier. All records with a given unique household identifier, no matter which file they are in, belong to the same household. For individuals, a further two digits constitute the Person number (PersonNo). When used with the unique household identifier, a unique individual identifier is created. Again, these can be used to link records from the respective files

Methodology

Target population

The target population of the survey consists of all private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old-age homes, hospitals, prisons and military barracks, and is therefore only representative of non-institutionalised and non-military persons or households in South Africa.

Sample design

The sample design for the DTS 2012 was based on a master sample (MS). The master sample used a two-stage, a stratified design with probability-proportional-to-size (PPS) sampling of PSUs from within strata, and systematic sampling of dwelling units (DUs) from the sampled primary sampling units (PSUs). A self-weighting design at provincial level was used and MS stratification was divided into two levels, primary and secondary stratification. Primary stratification was defined by metropolitan and non-metropolitan geographic area type. During secondary stratification, the Census 2001 data were summarised at PSU level. The following variables were used for secondary stratification: household size, education, occupancy status, gender, industry and income.

Census enumeration areas (EAs) as delineated for Census 2001 formed the basis of the PSUs. The following additional rules were used:

Where possible, PSU sizes were kept between 100 and 500 dwelling units (DUs);

EAs with fewer than 25 DUs were excluded;

EAs with between 26 and 99 DUs were pooled to form larger PSUs and the criteria used was same settlement type;

Virtual splits were applied to large PSUs: 500 to 999 split into two 1 000 to 1 499 split into three and 1 500 plus split into four PSUs; and

Informal PSUs were segmented.

A Randomised Probability Proportional to Size (RPPS) systematic sample of PSUs was drawn in each stratum, with the measure of size being the number of households in the PSU. Altogether approximately 3 080 PSUs were selected. In each selected PSU a systematic sample of dwelling units was drawn. The number of DUs selected per PSU varies from PSU to PSU and depends on the Inverse Sampling Ratios (ISR) of each PSU.

Allocating sample sizes to strata¹

The randomised PPS systematic sampling method is described below. This procedure was applied independently within each design stratum.

Let N be the total number of PSUs in the stratum, and the number of PSUs to be selected from the stratum

is denoted by n . Also, let x_i denote the size measure of the PSU i within the stratum, where

$i = 1, 2, 3, \dots, N$. Then, the method for selecting the sample of n PSUs with the Randomised PPS systematic sampling method can be described as follows:

Step 1: Randomise the PSUs within the stratum

The list of N PSUs within the stratum can be randomised by generating uniform random between 0 and 1, and then by sorting the N PSUs in ascending or descending order of these random numbers. Once the PSUs have been randomised, we can generate permanent sequence numbers for the PSUs.

Step 2: Define normalised measures of size for the PSUs

We denote by x_i the measure of size (MOS) of PSU i within the design stratum. Then, the measure of size

for the stratum is given by $X = \sum_{i=1}^N x_i$. We define the normalised size measure p_i of PSU i as

$p_i = x_i / X$; $i = 1, 2, 3, \dots, N$, where N is the total number of PSUs in the design stratum. Then, p_i is

$$\sum_{i=1}^N p_i = 1$$

the relative size of the PSU i in the stratum, and for all strata. It should be noted that the value of $n \times p_i$, which is the selection probability of PSU i must be less than one.

Step 3: Obtain inverse sampling rates (ISRs)

Let R be the stratum inverse sampling rate (ISR). The stratum ISR is the same as the corresponding provincial ISR because of the proportional allocation within the province. It should also be noted that the proportional allocation within the province also results in a self-weighting design.

¹ Source: Sample Selection and Rotation for the Redesigned South African Labour Force Survey by G. Hussain Choudhry, 2007.

Then, the PSU inverse sampling rates (ISRs) are obtained as follows:

First, define N real numbers $Z_i = n \times p_i \times R; i = 1, 2, 3, \dots, N$. It is easy to verify that $\sum_{i=1}^N Z_i = n \times R$. Next, round the N real numbers $Z_i; i = 1, 2, 3, \dots, N$ to integer values $R_i; i = 1, 2, 3, \dots, N$ such that each R_i is as close as possible to the corresponding Z_i value and the R_i values add up to $n \times R$ within the stratum. In other words, the sum of the absolute differences between the R_i and the corresponding Z_i values is minimised subject to the constraint that the R_i values add up to $n \times R$ within the stratum. Drew, Choudhry and Gray (1978) provide a simple algorithm to obtain the integer R_i values as follows:

Let " d " be the difference between the value $n \times R$ and the sum $S = \sum_{i=1}^N [Z_i]$, where $[.]$ is the integer function, then R_i values can be obtained by rounding up the " d " Z_i values with the largest fraction parts, and by rounding down the remaining $(N - d)$ of them. It should be noted that the integer sizes $R_i; i = 1, 2, 3, \dots, N$ are also the PSU inverse sampling rates (ISRs) for systematic sampling of dwelling units.

Step 4: Obtain cumulative ISR values

We denote by $C_i; i = 1, 2, 3, \dots, N$ the cumulative ISRs of the PSUs within the stratum. It should be noted that the PSUs within the stratum have been sorted according to the sequence numbers that were assigned after the randomisation. Then, the cumulative ISRs are defined as follows:

$$C_1 = R_1,$$

$$C_j = C_{(j-1)} + R_j; \quad j = 2, 3, \dots, N.$$

It should be noted that the value C_N will be equal to $n \times R$, which is also the total number of systematic samples of dwelling units that can be selected from the stratum.

Step 5: Generate an integer random number r between 1 and R , and compute n integers r_1, r_2, \dots, r_n as follows:

$$r_1 = r$$

$$r_2 = r_1 + R$$

$$r_3 = r_2 + R$$

.

.

$$r_i = r_{(i-1)} + R$$

.

.

$$r_n = r_{(n-1)} + R.$$

Step 6: Select n PSUs out of the N PSUs in the stratum with the labels (sequence numbers) number i_1, i_2, \dots, i_n such that:

$$C_{i_1-1} < r_1 \leq C_{i_1}$$

$$C_{i_2-1} < r_2 \leq C_{i_2}$$

$$\cdot$$

$$\cdot$$

$$C_{i_n-1} < r_n \leq C_{i_n}.$$

Then, the n PSUs with the labels i_1, i_2, \dots, i_n would get selected with probabilities proportional to size, and the selection probability of the PSU i will be given by R_i/R .

