KENYA ADMINISTRATIVE UNITS

Foreword

Kenya's Statistical Abstract is the single source of data covering a series of years. The Abstract enables you to get complete time series of data of the Kenyan Economy from one **SINGLE** official source. The current Abstract therefore contains a comprehensive set of information that is useful for any form of analytical work.

Vision

The Vision of the Bureau is "to become a centre of excellence in statistical production and management for national development".

Mission

The mission of the Bureau is "to coordinate and supervise the National Statistical System; produce and disseminate comprehensive, integrated, accurate and timely statistics required mainly to inform national development initiatives and processes; and develop and maintain a socio-economic national database".

The Organization

The Central Bureau of Statistics comprises of six interrelated technical divisions and one unit; namely

Industrial and Labour Statistics
Agriculture and Nutrition Statistics
Population and Other Social Statistics
Data Processing, Research and Publications
Macroeconomic and National Income Accounts Statistics
National Sample Survey and Evaluation Programme and Field Administration and,
Poverty and Research Unit (PARU)

Teamwork

Together with users and producers of data, and development partners we are committed to face challenges and opportunities of the 21st Century.

Director
Central Bureau of Statistics

TABLE OF CONTENTS

	Table No	Page No
CONSTITUTION		1
Parliament		
Members of the National Assembly, (As at 18th August 2006)	1	3
LAND AND CLIMATE		
Area by province and district, (As at 31st December, 2001)	2	4
Lakes, Mountains and National Parks, (As at 31st December, 2001)	3	4
Registration of land, 1980-1990	4	5
District sizes by land categories, December 1995	5	6-7
POPULATION AND VITAL STATISTICS		
Population		
Population Census, 1999:		
Population, area and density by provinces and districts	6	8-9
Population by sex, and single years of age	7	10
Population by 5 year and above by sex, age-group and highest level of education	8	11
Population size by province and district, (1979 - 1999)	9	12-13
Population of municipalities town councils and other urban centres	10(a)	14-19
Vital Statistics		
Births and Deaths by province, 1994-2005	10(b)	20
MIGRATION AND TOURISM		
Reported arrivals by type of immigrant, 1997 – 2005	11	24
Reported departures by type of emigrant, 1997 – 2005	12	24
Reported arrivals and departures by method of travel, 1997 – 2005	13	24
Reported arrivals and departures by continent of residence and by method of travel, 2002 – 2005	14	25
Total reported arrivals and departures, 2000-2005	15	26
Total length of stay of departing visitors by country of residence , 2001 – 2005	16(a)	27
Average length of stay of departing visitors by country of residence , 2001 – 2005	16(b)	28
Visitor departures by country of residence, 2002-2005	17	29
Hotel rooms and beds available and occupied, 1996-2005	18	30
Hotel beds occupied by EA residents and foreign residents, 1999-2005	19	31-32
Hotel rooms and beds available and occupied by area, 2004- 2005	20(a-b)	33-34

