METHODOLOGY

Introduction
The Quarterly Labour Force Survey (QLFS) datasets for the 4 quarters of 2012 have been pooled together to form an annual dataset on which the Labour Market Dynamics in South Africa, 2012 report is based.

The QLFS sample covers the non-institutional population except for workers’ hostels. However, persons living in private dwelling units within institutions are also enumerated. For example, within a school compound, one would enumerate the schoolmaster’s house and teachers’ accommodation because these are private dwellings. Students living in a dormitory on the school compound would, however, be excluded.

Survey requirements and design
The Quarterly Labour Force Survey (QLFS) frame has been developed as a general-purpose household survey frame that can be used by all other household surveys, irrespective of the sample size requirement of the survey. The sample size for the QLFS is roughly 30 000 dwellings per quarter.

The sample is based on information collected during the 2001 Population Census conducted by Stats SA. In preparation for the 2001 Census, the country was divided into 80 787 enumeration areas (EAs). Stats SA’s household-based surveys use a master sample of primary sampling units (PSUs) which comprises EAs that are drawn from across the country.

The sample is designed to be representative at provincial level, as well as within provinces at metro/non-metro level. Within the metros, the sample is further distributed by geography type. The four geography types are: urban formal, urban informal, farms and tribal. This implies, for example, that within a metropolitan area, the sample is representative of the different geography types that may exist within that metro.

The current sample size is 3 080 PSUs. It is divided equally into four subgroups or panels called rotation groups. The rotation groups are designed in such a way that each of these groups has the same distribution pattern as that which is observed in the whole sample. They are numbered from one to four and these numbers also correspond to the quarters of the year in which the sample will be rotated for the particular group.

The sample for the redesigned Labour Force Survey (i.e. the QLFS) is based on a stratified two-stage design; probability proportional to size (PPS) sampling of PSUs in the first stage, and sampling of dwelling units (DUs) with systematic sampling in the second stage.

Sample rotation
Each quarter, a ¼ of the sampled dwellings rotate out of the sample and are replaced by new dwellings from the same PSU or the next PSU on the list. Thus, sampled dwellings will remain in the sample for four consecutive quarters. It should be noted that the sampling unit is the dwelling, and the unit of observation is the household. Therefore, if a household moves out of a dwelling after being in the sample for, say two quarters, and a new household moves in, the new household will be enumerated for the next two quarters. If no household moves into the sampled dwelling, the dwelling will be classified as vacant (unoccupied).

Weighting
The sampling weights for the data collected from the sampled households are constructed in such a manner that the responses could be properly expanded to represent the entire civilian population of South Africa. The weights are the result of calculations involving several factors, including original selection probabilities, adjustment for non-response, and benchmarking to known population estimates from the Demography division of Stats SA.
Non-response adjustment
In general, imputation is used for item non-response (i.e. blanks within the questionnaire) and edits failure (i.e. invalid or inconsistent responses). The eligible households in the sampled dwellings can be divided into two response categories: respondents and non-respondents. Weight adjustment is applied to account for the non-respondent households (e.g. refusal, no contact, etc.).

Final survey weights
The final survey weights are constructed using regression estimation to calibrate to the known population counts at the national level population estimates (which are supplied by the Demography division) cross-classified by 5-year age groups, gender and race, and provincial population estimates by broad age groups. The 5-year age groups are: 0–4, 5–9, 10–14, etc., and 65 years and over. The provincial-level age groups are: 0–14, 15–34, 35–64, and 65 years and over. The calibrated weights are constructed in such a way that all persons in a household would have the same final weight.

Estimation
The final survey weights are used to obtain the estimates for various domains of interest, e.g. number of persons employed in agriculture in Western Cape, number of females employed in manufacturing, etc.

CONTENTS OF CD

The CD contains a flat, ASCII, fixed-field file, with one line of given length per record. This format was chosen to make the data usable with as many statistical programs as possible, and thus accessible to as wide a range of people as possible.

Users can also access, explore and download the micro data in various formats, i.e. SAS, SPSS, Stata, etc., as well as the metadata from StatsOnline at www.statssa.gov.za. Click on 'Interactive data' then 'Explore micro data'.

Other important information can be found in the:

- Questionnaire
- Additional code lists (occupation and industry)
- Relevant statistical release/report
- Record layouts
- Stats SA website: www.statssa.gov.za

The data file

The data file contains information on sections 1, 2, 3, 4 and 5.

