NON-CONTRIBUTORY PENSIONS AND POVERTY STUDY: SOUTH AFRICAN SURVEY 2002

My name is _____. I am working for DRA representing several organisations including Rhodes University, the University of Cape Town and the University of Manchester in the UK. We are interviewing household heads or their partners and persons 55 and over in order to gain a better understanding of the issues that are important to households containing older persons. The study is especially concerned with the income and expenditure of these households and the realities faced by persons 55 and over, including access to pensions and grants as well as support required by older people. I will be asking you and members of the household some questions. Your answers are completely confidential. Your assistance in this survey would be appreciated.