	Table No	Page No
MIGRATION AND TOURISM		
Hotel guest-nights by country of residence 2002 – 2005	21(a-d)	35 – 36
Hotel bed occupancy, 1997 – 2005	22	37
Visitors to National Parks and game reserves, 1996 – 2005	23	38
Total number of visitors to National Parks, 2004-2005	24	39
Visitors to museums, snake parks and sites,1998-2005	25	40
Game lodge occupancy, 2003-2005	26	40
NATIONAL ACCOUNTS		
Annual Production Accounts by Industry 2001-2005	27	45 – 47
Gross Domestic Product by Activity ,2001-2005 (Current prices)	28(a)	48
Gross Domestic Product by Sector ,2001-2005 (Current prices)	28(b)	49
Gross Domestic Product by Activity ,2001-2005 (Per cent contributions to GDP)	29	50
Gross Domestic Product by Activity ,2001-2005 (Constant 2001 prices)	30(a)	51
Gross Domestic Product by Sector ,2001-2005 (Constant 2001 prices)	30(b)	52
Gross Domestic Product and Gross National Income, 2001-2005	31	53
Expenditure on the Gross Domestic Product(Current prices), 2001-2005	32(a)	54
Expenditure on the Gross Domestic Product(Percentage shares), 2001-2005	32(b)	54
Expenditure on the Gross Domestic Product(Constant 2001 prices)	32(c)	55
Gross Fixed Capital Formation(Current prices), 2001-2005	33(a)	56
Gross Fixed Capital Formation(Percentage shares), 2001-2005	33(b)	56
Gross Fixed Capital Formation(Constant prices), 2001-2005	34(a)	57
Gross Fixed Capital Formation(Percentage shares), 2001-2005	34(b)	57
Private Consumption current prices, 2001-2005	35(a)	58
Private Consumption current prices(Percentage shares), 2001-2005	35(b)	58
National Disposable Income and Saving ,2001-2005	36	59
EXTERNAL TRADE		
Kenya Balance of Payments Overall Estimates, 2002 -2005	37	62
Balance of Payments Total Net Credits, 1996 - 2005	38	63
Volume and Balance of trade,1996-2005	39(a)	64
Common Market for Eastern and Southern Africa, 1996-2005	39(b)	64
Trade Balance of Total Trade by Geographical Area and Country, 2003-2005	40	65-67
Exports		
Domestic Exports:		
Value of principal commodities, 1998-2005	41(a)	68-69
Quantity of principal commodities, 1998-2005	41(b)	70
Percentage of total value of principal commodities, 1996-2005	41(c)	71
Value of principal commodities by destination, 2005	42	72
Value by country of destination, 1998-2005	43	73-75
Principal Commodities to COMESA 2005	44	76
Domestic Exports by Broad Economic Category, 1998-2005	45	77
Section Values by Destination 1999 -2005	46	78-80
Imports		
Value of principal articles, 2000-2005	47(a)	81 – 86
Quantity of principal articles, 2000-2005	47(b)	87 – 90
Value by country of origin, 1998-2005	48	91 – 93
Section Values by Principal Country of Origin, 2000 - 2005	49	94 – 95
Amount Collected by Division,1994- 2005	50	96
Principal commodities from the Common Market for Eastern and Southern Africa, (COMESA), 2005	51	97
Total imports: by Broad Economic Category,1998-2005	52	98

	Table No	Page No
Price Indices, 1997 -2005	53	99
Quantum indices, 1998-2005	54	100
Domestic export prices, 2001-2005	55	101
Unit prices of selected imports cif, 2000-2005	56	102
SIZE DISTRIBUTION OF ESTABLISHMENTS		
Number of Establishments by Industry by Employment Group, 2005	57(a)	104 -107
Number of Employees by Industry and Employment Group, 2005	57(b)	103 -111
Businesses opening and closing, 1998-2005	58	112
AGRICULTURE		
Categories of agricultural land	59	114
Agriculture and Livestock: Gross Marketed Production at current prices, 1999 – 2005	60(a)	115
Agriculture and Livestock: Gross Marketed Production at constant (2001) prices,1999 - 2005	60(b)	116
Gross Marketed Production from large and small farms, 2000-2005	60(c)	117
Agricultural Value Added, 2000-2005	60(d)	117
Principal Crops: production for sale, 1998-2005	61	118
Principal Crops: average price to producer, 1998-2005	62	118
Livestock: Purchases for slaughter by all licensed Abattoirs, 1998-2005	63	118
Dairy production, 1995-2005	64	119
Livestock and Dairy produce: 'Price to producers for Meat and Wholemilk,1993 - 2005	65	120
Agricultural inputs, 1998-2005	66	121
Chemical, medicinal and feed inputs, 1998-2005	67	121
Irrigation schemes 1998/99 - 2004/2005	68	122
Membership of Co-operatives Societies, 1999-2005	69	123
Number of Societies and Unions by Type, 1999-2005	70	123
Income of societies and Unions by Type, 1998-2005	71(a)	124
Total Share Capital , 1998-2005	71(b)	125
FORESTRY AND FISHING		
Forest Land Classification , Land Area 1999 - 2005	72	127
Forest land plantation area, 1999-2005	73	128
Recorded Sale of Forest Products, 1999-2005	74	128
Quantity and value of fish landed, 2000-2005	75	129
INDUSTRIAL PRODUCTION		
Manufacturing		
Quantity index of manufacturing production, (1976=100), 2001-2005	76	131
Large Scale Firms and Establishments- Manufacturing Sector 2001-2005	77	132
All firms and establishments,2001-2005, large scale and manufacturing sector	78(a-c)	133- 135
Large scale firms and establishments Manufacturing sector 2001-2005	78d	136
Production and Consumption of excisable commodities, 1997-2005	79(a-b)	137
Production of important foodstuffs, 1999-2005	80	138
Production of certain industrial commodities, 1999-2005	81	138