Each section contains the following information for each variable:

**Description of variables**

- **Descriptive name**: This is a short description of the variable with the variable name in brackets.

- **Position of the variable**: The position of a variable within a record is recorded in the format (@xxx y.). '@xxx' indicates that the variable starts at position (i.e. column) xxx, and 'y' indicates the length of the field.

- **Final code list**: The range of valid values for variables. For continuous variables it only reflects the upper and lower limits.

- **Not applicable**: The code for 'missing' values is given for each variable (□ = Not applicable).

- **Note to users**: Additional information for further clarity on questions.
Note to users:

Please note that the following variables are not in the previous datasets, it is the first time they are included in the 2012 dataset:

- Field of study (Q18FIELD)
- School attendance (Q19ATTE)
- Education institution (Q110EDUI)
- Reason not available for work (Q311bWHNSTART)
- Paid vacation leave (Q47cLEAVE)
- Entitlement to paid sick leave (Q47cSICK)
- Entitlement to maternity/parental leave (Q47cMATERNITY)
- Trade union membership (Q412BMEMUNION)
- Annual salary increase determination (Q412CSALINCREMENT)
- Not in employment, education or training (NEET) - derived variable

End of questions for this person

---

Labour market dynamics in South Africa, 2012
This question was asked for each person found in the selected dwelling. Those who were not household members (those who had not spent at least four nights per week during the last four weeks) were excluded from the data (2 = No). The instruction in this question was to end the interview for those who had answered 'No' to this question. It is by means of this question that household members are identified within the selected dwelling.

**Universe**

Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

**Final code list**

1 = Yes

**Question 1.3**

*Gender (Q13GENDER)*

1.3 Is...... a male or a female?

1 = MALE
2 = FEMALE

**Note to users**

This question was asked for all household members, to determine their gender. Enumerators were instructed not to assume the gender of household members by just looking at people’s names or physical appearances. In this instance, they had to ask the respondent the gender of each member of the household without any assumptions.

**Universe**

Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

**Final code list**

1 = Male
2 = Female

**Question 1.4**

*Age (Q14AGE)*

1.4 What is......’s date of birth and age in completed years?

<table>

</tr>
<tr>

<td>1 9 8 3</td>
</tr>
</tbody>
</table>

Age (less than 1 year = 000)

**Derived variable**
This is a derived variable indicating the age of the household member. Age of the household member was derived from question 1.4 of the questionnare.

This question was asked for each member of the household. The instruction was to write the age in completed years to the nearest whole numbers and not in words. Thus, if a person was two years and six months, the instruction was to write the two completed years. For children aged less than a year, the instruction was to write 000.

**Universe**

Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

**Final code list**

Valid range: 0–111

</tr>
<tr>
<td>4 = WHITE</td>
<td>4</td>
</tr>
<tr>
<td>5 = OTHER, specify, in the box at the bottom</td>
<td>5</td>
</tr>
</tbody>
</table>

**Note to users**

This question was asked to determine the population group of persons from the selected dwelling units. The respondent had to answer for each member and the enumerator was not to make any assumptions. The enumerator was also instructed not to come to any conclusions, which may be influenced by his observation or using people’s names during the interview. This question may seem very sensitive to some respondents especially in this post apartheid era, but it is important to find out the composition of the South African population.

**Universe**

Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

**Final code list**

1 = Black African
2 = Coloured
3 = Indian/Asian
4 = White

**Question 1.6**
Marital status (Q16MARITALSTATUS)

</tr>
</tbody>
</table>

Note to users
This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question.

Universe
Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

Final code list
1 = Married
2 = Living together like husband and wife
3 = Widow/Widower
4 = Divorced or separated
5 = Never married

Question 1.7

Highest education level (Q17EDUCATION)
Note to users
Enumerators were instructed that it was only those qualifications already obtained which had to be entered. That means the current level of study with which a person was still busy, was not applicable. It was very important to complete each record even if the person had not attended school. Enumerators were instructed to record diplomas and certificates that were of at least six months' duration. If the answer to Q1.7 is code 98 or 00-12 or 29-30, the instruction is to go to Q1.9. If code 13-28 is selected, the instruction is to go to Q1.8.

Universe
Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.