Sampling and the interpretation of the data

Caution must be exercised when interpreting the results of the DTS at low levels of disaggregation. Revisions to the DTS data sets based on the new population estimates involved benchmarking at national level in terms of age, sex and population group while at provincial level, benchmarking was by population group only. The sample and reporting are based on the provincial boundaries as defined in December 2005.

Coverage

The target population is private households in all nine provinces of South Africa, and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

Definitions of terms

A trip is a journey taken outside the usual environment of the household.

Day trip is trip on which the respondent or members of the household went for the trip and returned on the same day.

Overnight trip is a trip on which the respondent spent a day or more away from his or her usual environment.

Package trip is a trip in which two or more items are included (e.g. accommodation and transport).

Tourism includes all trips away from ones usual environment, not just holiday/leisure trips. It also includes trips related to business, visiting friends and/or relatives, medical/health, and religious journeys amongst others.

The usual environment is defined as all places within a 40 kilometres radius of the place of usual residence of the respondent, and all places that the respondent visits at least once a week (e.g. going to work), irrespective of the distance from their usual residence.

Period of reference is the beginning of January 2011 until December 2011.

Table A: Contents of the DTS 2012 questionnaire

Section	Number of questions	Details of each section
Cover page		Household information, response details, result codes, field staff information, etc.
Background	22	Demographic information (name, sex, age, population group, education, tourism employment)
Section 1	23	Domestic day trips taken by the respondent and/or other household members
Section 2	31	Domestic overnight trips taken by respondent and/or other household members
Section 3	22	Domestic day trips taken by other household members (without the respondent)
Section 4	30	Domestic overnight trips taken by other household members (without the respondent)
All sections	128	Comprehensive coverage of all aspects of domestic tourism and expenditure

Table B: Response rates per province (percentages), DTS 2012 in thousands

Province	Per cent
Western Cape	93,49
Eastern Cape	98,34
Northern Cape	94,47
Free State	95,21
KwaZulu-Natal	99,07
North West	96,84
Gauteng	81,19
Mpumalanga	95,62
Limpopo	98,45
South Africa	93,87

Data file: Day trips

Data transformation for Section 1 and Section 3.

Note to users: The DTS questionnaire had two sections for the domestic day trips taken by the respondent and other household members without the respondent namely section 1 (domestic day trips undertaken by the respondent alone or with other household members) and section 3 (domestic day trips undertaken by other household members without the respondent). The purpose of this split was to collect as many domestic day trips as possible from the households.

Therefore the combination of section 1 and section 3 formed one dataset for domestic day trips. Only variable names for section 1 have been retained since questions in both sections were the same.

Note that expenses (monetary values) in the data are expressed as averages. Thus amount spent on the trip by the number of household members who went on a trip.

The process followed to merge the two data sets:

If the trip in section 3 was more recent than the trip in section 1 the data values of section 3 replace the data values of section 1. This comparison was not possible for cases with missing or out of range or invalid values for the trip dates. In those cases the trip details of section 1 are retained.

Unique number (UQNO)

(@1 18)

Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

Valid range: 101000170000001401-986010560000019801

Person number (PersonNO)

(@19 2)

Person (respondent) number within Household

Valid range: 01–24

Note: The two fields above (unique number and person number) create an 18-digit unique person identifier, which can be used to link a record from this file with another record for the same individuals from other files.

Province (Pr_code)

(@21 1)

South African provinces

Derived variable: Derived from the first digit of the Unique Number taking the December 2005 provincial boundaries into account.

Final code list

- 1 = Western Cape
- 2 = Eastern Cape
- 3 = Northern Cape
- 4 = Free State
- 5 = KwaZulu-Natal
- 6 = North West
- 7 = Gauteng
- 8 = Mpumalanga
- 9 = Limpopo

Valid range : 1-9

Stayed Nights (B_NIGHTS)

(@22 1)

B	<p>Has stayed here (in this household) for at least four nights on average per week during the last four weeks?</p> <p>1 = Yes If "No", 2 = No → End of questions for this person</p>
----------	--

Note to users

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered 'No' in this question. It is through this question where household members are identified within the selected dwelling.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Yes

Gender (C_GENDER)

(@23 1)

C	<p>Is a male or a female?</p> <p>1= Male 2=Female</p>
----------	--

Note to users

This question is asked for each household member, to determine his or her gender. This question, and all consequent questions, are applicable only if there is a 'Yes' answer in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

1 = Male
2 = Female

D	What is 's date of birth and age in completed years?
----------	---

Note to users

This question is asked to find out the ages of the household members. The instruction is to write the years in whole numbers and not in words. Must record age at last birthday or age in completed years. Moreover, these years must be completed, thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write 000.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

Day of birth (D_DAY) (@24 2)

Valid range: 1 - 31
99 = Unspecified

Month of birth (D_MONTH) (@26 2)

Valid range: 1- 12
99 = Unspecified

Year of birth (D_YEAR) (@28 4)

Valid range: 1906 - 2011
9999 = Unspecified

Age (D_AGE) (@32 3)

Less than 1 year = 0

Valid range: 0 – 105
999 = Unspecified

Age group (Age_grp1) (@35 2)

Final code list

01 = 00–04 years
02 = 05–09 years
03 = 10–14 years
04 = 15–19 years
05 = 20–24 years
06 = 25–29 years
07 = 30–34 years
08 = 35–39 years
09 = 40–44 years
10 = 45–49 years
11 = 50–54 years
12 = 55–59 years
13 = 60–64 years
14 = 65–69 years
15 = 70–74 years
16 = 75+ years

Population group (E_POPULATION)

(@37 1)

E	What population group does belong to?
	1 = African/Black
	2 = Coloured
	3 = Indian/asian
	4 = White
	5 = Other

Note to users

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions which may be influenced by his observation or using people's names during the interview. This question may seem very sensitive to some respondents especially in this post-apartheid era, but it is really important to find out the composition of the South African population.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

- 1 = African/Black
- 2 = Coloured
- 3 = Indian/Asian
- 4 = White
- 5=Other

Marital status (F1_MARITALSTATUS)

(@38 1)

F(i)	What is’s present marital status?
	1 = Married
	2 = Living together like husband and wife
	3 = Widow/widower Go to G
	4 = Divorced or separated Go to G
	5 = Never married Go to G

Note to users

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question. If the response is 'widow/widower', 'divorced or separated', or 'never married', the enumerator is instructed to go to Question G.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Married
- 2 = Living together like husband and wife
- 3 = Widow/Widower
- 4 = Divorced or separated
- 5 = Never married
- 9 = Unspecified

Partner (F2_SPOUSEINHH)

(@39 1)

F(ii)	Does’s spouse/partner live in this household?
--------------	--

1 = Yes 2 = No	→ Go to G
-------------------	------------------

Universe

This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife' (F1).