	Table No	Page No
Building and Construction		
Survey of industrial production-Building and Construction, 2001-2005	82(a-e)	139
Reported completion of buildings for private ownership in main towns by type of buildings and town, 1999-2005	83	140
Number of units and value of buildings completed in main towns by cost category, 2004	84(a)	141
Number of units and value of buildings completed in main towns by cost category, 2005	84(b)	141
Reported completion of buildings for private ownership by town, 2004	85(a)	142
Reported completion of buildings for private ownership by town, 2005	85(b)	142
Analysis of reported new residential buildings, Nairobi, 2000-2005	86	143
Reported completion of new non-residential buildings for private ownership: Analysis of cost by town and sector of ownership, 2000-2005	87	144-145
National Housing Corporation:		
Number and value of houses completed by province, 2001-2005	88(a)	146
Number of houses completed by cost bracket, 1997-2005	88(b)	146
Number of houses completed in Nairobi by cost bracket, 1997-2005	88(c)	146
Private building plans approved by Nairobi City Council 1997-2005	89	147
Public buildings plans approved by Nairobi City Council, 1997-2005	90	147
Cement production and consumption, 1999-2005	91	148
Ministry of Roads and Public Works: expenditure on roads, 1998/99-2004/2005	92	148
Residential buildings - Cost Index, 2002-2005	93(a)	149
Non-residential buildings - Cost Index, 2002-2005	93(b)	150
Buildings - Cost Index, 2002-2005	93(c)	151
Civil engineering - Cost Index, 2002-2005	93(d)	152
Overall construction - Cost Index, 2002-2005	93(e)	153-154
Mining		
Survey of industrial production-mining and quarrying*, 2001 – 2005		
Large scale firms and establishment		
All firms including those with fifty or more employees, 2001 – 2005	95(a-c)	155
Mineral production: quantity, 1999 - 2005	95(d-e)	156
Mineral production: value of sales, 1999 – 2005	96(a)	157
Quantity index of mining and quarrying production, 1999 – 2005	96(b)	158
FUEL AND POWER	97	158
Electricity		
Installed capacity by area and type of power, 1997-2005	98	159
Generation by type of Power and imports, 1997-2005	99	159
Sales by area, 1997-2005	100	159
Sales by type of user 1997-2005 and by type of user and area, 2004/05	101	160
Fuel		
Fuel sales, 1997-2005	102	161
Lubricant sales, 1996-2005	103	162
Oil refinery: Throughput and output of finished petroleum products, 1996-2005	104	162
FINANCIAL STATISTICS		
Currency and Banking		
Currency in circulation, Central Bank 2000-2005	105	165

INTRODUCTION

This Abstract has been prepared by the Central Bureau of Statistics of the Ministry of Planning and National Development. The tables have been compiled partly from statistics collected directly by the Bureau through Surveys and Censuses and partly from statistics compiled by other Government Departments and other organizations. The source of the statistics is shown under each table.

The Central Bureau of Statistics is also responsible for the preparation of the Economic Survey and Leading Economic Indicators in which emphasis is placed on current statistics for which monthly and quarterly series are available. In addition, reports are published on the various regular and ad hoc statistical surveys undertaken by the Bureau.

Whereas these publications aim at providing statistical coverage of the important fields of economic, financial and social activity in Kenya, the published material may not meet detailed requirements of all users. Additional information, whenever available, will be supplied by the Bureau on request, although in certain circumstances, depending on the amount of work involved in extracting the required particulars, it may be necessary to make a **charge.** All enquiries relating to statistical matters should be addressed to:-

SYMBOLS AND CONVENTIONS USED

The following symbols have been used throughout the Abstract

" " Means nil or negligible (less than half the final digit shown).

".." Means figures not available.

"|" between consecutive figures means they have been compiled on a different basis and are not strictly comparable. The nature of the difference is usually indicated in a footnote.

Rounding of Figures: - In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO. 18 OF 1997 AND
THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO. 3 OF 1999.

Parliament consists of President and the National Assembly:-

(a) The President:

Is The Head of State and Commander-in-Chief of the Armed Forces of the Republic to be elected in accordance with the provisions of the Constitution. (Act. No. 28 of 1964, however, provided for the first President to be the person who immediately before the 12th December, 1964, held the Office of the Prime Minister under the Constitution). The Constitution of Kenya (Amendment) Act No. 6 of 1992 provided that the candidate for President who is elected as a Member of the National Assembly and who receives a greater number of valid votes cast in the Presidential election than any other candidate for President and who, in addition receives a minimum of twenty-five percent of the valid votes cast in at

least five of the eight provinces shall be declared to be elected as President.