*Currently attending educational institution (Q19ATTE)*

(@33 1)
1.9  Does ... currently attend any educational institution?

1 = YES
2 = NO  → Go to Section 2

Note to users

The question focuses on attendance of educational institutions. 'Educational institution' can include school, university of technology, university, home school, pre-school, crèche, day care, distance/correspondence education, etc. If the respondent is attending an educational institution, the survey officer has to proceed to Q1.10. If the individual is not attending an educational institution, there is a skip, go to Section 2.

Universe

Every person who has stayed in the households in selected dwelling units at least four nights per week in the four weeks prior the interview.

Final code list

1 = Yes
2 = No
□□ = Not applicable

Education Institution (Q110EDUI)  (@34  2)

Note to users

Distance, correspondence and home schooling are included in this question. Survey officers are instructed not to make assumptions by associating people's ages with the level of education, but rather consider what the respondent gives.

Universe

Every person who has stayed in the households in selected dwelling units at least four nights per week in the four weeks prior the interview who are currently attending an educational institution.
Final code list
01 = Pre-school (including day care, crèche, Grade R and Pre-Grade R in an ECD Centre)

### Note to users

This question is applicable to all household members aged 15 years and older, regarding their involvement in economic activities in the seven days prior to the interview. This is part of the questionnaire where there would be a differentiation between the economically active population and those who are not economically active. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them. Most importantly, if there was a 'Yes' to any part of this question, there should be a skip to Section 4. If all the categories were 'No', there should be a continuation to the next question.

*Paid work (Q24APDWRK) (@37 1.)*

(a) Do any work for a wage, salary, commission or any payment in kind (excluding domestic work)?

Question 2.5

2.5  In the last week, even though you did not do any work for pay, profit or did not help without pay in a household business, ....

(a) Did you have a paid job that you would definitely return to?
   → If yes, go to Q 2.7, otherwise continue

Examples: a regular job, contract, casual or piece work for pay, work in exchange for food or housing, paid domestic work.

(b) Did you have a business that you would definitely return to?
   → If yes, go to Q 2.7, otherwise continue

Examples: Commercial farming, selling things, making things for sale, construction, repairing things, guarding cars, brewing beer, collecting wood or water for sale, hairdressing, creche businesses, taxi or other transport business, having a legal or medical practice, performing in public, having a public phone shop, etc.

(c) Did you have an unpaid job in any kind of business run by your household that you would definitely return to?
   → Go to Q 3.1

Examples: Commercial farming, help to sell things, make things for sale or exchange, doing the accounts, cleaning up for the business, etc.

Note to users
This was only applicable to household members who had answered ‘No’ to all the categories in Question 2.4. The main intention of this question was to find the reason why people did not work in the last week prior to the interview. If ‘Yes’ to either part a or b, the enumerator should skip to Question 2.7.

<tbody>
<tr>
<td></td>
<td>Examples: Selling fruit, repairing watches, keeping accounts feeding and watering cattle, teaching children.</td>
</tr>
</tbody>
</table>

**Note to users**

This question was applicable to household members who had worked before, but were currently unemployed. It is important that the main tasks should be in English as the occupational codes are in that language only. The instruction to the enumerator was to ask the respondent the main tasks or duties done in his/her last job given in Question 3.15.a. Questions 3.15.a and 3.15.b were write-in questions. The responses were used to determine the person's last occupation. The occupation was coded to four digits on the basis of the South African Standard Classification of Occupations (SASCO) (see occupation code list).

Question 3.16

Previous industry (Q316PREVINDUSTRY) (@77 3.)

3.16.a What was the name of your place of work?

For government or large organisations, give the name of the establishment and branch or division:
E.g. Education Dept - Rapipl Primary School; Harmony Gold Mining - Maintenance Div.
Write “Own house” or “No fixed location”, if relevant.

3.16.b What were the main goods or services produced at your place of work or its main functions?

Examples: Repairing cars, Selling commercial real estate, Sell food wholesale to restaurants, Retail clothing shop, Manufacture electrical appliances, Bar/restaurant, Primary Education, Delivering newspapers to homes. For domestic workers write “private household”

Note to users

This question was applicable to household members who had been employed previously, but were currently unemployed or economically inactive. It is important that the service or main goods produced at the respondent's previous work are in English as the industry codes are in this language only. Although a person may have had certain roles and responsibilities within the company she/he was working for, the enumerator was instructed to record the main goods or services produced by the company. Questions 3.16.a and 3.16.b were write-in questions. The responses were used to determine the type of industry. The industry was coded to three digits on the basis of the Standard Industrial Classification of all Economic Activities (SIC) (see industry code list).