Final code list

1 = Yes
2 = No
8 = Not applicable
9 = Unspecified

Spouse number (F3_WHICHSPOUSE)

(@40 2)

F(iii)	Which person is the spouse/partner of? <i>Give person number</i>
---------------	--

Universe

This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife' (F1).

Final code list

Valid range: 01–22

88 = Not applicable
99 = Unspecified

Highest Grade (G_EDUCATION)

(@42 2)

G	What is the highest level of education that has successfully completed? <i>Diplomas or certificates must be of six months plus study duration full-time (or equivalent) to be included</i> 98 = No schooling 00 = Grade R/00 01 = Grade 1/ Sub A/Class 1 02 = Grade 2 / Sub B/Class 2 03 = Grade 3/Standard 1/ ABET 1(Kha Ri Gude, Sanli) 04 = Grade 4/ Standard 2 05 = Grade 5/ Standard 3/ ABET 2 06 = Grade 6/Standard 4 07 = Grade 7/Standard 5/ ABET 3 08 = Grade 8/Standard 6/Form 1 09 = Grade 9/Standard 7/Form 2/ ABET 4 10 = Grade 10/ Standard 8/ Form 3 11 = Grade 11/ Standard 9/ Form 4 12 = Grade 12/Standard 10/Form 5/Matric (No Exemption) 13 = Grade 12/Standard 10/Form 5/Matric (Exemption *) 14 = NTC 1/ N1/NC (V) Level 2 15 = NTC 2/ N2/ NC (V) Level 3 16 = NTC 3/ N3/NC (V)/Level 4 17 = N4/NTC 4 18 = N5/NTC 5 19 = N6/NTC 6 20 = Certificate with less than Grade 12/Std 10
----------	---

21 = Diploma with less than Grade 12/Std 10
22 = Certificate with Grade 12/Std 10
23 = Diploma with Grade 12/Std 10
24 = Higher Diploma (Technikon)
25 = Post Higher Diploma (Technikon Masters, Doctoral)
26 = Bachelors Degree
27 = Bachelors Degree and post-graduate diploma
28 = Honours Degree
29 = Higher degree (Masters, Doctorate)
30 = Other (specify in the box below)
31 = Do not know

Note to users

The interviewers are instructed to recognise qualifications that have already been completed and only diploma and certificates with the duration of at least six months and more.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

98 = No schooling
 00 = Grade R/00
 01 = Grade 1/ Sub A/Class 1
 02 = Grade 2 / Sub B/Class 2
 03 = Grade 3/Standard 1/ ABET 1(Kha Ri Gude, Sanli)
 04 = Grade 4/ Standard 2
 05 = Grade 5/ Standard 3/ ABET 2
 06 = Grade 6/Standard 4
 07 = Grade 7/Standard 5/ ABET 3
 08 = Grade 8/Standard 6/Form 1
 09 = Grade 9/Standard 7/Form 2/ ABET 4
 10 = Grade 10/ Standard 8/ Form 3
 11 = Grade 11/ Standard 9/ Form 4
 12 = Grade 12/Standard 10/Form 5/Matric (No Exemption)
 13 = Grade 12/Standard 10/Form 5/Matric (Exemption *)
 14 = NTC 1/ N1/NC (V) Level 2
 15 = NTC 2/ N2/ NC (V) Level 3
 16 = NTC 3/ N3/NC (V)/Level 4
 17 = N4/NTC 4
 18 = N5/NTC 5
 19 = N6/NTC 6
 20 = Certificate with less than Grade 12/Std 10
 21 = Diploma with less than Grade 12/Std 10
 22 = Certificate with Grade 12/Std 10
 23 = Diploma with Grade 12/Std 10
 24 = Higher Diploma (Technikon)
 25 = Post Higher Diploma (Technikon Masters, Doctoral)
 26 = Bachelors Degree
 27 = Bachelors Degree and post-graduate diploma
 28 = Honours Degree
 29 = Higher degree (Masters, Doctorate)
 30 = Other
 31 = Do not know
 99 = Unspecified

Paid Work (H1a_PDWRK)

(@44 1)

H.(i)a	<p>During the last calendar week (Sunday to Saturday), did work for a wage, salary, commission or any payment in kind (including paid domestic work), even if it was for only one hour?</p> <p><i>Examples: a regular job, contract, casual or piece work for pay, work in exchange for food or housing, paid domestic work.</i></p> <p>1 = Yes 2 = No 3 = Do not know</p>
---------------	--

Note to users

This question is applicable to all household members aged 15 years and older, regarding their involvement in economic activities in the seven days prior to the interview. This is part of the questionnaire where there would be a differentiation between the economically active population and those who are not economically active. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them.

Universe

All members of the households in selected dwelling units aged 15 years and older who in the last week did any work for a wage, salary, commission or any payment in kind.

Final code list

1 = Yes
2 = No
3 = Do not know
9 = Unspecified

Own Business (H1b_OWNBUSNS)

(@45 1)

H.(i)b	<p>During the last calendar week (Sunday to Saturday), did run or do any kind of business, big or small, for him/herself or with one or more partners, even if it was for only one hour?</p> <p><i>Examples: Commercial farming, selling things making things for sale, construction, repairing things, guarding cars, brewing beer, collecting wood or water for sale hairdressing, crèche, businesses, taxi or other transport businesses, having a legal or medical practice, performing in public, having a public phone shop, etc.</i></p> <p>1 = Yes 2 = No 3 = Do not know</p>
---------------	---

Note to users

This question is applicable to all household members aged 15 years and older, regarding their involvement in economic activities in the seven days prior to the interview. This is part of the questionnaire where there would be a differentiation between the economically active population and those who are not economically active. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them.