(b) The National Assembly

The Constitution of Kenya (Amendment) No. 4 Act 40 of 1966 provided for the establishment of a National Assembly comprising one House, thus the Senate and House of Representatives were amalgamated to form one Chamber (Unicameral System) and the Constitution of Kenya (Amendment) (No.2) Act No. 45 of 1968 provided for an election of the President and the Nominated Members.

Ex-officio - The Speaker and the Attorney-General.. 2

Elected Members.. 210

Nominated Members.. 12

The Vice-President

Is appointed by the President from among the Ministers who are Elected Members of the National Assembly.

The Cabinet

Consists of the President, the Vice-President and other Ministers

Ministers.. 29

Are appointed by the President from among the Members of the National Assembly.

Assistant Ministers.. 36

Are appointed by the President from among the Members of the National Assembly.

Nominated Members.. 12

Are appointed by the President from among persons who, if duly nominated would be qualified to be elected as Members of the National Assembly.

Ex-officio Members.. 2

Are not entitled to vote (except that the Speaker has a casting vote)

MEMBERS OF THE NATIONAL ASSEMBLY
(As at 18th August, 2006)

NOTES AND DEFINITIONS

Migration statistics

Migration statistics are collected under the Immigration Act 1967. Under this Act immigration controls on movements to/from Uganda and Tanzania were imposed, making it possible to collect statistics of movements to/from Uganda and Tanzania and integrate them with statistics of movements to/from outside East Africa.

Although the coverage of the statistics is fairly complete, they understate total movements because of the fact that not all border crossings have immigration posts. From 1971, the following definitions have been in use.

Visitors

Visitors entering or leaving Kenya hold either:-

a) an in-transit pass; or
b) a visitor's pass; or
c) a special pass.

They are classified as holiday, business or in-transit visitors according to the purpose of visit they state on their immigration forms. In-transit passes are issued to persons passing through Kenya and are valid for a period of up to one week. These passes are not required by persons in direct transit, crews of aircraft or ships, or day visitors from cruise ships. Such persons are not recorded in the migration statistics. Visitors' passes are valid up to six months initially and can be extended to a total of twelve months to allow a visitor to pursue temporarily his business or profession; they also cover holiday visits. Special passes are valid up to three months.

Length of Stay

This is shown in days as the elapsed time between the arrival and departure date stamps on visitor's departure forms. Information on average length of visit tends to understate the actual period stayed per visitor to Kenya (because of the incidence of multiple visits by individuals). Totals of days stayed are not affected by this problem.

HOTEL OCCUPANCY STATISTICS

The coverage of the statistics has been improved since their collection was initiated and it is now possible to give figures by a more detailed classification and country of residence of guest. Children under twelve years old not occupying a separate adult bed are not included in the occupancy figures. The definitions used for hotels classification are as follows:

Major Zone	Sub-Zone	Definition
1. NAIROBI	(a) High Class	
	(b) Other	
2. BEACH		Coastal strip up to 1km inland:-
	(a) South	South of Likoni ferry.
	(b) North Mombasa	Nyali Bridge to Mtwapa Bridge.
	(c) Kilifi/Watamu	Mtwapa Bridge to Malindi Point.
	(d) Malindi/Lamu	Malindi Point to Kiunga, including islands.
3. MOMBASA		The Island.
4. COAST HINTERLAND	(a) East	Coast Province (minus Coastal strip and east of Mombasa - Tsavo Road) and Kitui District.
	(b) West	Taita-Taveta District (West of Mombasa – Tsavo Road) and Kwale District (minus Coastal strip and west of Mombasa Tsavo Road).
5. MASAILAND	(a) East	Kajiado District and Machakos District (South of Kitui Road)
	(b) West	Narok District.
6. NYANZA BASIN		Nyanza Province and Kericho District.
7. WESTERN		Western Province, Nandi Uasin Gishu, Trans-Nzoia, West Pokot, Elgeyo Marakwet and Baringo Districts.

