Dear User

Statistics South Africa (Stats SA) has produced the Labour Force Survey (LFS) Panel dataset which can be used for longitudinal studies of the labour market. The LFS Panel commenced with the fourth LFS (LFS4) and is based on the Master Sample that used the 1996 Population Census enumerator areas as a frame.

Stats SA is making a product on the LFS Panel dataset (Beta version) available to researchers and other interested parties to improve on the product. The product will be made available on request to interested parties from 17 January 2007. The feedback we will receive from users will assist Stats SA to produce a more reliable product and recall the beta version by end of March 2007.

Users interested in acquiring the product may contact Stats SA as follows:

Tel: +27 (12) 310-8600

Fax: +27 (12) 310-8500/ 321 7381

Email: info@statssa.gov.za

We look forward to hearing from you and your feedback on this product.

Regards

Donald Masasanya

Acting Executive Manager: Statistical Information Services