Universe

All members of the households in selected dwelling units aged 15 years and older who in the last week ran or did any kind of business, big or small, for himself/herself or with one or more partners.

Final code list

- 1 = Yes
- 2 = No
- 3 = Do not know
- 9 = Unspecified

Unpaid Work (H1c_UNPDWRK)

(@46 1)

H(i)c	<p>During the last calendar week (Sunday to Saturday), did help without being paid in any kind of business run by your household, even if it was for only one hour?</p> <p><i>Examples: Commercial farming, help to sell things, make things for sale or exchange, doing the accounts, cleaning up for the business, etc.</i></p> <p>1 = Yes 2 = No 3 = Do not know</p>
--------------	---

Note to users

This question is applicable to all household members aged 15 years and older, regarding their involvement in economic activities in the seven days prior to the interview. This is part of the questionnaire where there would be a differentiation between the economically active population and those who are not economically active. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them.

Universe

All members of the households in selected dwelling units aged 15 years and older who in the last week helped unpaid in a household business of any kind.

Final code list

- 1 = Yes
- 2 = No
- 3 = Do not know
- 9 = Unspecified

Have Work (H2_HAVEWORK)

(@47 1)

H(ii)	<p>During the last calendar week (Sunday to Saturday), even though.... did not do any work for pay, profit or did not help without pay in a household business, did....have a job or business that he/she would definitely return to?</p> <p>1 = Yes 2 = No → Go to I 3 = Do not know → Go to I</p> <p><i>Those helping unpaid in household businesses should have a "no" answer even if they have a job to definitely return to.</i></p>
--------------	--

Note to users

This was only applicable to household members who had answered 'No' to all the categories in Question H(i). The main intention of this question was to find the reason why people did not work in the last week prior to the interview. If 'Yes' to either part a or b, the enumerator should skip to Question H(iii).

Universe

All members of the households in selected dwelling units aged 15 years and older who were not involved in economic activities in the last seven days prior to the interview and who had a paid job that they would definitely return to.

Final code list

- 1 = Yes
- 2 = No
- 3 = Do not know
- 9 = Unspecified

Sector (H3_SECTOR)

(@48 1)

H(iii)	Does Work for... 1 = National/Provincial/Local Government? → Go to I 2 = A private household? → Go to I 3 = A parastatal (e.g. transnet) 4 = A private enterprise? 5 = Non-profit organisation (NGO/CBO) 6 = Don't know
---------------	---

Note to user.

This question is asked to determine people who work in various sectors. Some work for the government, private sector household, private enterprise etc. interviewer will mark the appropriate option.

Final code list

- 1 = National/Provincial/Local Government
- 2 = A private household
- 3 = A parastatal (e.g. transnet)
- 4 = A private enterprise
- 5 = Non-profit organisation (NGO/CBO)
- 6 = Do not know
- 8 = Not applicable
- 9 = Unspecified

Goods and Services Produced (H4_GOODSSERVICES)

(@49 2)

H(iv)	What are the goods and services produced by the organisation/business.....work for? Is it....? 1 = Accommodation 2 = Restaurants and bars 3 = Passenger transport (e.g. road, rail, air) 4 = Travel agents, tour operators 5 = Tour guides 6 = Recreation and entertainment 7 = Cultural services 8 = Trading (e.g. ebony and curios) 9 = Other
--------------	---

Note to users

This is a follow up question only to those who answered 'Yes' in QH (i). The aim of the question is to find out the area of work, employing people within the formal industry

Universe

All members of the household in a dwelling.

Final code list

1 = Accommodation
 2 = Restaurants and bars
 3 = Passenger transport (e.g., road, rail, air)
 4 = Travel agents, tour operators
 5 = Tour guides
 6 = Recreation and entertainment
 7 = Cultural services
 8 = Trading (e.g. ebony and curios)
 9 = Other
 88= Not applicable
 99 = Unspecified

Other persons(I_OtherPers)

(@51 1)

I	Is there any other person residing in this household, other than those already mentioned, who is not presently here?
----------	---

Note to users

Sometimes it is possible that the respondent may have forgotten some household members. It is important to read Question I: Is there any other person residing in this household, other than those already mentioned, who is not presently here? Mark the appropriate box with an 'X'. Go back to Question A if some members were forgotten.

Final code list

1 = Yes
 2 = No
 9 = Unspecified

Type of main dwelling(JMAIND)

(@52 2)

J	<p>Indicate the type of main dwelling that the household occupies on this piece of land?</p> <p>01 = Dwelling/house or brick/concrete block structure on a separate stand or yard or on farm</p> <p>02 = Traditional dwelling/hut/hut/structure made of traditional materials</p> <p>03 = Flat or apartment in block of flats</p> <p>04 = Cluster house in complex</p> <p>05 = Townhouse (semi-detached house in complex)</p> <p>06 = Semi-detached house</p> <p>07 = Dwelling/house/flat/room in backyard</p> <p>08 = Informal dwelling/shack not in backyard</p> <p>09 = Informal dwelling/shack not in backyard, e.g. in an informal/squatter settlement or on farm</p> <p>10 = Room/flatlet on a property or a larger dwelling/servants' quarters/granny flat</p> <p>11 = Caravan/tent</p> <p>12 = Other, specify.....</p>
----------	---

Note to user

The main dwelling is the one in which the members of the household spend the most time.

Final code list

01 = Dwelling/house or brick/concrete block structure on a separate stand or yard or on farm

02 = Traditional dwelling/hut/structure made of traditional materials

03 = Flat or apartment in a block of flats

04 = Cluster house in complex

05 = Town house (semi-detached house in complex)

06 = Semi-detached house

07 = Dwelling/house/fl at/room in backyard

08 = Informal dwelling/shack in backyard

09 = Informal dwelling/shack not in backyard, e.g. in an informal/squatter settlement or on farm

10 = Room/flatlet on a property or a larger dwelling/servants' quarters/granny fl at

11 = Caravan/tent

12 = Other,specify.....