SECTION 4
This section covers main work activity in the last week for persons aged 15 years and older.

Question 4.1

More than one job (Q41MULTIPLEJOBS)

<table>
<thead>
<tr>
<th>4.1</th>
<th>In the last week did you have more than one job/business?</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>YES</td>
</tr>
<tr>
<td>2</td>
<td>No</td>
</tr>
<tr>
<td>3</td>
<td>DON'T KNOW</td>
</tr>
</tbody>
</table>

Note to users
The question seeks to find out if people had taken an initiative to look for or prepare for any extra work. If ‘Yes’, then the enumerator had to read this out: The questions that follow refer to your main job/business. That is the one where you usually work the most hours per week, even if you were absent from it in the last week.

Universe
All members of the households in selected dwelling units aged 15 years and older, who were economically active in the last seven days prior to the interview.

Final code list
1 = Yes
2 = No
□ = Not applicable
### Question 4.2

**Occupation (Q42OCCUPATION)**

<table>
<thead>
<tr>
<th>4.2.a</th>
<th>What kind of work do you usually do in the main job/business that you had during the last week?</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Work includes all the activities mentioned earlier</td>
</tr>
<tr>
<td></td>
<td>Record at least two words: Car sales person, Office cleaner, Vegetable farmer, Primary school teacher, etc</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>4.2.b</th>
<th>What are your main tasks or duties in this work?</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Examples: Selling fruit, repairing watches, keeping accounts, feeding and watering cattle, teaching children</td>
</tr>
</tbody>
</table>

**Note to users**

This question is applicable to household members who had been performing certain economic activities in the seven days prior to the interview. It is important that the main tasks should be in English as the occupational codes are in that language only. The instruction to the enumerator was to ask the respondent the main tasks or duties done or usually done in his/her job given in Question 4.2.a.

Questions 4.2.a and 4.2.b were write-in questions. The responses from both questions were used to determine the occupation code. The occupation was coded to four digits on the basis of the South African Standard Classification of Occupations (SASCO) (see occupational code list).

**Final code list**

Valid range: 1110–9333

- = Not applicable

**Universe**

All members of the households in selected dwelling units aged 15 years and older, who were economically active and were working for someone for pay in the seven days prior to the interview.
Question 4.3

Industry (Q3INDUSTRY)

4.3.a What is the name of your place of work?

For government or large organisations, give the name of the establishment and branch or division:
e.g. Education Dept - Raphela Primary School; Harmony Gold Mining - Maintenance Div.
Write “Own house” or “No fixed location”, if relevant.

4.3.b What are the main goods or services produced at your place of work or its main functions?

Examples: Repairing cars, Selling commercial real estate,
Sell food wholesale to restaurants, Retail clothing shop,
Manufacture electrical appliances, Bar/restaurant, Primary Education, Delivering newspapers to homes. For domestic workers write “private household”

Note to users

This question is applicable to household members who had been performing certain economic activities in the seven days prior to the interview. It is important that the service or main goods are in English as the industry codes are in this language only. Although a person may have had certain roles and responsibilities within the company she/he was working with, the enumerator was instructed to record the main goods or services produced by the company.

Questions 4.3.a and 4.3.b were write-in questions. The responses to these two questions were used to determine the type of industry. The industry was coded to three digits on the basis of the Industrial Classification of all Economic Activities (SIC) (see industry code list).

Universe

All members of the households in selected dwelling units aged 15 years and older, who were economically active in the seven days prior to the interview.

Final code list

Valid range: 010–990
999=Unspecified
□□□ = Not applicable
Question 4.4

Year commenced working

4.4. When did you start working for this employer or started running this business? Give year and month.

State year in four figures, e.g. 2001

State month in two figures, e.g. 08 for August

Note to users

This question was asked to establish when people started working for the main employer for whom they were working with the aim of checking whether people were staying in one job for a long time or changing jobs often (job stability).

Universe

All members of the households in selected dwelling units aged 15 years and older, who were economically active and were working for someone for pay in the seven days prior to the interview.