99 = Unspecified

K	Does the household own any of the following items?
	<i>Read all options</i>
	01 = TV set
	02 = Swimming pool
	03 = DVD player/Blu Ray Player
	04 = Pay TV (M-Net/DStv/Top TV) Subscription
	05 = Air conditioner (excluding fans)

Note to users

The purpose of the question is to find out about the final destination of the member(s) of the household. The member(s) of the household was asked to tick the Province and the District that was visited and write the place name of the town/s that was visited during the trip. The place names of the town/s are included in the final datasets but not in a coded format and were not standardised. Only spelling errors were corrected and released as it was received from the field. The updated codelist for placenames will be available after Census 2011. The next wave of this survey will released in a code format.

District of destination (Q14DISTRICT)

(@116 2)

Valid Range: 1-11

88 = Not applicable

99 = Unspecified

Place name (Q14Place)

(@118 20)

Place names are listed in the final dataset and are not coded.

Date of trip (Q15DATE)

(@138 8)

1.5	What date did this trip take place? <i>Write the date in the following format (dd/mm/yyyy)</i>	<table style="margin: auto;"> <tr> <td>d</td><td>d</td><td>m</td><td>m</td><td>y</td><td>y</td><td>y</td><td>y</td> </tr> <tr> <td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td><td><input type="text"/></td> </tr> </table>	d	d	m	m	y	y	y	y	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
d	d	m	m	y	y	y	y											
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>											

Note to users

The purpose of the question is to find out about the date on which the member(s) of the household left home for the last trip outside the 40 kilometres radius. The interviewer must write the calendar day, the month and the year on which the day trip took place.

Universe

All household members who took day trips.

Final code list

99999999 = Unspecified

Total on the trip (Q16TOTAL)

(@146 2)

1.6	Including yourself, how many people in total went on this trip? <i>Include those who are not members of your household</i>
------------	--

Note to users

This question seeks to find out number of people, including those that are not members of the household, but were travelling together using the same transport, heading for the same destination for common purpose or to attend the same event.

Universe

Member(s) of the household who took day trip(s)

Final code list

Valid range: 1-99

Number of household members (Q17HOUSH)

(@148 2)

1.7	Of the people mentioned above, how many were members of your household?
------------	--

Note to user

The purpose of the question is to find out from Q1.6, that out of the group that was travelling with the members of the household, how many were the members of the household. The members of the household might have been travelling in a bus or kombi to either the funeral or football match, but the questions tries to find only the number of the household members that went along with the group.

Universe

Member(s) of the household who took day trip(s)

Final code list

Valid range: 1-11

88 = Not applicable

99= Unspecified

Purpose of trip (Q18MAINP)

(@150 2)

1.8	What was the main purpose of this trip? 01 = Leisure/vacation/holiday 02 = Shopping – business 03 = Shopping - personal 04 = Sporting – spectator 05 = Sporting - participant 06 = Visiting friends and/or family 07 = Funeral 08 = Business or professional trip 09 = Business conference 10 = Study/educational trip
------------	---

	11 = Medical 12 = Wellness (e.g. spa, health farm) 13 = Religious 14 = Other
--	---

Note to users

This question determines the main purpose of the trip in the absence of which the trip would not have been made or the given destination would not have been visited. A person may be travelling for a certain purpose on a trip, but find herself/himself also having undertaken certain businesses along the way or at the place of the destination. Example would be a person who attended a funeral service, but also having met a business partner to discuss some new business deals/ proposals on his way to the funeral, or having attended a party of some sort after the funeral. The business and the party may not be mentioned as reasons or some of the reason, but only the main reason, which is the funeral.

Notes to the user

The aim of the question is to find out the total expenditure incurred by each person for any expenditure strictly related to the trip. Question 1.13 and 1.14 refers to two different types of expenditure, although the questions were phrased in the same manner. It should be noted that question 1.14. refers to "on trip" and question 1.13 "before trip". This will be items such as food for the trip, medication package, petrol expenses, and any other expenses directly related to the trip.

Money spent on trip

1.14	How much money did you and/or other members of your household spend on the following on the trip? 01= Airfare 02= Train 03= Land transport (fuel, Kombi, bus/train tickets, car hire, toll fees, parking) 04= Car hire 05= Food and beverages 06= Recreation/ entertainment (sports, game parks and amusement parks) 07= Cultural services (performing arts/ museums) 08= Medical expenses 09= Shopping 10= Tour guide 11= Other, Specify Total
-------------	---

Note to users

The aim of the question is to find out the total amount of money spent on each item during the trip by the members of the household. Question 1.13 and 1.14 refers to two different types of expenditure, although the questions were phrased in the same manner. It should be noted that question 1.14 refers to “on trip” and question 1.13 “before trip”.

The expenses of those who have not been on a package trip must also be given under each person who took the trip. All expenses, including those that were paid for by another party such as the employer, host, or the company, must be included. The instruction to the interviewer when filling in the amounts is to exclude the cents.

Data file: Overnight**Data transformation for Section 2 and Section 4.**

Note to users: The DTS questionnaire had two sections for the domestic overnight trips. The first section, Section 2 focussed on trips taken by the respondent alone and/ or with other household members. The second section, Section 4 detailed trips taken by other household members without the respondent: thus section 2(domestic overnight trips by the respondent) and section 4 (domestic overnight trips by other household members without the respondent). The purpose of this split was to collect as many domestic overnight trips as possible from the households.

Therefore the combination of section 2 and section 4 formed one dataset for domestic overnight trips. Only variable names for section 2 have been retained since questions in both sections were the same.

Note that expenses (monetary values) in the data are expressed as averages. Thus amount spent on the trip by the number of household members who went on a trip.

The process followed to merge the two data sets:

If the trip in section 4 was more recent than the trip in section 2 the data values of section 4 replace the data values of section 2. This comparison was not possible for cases with missing or out of range or invalid values for the trip dates. In those cases the trip details of section two are retained.

Unique number (UqNO) (@1 18.)

Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

Valid range: 101000170000001401 – 986010560000019801

Person number (PersonNO) (@19 2.)

Person (respondent) number within household

Valid range: 1 – 24

Note: The two fields above (unique number and person number) create a 18-digit unique person identifier, which can be used to link a record from this file with another record for the same individuals from other files.

Province (Pr_code) (@21 1.)

Note: Refers to province of origin. It is a derived variable: Derived from the first digit of the Unique Number taking the December 2005 provincial boundaries into account.

Final code list

- 1 = Western Cape
- 2 = Eastern Cape
- 3 = Northern Cape
- 4 = Free State
- 5 = KwaZulu-Natal
- 6 = North West
- 7 = Gauteng
- 8 = Mpumalanga
- 9 = Limpopo

Stayed Nights (B_NIGHTS)

(@22 1)

B	<p>Has stayed here (in this household) for at least four nights on average per week during the last four weeks?</p> <p>1 = Yes 2 = No → End of interview for this person</p>
----------	---

Note to users

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered 'No' in this question. It is through this question where household members are identified within the selected dwelling.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

1 = Yes

Gender (C_GENDER)

(@23 1)

C	<p>Is a male or a female?</p> <p>1= Male 2=Female</p>
----------	--

Note to users

This question is asked for each household member, to determine his or her gender. This question, and all consequent questions, are applicable only if there is a 'Yes' answer in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

1 = Male

2 = Female

D	What is 's date of birth and age in completed years?
----------	---

Note to users

This question is asked to find out the ages of the household members. The instruction is to write the years in whole numbers and not in words. Enumerators must record age at last birthday or age in completed years. Moreover, these years must be completed, thus if a person is two years and six months, the instruction is to write the two completed years. For infants under one year, the instruction is to write '000'.

Universe

Every person who normally resides in this household at least four nights per week.

Day of birth (D_DAY) (@24 2)

Valid range: 1 - 31

99 = Unspecified

Month of birth (D_MONTH) (@26 2)

Valid range: 1 - 12

99 = Unspecified

Year of birth (D_YEAR) (@28 4)

Valid range: 1906- 2011

9999 = Unspecified

Age (D_AGE) (@32 3)

Valid range: 0 – 105

Less than 1 year = 0

999 = Unspecified

Age group (Age_grp1) (@35 2)

Final code list

01 = 00–04 years

02 = 05–09 years

03 = 10–14 years

04 = 15–19 years

05 = 20–24 years

06 = 25–29 years

07 = 30–34 years

08 = 35–39 years

09 = 40–44 years

10 = 45–49 years

11 = 50–54 years

12 = 55–59 years

13 = 60–64 years

14 = 65–69 years

15 = 70–74 years

16 = 75+ years

Population group (E_POPULATION) (@37 1)

E	What population group does belong to? 1 = Black African 2 = Coloured 3 = Indian/ Asian 4 = White 5 = Other
---	--

Note to users

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions which may be influenced by his observation or using people's names during the interview. This question may seem very sensitive to some respondents especially in this post-apartheid era, but it is really important to find out the composition of the South African population.

Universe

Every person who normally resides in this household at least four nights per week.

Final code list

- 1 = African/Black
- 2 = Coloured
- 3 = Indian/Asian
- 4 = White
- 5 = Other

Marital status (F1_MARITALSTATUS)

(@38 1)

F(i)	What is’s present marital status? 1 = Married 2 = Living together like husband and wife 3 = Widow/widower → Go to G 4 = Divorced or separated → Go to G 5 = Never married → Go to G
-------------	--

Note to users

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question. If the response is 'Widow/widower', 'Divorced or separated', or 'Never married', the enumerator is instructed to go to Question G.

Universe

Every person who normally resides in this household for at least four nights per week.

Final code list

- 1 = Married
- 2 = Living together like husband and wife
- 3 = Widow/Widower
- 4 = Divorced or separated
- 5 = Never married
- 9 = Unspecified

Partner (F2_SPOUSEINHH)

(@39 1)

F(ii)	Does’s spouse/partner live in this household? 1 = Yes 2 = No → Go to G
--------------	--

Note to users

This question is to establish whether the household members' spouses are part of the household. Both modern and traditional marriages are considered in this question. If the response is 'No' the enumerator is instructed to go to Question G.

Universe

This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife' (F(i)).

Final code list

- 1 = Yes
- 2 = No
- 8 = Not applicable
- 9 = Unspecified

Spouse number (F3_WHICHSPOUSE)

(@40 2)

F(iii)	Which person is the spouse/partner of? <i>Give person number</i>
---------------	--

Note to users

This question seeks to find out which household member is married to which household member. Both modern and traditional marriages are considered in this question. The person number is recorded.

Universe

This question is only applicable to those people who indicated that they are 'Married' or 'Living together like husband and wife' (F(i)).

Final code list

Valid range: 0–92

Highest Grade (G_EDUCATION)

(@42 2)

G	What is the highest level of education that has successfully completed? <i>Diplomas or certificates must be of six months plus study duration full-time (or equivalent) to be included</i> 98 = No schooling 00 = Grade R/00 01 = Grade 1/ Sub A/Class 1 02 = Grade 2 / Sub B/Class 2 03 = Grade 3/Standard 1/ ABET 1(Kha Ri Gude, Sanli) 04 = Grade 4/ Standard 2 05 = Grade 5/ Standard 3/ ABET 2 06 = Grade 6/Standard 4 07 = Grade 7/Standard 5/ ABET 3 08 = Grade 8/Standard 6/Form 1 09 = Grade 9/Standard 7/Form 2/ ABET 4 10 = Grade 10/ Standard 8/ Form 3 11 = Grade 11/ Standard 9/ Form 4 12 = Grade 12/Standard 10/Form 5/Matric (No Exemption) 13 = Grade 12/Standard 10/Form 5/Matric (Exemption *) 14 = NTC 1/ N1/NC (V) Level 2 15 = NTC 2/ N2/ NC (V) Level 3 16 = NTC 3/ N3/NC (V)/Level 4 17 = N4/NTC 4 18 = N5/NTC 5 19 = N6/NTC 6 20 = Certificate with less than Grade 12/Std 10 21 = Diploma with less than Grade 12/Std 10 22 = Certificate with Grade 12/Std 10 23 = Diploma with Grade 12/Std 10 24 = Higher Diploma (Technikon) 25 = Post Higher Diploma (Technikon Masters, Doctoral) 26 = Bachelors Degree 27 = Bachelors Degree and post-graduate diploma 28 = Honours Degree 29 = Higher degree (Masters, Doctorate) 30 = Other (specify in the box below) 31 = Do not know