<td></td>
</tr>
</tbody>
</table>

**Note to users**

This question establishes whether people were employers, wage earners, self-employed, etc. in the main economic activities they were involved in. Only one category had to be chosen. If option '1' was chosen, the instruction was to go to Question 4.6; otherwise skip to Question 4.13.

**Universe**

All members of the households in selected dwelling units aged 15 years and older, who were economically active in the seven days prior to the interview and who worked for someone else for pay or employed one or more employees, or did not employ any employees, or helped without pay in a household business.

**Final code list**

1 = Working for someone else for pay
2 = An employer (employing one or more employees)
3 = Own account worker (not employing any employees)
4 = Helping without pay in a household business

Note to users

This question was applicable to all household members aged 15 years and older, regarding their involvement in economic activities in the last seven days prior to the interview. This is part of the questionnaire where there would be a differentiation between the economically active population and those who are not economically active. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the seven days. In order to be certain that the categories had been answered, there should either be a ‘Yes’ or ‘No’ answer to all of them. If ‘Yes’ to any of these questions, the number of hours spent on the activity had to be indicated as well.

**Underemployment (underempl)**

Derived variable:

If total hours usually worked is less than 35 and want to work more hours and is available to start work within the next four weeks.

Derived from a logical series of questions:

- Hours usually work (Question 4.18)
- Total hours usually work (Question 4.20)
- Like to work more hours (Question 4.22)
- Able to start extra work (Question 4.25)

**Final code list:**

- 1 = Underemployed
- 2 = Not underemployed
- □ = Not applicable

**Sector (Sector1)**

Derived variable:

Derived from a logical series of questions:

- Work for whom (Question 4.5)
- Income tax deducted (Question 4.10)
- Business registered for VAT (Question 4.13)
- Business registered for income tax (Question 4.14)
- Number of employees (Question 4.16)

Agriculture is excluded from the formal and informal sector in this variable.

**Final code list:**

- 1 = Formal sector (non-agricultural)
- 2 = Informal sector (non-agricultural)
- 3 = Agriculture
- 4 = Private households
- □ = Not applicable

**Sector (Sector2)**

Derived variable:

Derived from a logical series of questions:

- Work for whom (Question 4.5)
- Income tax deducted (Question 4.10)
- Business registered for VAT (Question 4.13)
- Business registered for income tax (Question 4.14)
- Number of employees (Question 4.16)

**Final code list:**

- 1 = Formal sector (Including agriculture)
- 2 = Informal sector (Including agriculture)
- 4 = Private households
- □ = Not applicable
**Age group (Age_grp1)**

**Derived variable:**

**Derived from Question 1.4:** What is ...'s date of birth and age in completed years?

**Final code list:**

- 01 = Age 00–04
- 02 = Age 05–09
- 03 = Age 10–14
- 04 = Age 15–19
- 05 = Age 20–24
- 06 = Age 25–29
- 07 = Age 30–34
- 08 = Age 35–39
- 09 = Age 40–44
- 10 = Age 45–49
- 11 = Age 50–54
- 12 = Age 55–59
- 13 = Age 60–64
- 14 = Age 65+

**Inactivity reason (InactReason)**

**Derived variable: Derived from a logical series of questions:**

- Reason for not working (Question 3.5)
- Reason why not look for work or start business (Question 3.8)
- Reason not available for work (Question 3.11)

**Final code list:**

- 1 = Scholar/student

**Geography Type (Geo_Type)**  

Classification according to the settlement characteristics

**Final Code List:**

- 1 = Urban formal
- 2 = Urban informal
- 4 = Tribal areas
- 5 = Rural formal

**Hours worked (Hrswrk)**  

**Derived variable:**

This variable includes total hours worked by persons aged 15 years and older.

**Derived from a logical series of questions:**

Hours usually worked in case of a single job  (Question 4.18)
Total hours worked in the case of multiple jobs(Question 4.20)

**Valid range:**

- 001 – 112
- □□□□ = Not applicable

**Employment Status Expanded (Status_Exp)**  

**Derived variable: Derived from a logical series of questions:**

Paid work  (Question 2.4a)
Own business (Question 2.4b)
Unpaid work (Question 2.4c)
Paid work (Question 2.5a)
Own business (Question 2.5b)
Reason absent (Question 2.7)