Month of trip

2.3	Can you tell me which month(s) these trips took place? <i>Record number of trips per month. If exact months are not known, help respondent to make rough estimates.</i>	NUMBER OF TRIPS
	01 = January	<input type="text"/> <input type="text"/>
	02 = February	<input type="text"/> <input type="text"/>
	03 = March	<input type="text"/> <input type="text"/>
	04 = April	<input type="text"/> <input type="text"/>
	05 = May	<input type="text"/> <input type="text"/>
	06 = June	<input type="text"/> <input type="text"/>
	07 = July	<input type="text"/> <input type="text"/>
	08 = August	<input type="text"/> <input type="text"/>
	09 = September	<input type="text"/> <input type="text"/>
	10 = October	<input type="text"/> <input type="text"/>
	11 = November	<input type="text"/> <input type="text"/>
	12 = December	<input type="text"/> <input type="text"/>
	Total (Add 1 - 12 to confirm total)	<input type="text"/> <input type="text"/>

Note to users

The question seeks to find out the number of trips taken in each month or months from the month of January 2011 to December 2011. The instruction to the interviewer is to record the number of all trips taken.

Domestic Tourism Survey 2012: Metadata

Notes to users

This is the main place that was visited. In case where more than one place was visited, the destination will be a place where more hours /days were spent. The place names of the town/s are included in the final datasets but not in a coded format and were not standardised. Only spelling errors were corrected and released as it was received from the field. The updated codelist for placenames will be available after Census 2011.

2.5	What date did this trip take place?	
------------	--	--

Start date(Q251startdate)

(@1110 8)

2.5.1	Start date (when you left for the trip) <i>Write the date in the following format (dd/mm/yyyy)</i>	<div style="text-align: center;"> d d m m y y y y <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> </div>
--------------	--	---

Note to users

This question seeks to establish the date on which the member(s) left their usual place of residence to spend one night or more away for an overnight trip.

Universe

To the members of the household who took overnight trip(s) in South Africa.

Final code list

88888888 = Not Applicable

99999999 = Unspecified

End Date (Q252enddate)

(@1118 8)

2.5.2	End date (when you returned from the trip). <i>Write the date in the following format (dd/mm/yyyy)</i>	<div style="text-align: center;"> d d m m y y y y <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> </div>
--------------	--	---

Note to users

This is the date on which the member(s) of the household returned back home or their usual place of residence. The interviewer must clearly write the dates in the boxes provided.

Universe

Members of the household who took overnight trip(s) in South Africa.

Final code list

88888888 = Not Applicable

99999999 = Unspecified

Number of overnights (Q26NRNIGHTS)

(@1126 3)

2.6	How many nights were spent on this trip?
------------	---

Note to users

The question seeks to find out the total number of nights, the member(s) of the household spent on the trip. The answer to the question is derived from the date in Q2.5.1 minus the date of Q2.5.2 for check reference.

Universe

To the members of the household who took overnight trip(s) in South Africa.

Valid range: 1-99

888 = Not applicable

999 = Unspecified

Total on trip (Q27TOTAL)

(@1129 3)

2.7	Including yourself, how many people in total went on this trip? Include those who are not members of your house hold.
------------	--

Note to users

The purpose of the question is to find out the total number of people who were travelling together with the members of the household to the same destination for the same purpose, and are known to the members of the household.

Universe

To members of the household who took overnight trip(s) in South Africa.

Valid range: 1 - 99

888 = Not applicable

999 = Unspecified

Household members (Q28HH)

(@1132 3)

2.8	Of the people mentioned above, how many were members of your household?
------------	--

Note to users

The purpose of the question is to find out from Question 2.7, that out of the group that was travelling with the members of the household, how many were members of the household. The members of the household might have been travelling in a bus or kombi to either a funeral or football match, but the question tries to find only the number of the household members that went along with the group.

Universe

To the members of the household who took overnight trip/trips in South Africa.

Valid range: 1 - 94

888 = Not applicable

999 = Unspecified

Main purpose of trip (Q29MAINP)

(@1135 2)

2.9	What was the main purpose of this trip? <i>Mark ONE response only</i> 01 = Leisure/vacation/holiday 02 = Shopping – business 03 = Shopping - personal 04 = Sporting – spectator 05 = Sporting - participant 06 = Visiting friends and/or family 07 = Funeral 08 = Business or professional trip 09 = Business conference 10 = Study/educational trip 11 = Medical 12 = Wellness (e.g. spa, health farm) 13 = Religious 14 = Education 15 = Other, Specify.....
------------	---

Notes to the user

The question refers to the purpose in the absence of which the trip would not have been made or the given destination would not have been visited. This is the main reason why the trip was undertaken.

Universe

To the members of the household who took overnight trip(s) in South Africa.

Final code list

Main transport (Q211Transp)

(@1207 2)

2.11	<p>What was the main type of transport used to reach the main destination?</p> <p><i>This is the transport used for the longest part of the journey in terms of distance to reach the destination.</i></p> <p>1 = Aircraft 2 = Bus 3 = Car 4 = Motorcycle/scooter 5 = Bicycle 6 = Taxi 7 = Train 8= Other, Specify</p>
-------------	--

Notes to the user

The purpose of the question is to find out the main type of transport that was used to travel to the destination. This should be the transport that covered most or longest part of the journey in kilometres, before reaching the destination. An example would be a situation where the family flies to a destination for a holiday, and then rent a car upon their arrival to travel to the hotel. In this case, the main type of transport would be an Aeroplane.

Universe

Trip bookings (Q214BOOK)

(@1256 1)

2.14	How was the trip booked? Was it through..... 1 = A Tour operator 2 = A Travel gent 3 = Booked independently 4 = No booking necessary 5 = Did not make booking myself, don't know
	<div style="display: flex; justify-content: flex-end; align-items: flex-end;"> <div style="margin-right: 20px;"> —————→ —————→ </div> <div> Go to 2.17 Go to 2.17 </div> </div>

Notes to the user

The aim of the question is to find out which methods the members of the household used to book their trip, if any bookings were necessary for their trip. The traveller(s) might have booked for himself/herself or used agents such as Travel Agents that are intermediaries between themselves and the Tour Operator and also deal with package deals to make the bookings for them. If the answer is option 4 or 5, then the interviewer is instructed to go to Q2.17 as a skip instruction.

Universe

To the members of the household who took overnight trip(s) in South Africa.

Final code list

- 1 = Tour operator
- 2 = Travel agent
- 3 = Booked independently
- 4 = No booking necessary
- 5 = Did not make booking myself, don't know
- 8 = Not applicable
- 9 = Unspecified

Methods of booking (Q215METHD)

(@1257 1)

2.15	What method was used to book? 1 = Personal visit to travel shop 2 = Entirely by telephone 3 = On the internet 4 = Through fax/ post 5 = Don't know
-------------	--

Notes to the user

The question seeks to find out the manner by which the member(s) of the household made their booking for the trip. That is if they went personally to the offices of Tour Operators or Travel Agents to make the bookings or whether they just made telephone calls, fax or through the internet for their travel arrangements.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa and who made bookings for their trip.

Final code list

- 1 = Personal visit to travel shop
- 2 = Entirely by telephone
- 3 = On the internet
- 4 = Through fax/ post
- 5 = Don't know
- 8 = Not applicable
- 9 = Unspecified

Period of booking (Q216DURATN)

(@1258 2)

2.16	How long before the trip was the booking made? 1 = Under two weeks 2 = Two to four weeks 3 = One month 4 = Two months 5 = Three months 6 = Four months 7 = Five months 8 = Six months or more 9 = Don't know
-------------	--

Notes to the user

The aim of the question is to find out the time-frame in weeks and months, the period it has taken before the trip was confirmed i.e. the member(s) was informed that he/she has secured the booking for the trip.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa and who made bookings for their trip.

Final code list

1 = Under two weeks
 2 = Two to four weeks
 3 = One month
 4 = Two months
 5 = Three months
 6 = Four months
 7 = Five months
 8 = Six months or more
 9 = Don't know
 88 = Not applicable
 99 = Unspecified

Package trip (Q2171PACK)

(@1260 1)

2.17.1	<p>Was this last overnight trip a package? (Where two or more expense items, such as transport and accommodation, were included in an all-inclusive price)</p> <p>1 = Yes 2 = No 3 = Don't know</p> <p>→ Go to Q2.18 → Go to Q2.18</p>
---------------	--

Notes to the user

The question wants to establish whether the trip was a package trip which included more than two expense item. This is a follow up question from the skip instruction in Q2.14 for the people who responded that they did not make the booking themselves or did not know how their trip bookings were made. There is a skip instruction to go to Q2.18 if their last trip was not a package trip.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa.

Final code list

1 = Yes
 2 = No

 9 = Unspecified

Cost of package trip (Q2172COST)

(@1261 6)

2.17.2	How much did this package trip cost?	Rands
	Give the total cost of the package for household members who were in the group	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>

Valid range: 80 – 200000

888888 = Not applicable

999999 = Unspecified

Included items in package

2.17.3	<p>Please indicate which of the following items were included in the package</p> <p>1 = Airfare</p> <p>2 = Land transport</p> <p>3 = Accommodation</p> <p>4 = Food and beverages</p> <p>5 = Recreation and entertainment (e.g. payments to a zoo, etc)</p> <p>6 = Travel insurance</p> <p>7 = Shopping</p> <p>8 = Other.....</p>
--------	--

Notes to the user

This is a multiple question which refers to the member(s) of the household. The aim of the question is to attribute the cost of the package amount from Q2.17.2 to the different elements included in the package price. It also acts as a check to individual expenditure items, that they are not recorded twice in Q2.17.2.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa whose last trip was a package trip.

Person number (Q218PERSON)

(@1275 2)

2.18	Please indicate exactly which members of the household went on this trip
-------------	---

Notes to the user

This variable reflects the person numbers of household members who undertook the trip.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa.

Valid Range: 1 – 15

88 = Not applicable

Money spent before the trip

2.19	How much money did you and/or other members of your household spend on the following before the trip? 01 = Food for the trip 04 = Gifts 03 = Travel insurance 04 = Other financial services 05 = Servicing the vehicle 06 = Checking/ servicing alarm systems 07 = Hiring security 08 = Hiring house sitter 09 = Clothing 10 = Toiletries 11 = Luggage 14 = Medical supplies/ inoculations 13 = Electrical appliances e.g. adaptors 14 = Other, Specify Total
-------------	--

Notes to the user

The aim of the question is to try and relate every cost to the relevant item. For example if the people used a car for the trip, then the cost will be allocated to the car expenses, if anyone of them consulted a doctor or bought any medication, then it will be for medical supplies etc. It is also possible that one member of the household might have incurred the majority of spending on behalf of other members by purchasing food and beverages for all, and then the total expenditure for food must be allocated only to that person who paid for the others, not to the beneficiaries. The interviewer must, where possible, allocate every cost necessary to the person who paid for it. When recording the amount, the Interviewer must start with the last digit from the right to the left, bottom upwards.

Universe

To the member(s) of the household who took overnight trip(s) in South Africa.

Money spent whilst on the trip

2.20	How much money did you and/or other members of your household spend on the following on the trip?
	01 = Airfare
	02 = Train
	03 = Land transport (fuel, Kombi, bus/train tickets, car hire, toll fees)
	04 = Car hire
	05 = Accommodation
	06= Food and beverages
	07= Recreation/ entertainment (sports, game parks and amusement parks)
	08 = Cultural services (performing arts/ museums)
	09 = Medical expenses
	10 = Shopping
	11 = Tour guide
	12 = Other, Specify
	Total

Note to users

The aim of the question is to find out the total expenditure on the trip by all members of the household who took the package trip and those who did not take the package trip. The interviewer must ensure that all the expenses are included and even expenses that were paid for by another party on behalf of the members such as the host, employer or the company, not forgetting tips and taxes where applicable.