8. CENTRAL	(a) Nakuru	Nakuru Town and Lake.
	(b) Naivasha	Naivasha Town and Lake.
	(c) Mount Kenya	Embu, Kirinyaga and Laikipia Districts and Meru District (West of the outer Meru -Embu Road).
	(d) Aberdares	Nyeri District (West of Karatina-Naro Moru Road) Nyandarua and Muranga Districts.
	(e) Periphery	Samburu District (south of 1 30'N) and Isiolo District (West of Chanler's Falls).
9. NORTH		North Eastern Province, Marsabit District, Turkana District, Isiolo District (East of Chanler's Falls) and Samburu District (North of 1 30'N).

Notes on Compilation of National Accounts

The national accounts have been revised for the period 1996 to 2005. The revision is in line with the new international guidelines as prescribed by the United Nations' System of National Accounts agreed in 1993 (the 1993 SNA). The base year for the estimates at constant prices has been changed from 1982 to 2001, while availability of new data sources has made it possible for improvement of quality of the accounts by applying enhanced methods and thorough review of the existing data.

The overall structure of national accounts statistics, in terms of concepts and definitions, closely follows the 1993 SNA guidelines with a few exceptions. In addition, it has not been possible to implement all the recommendations of the 1993 SNA mainly due to lack of data. The revised series introduces the concepts and definitions of the 1993 SNA to the extent possible. Work is on-going with a view to implementing the remaining stages of the system while at the same time improving on what has already been done.

Scope

The scope of the national accounts does not meet all the requirements as defined by ISWGNA[1] for implementation of 1993 SNA. The following is part of what is compiled on regular basis (annually)

- value added by activity (current and constant prices)
- expenditures on GDP (current and constant prices)
- value added components by activity (current and constant prices)
- production and generation of income accounts (for total economy and also by activity)

At the moment the following 1993 SNA recommendations are not included

- research and development on own account
- production of entertainment, literary, and artistic originals
- production of computer software
- illegal output; trade in illicit drugs, prostitution, illegal weapon trafficking etc.

Classification

Classification of transactions as recorded in the accounts broadly follows the 1993 SNA. Classification of economic activities and products is done according to ISIC rev. 3[2] but there are a few deviations while COICOP[3] is used for classifying household final consumption.

[1] *Intersecretariat Working Group on National Accounts*

[2] *International Standard of Industrial Classification Revision 3 of all economic activities*

[3] *Classification of Individual Consumption by Purpose*

Valuation

Transaction	Valuation
Flows and stock	Market prices
Market output	Basic prices
Output for own-use	Market prices
Non-market output	At cost of production
Imports	Free on board (f.o.b)
Exports	Free on board (f.o.b)

Recording is done on accrual basis except for the government's accounts which are on cash basis. Work-in-progress is recorded in the period when it is produced.

The production account has been split into two – the production account and the generation of income accounts. The contribution to the GDP by a producer – its value added – is derived in the production account, while the components of value added are recorded in the generation of income account. The components of value added are taxes on production and imports, compensation of employees and operating surplus/mixed income. In the revised series, production and generation accounts are compiled separately for general government.

The term "mixed income" is a novelty in the 1993 SNA, which is used for the surplus generated by unincorporated household enterprises ("jua kali" or informal sector activities). The reason is that the surplus generated by such enterprises includes both remuneration for the labour of the owner and a return to the entrepreneurship and capital employed.

The 1993 SNA has further clarified and slightly extended *the production boundary* through defining all own-account production of goods by households, cultivated natural growth, and production from illegal activities as output. However, in practice it is very difficult, if not impossible, to measure production from illegal activities.

The 1993 SNA makes it clear that *the economic territory* of a country must also include economic free zones that are exempt from taxes and customs duties. Thus, Kenya's Export Processing Zones have been included in the calculation of GDP and no exports to or imports from the Zones are recorded.

The classification and terminology of taxes has been revised in line with the 1993 SNA. The 1968 SNA term "indirect taxes" has been replaced by the term "taxes on production and imports" and "direct taxes" has been changed to "current taxes on income and wealth".

Taxes on products include the excise and import duties, the road maintenance levy, the insurance premium tax and the value added tax. Other taxes on production consist of taxes on the ownership of land, buildings or other assets used in production or on labour employed. In Kenya this includes various business or professional licenses to the central government and rates, licenses and cesses to the local authorities.

Value added is valued at basic prices as follows:

Output at basic prices
— Intermediate consumption at purchasers' prices
= Gross value added at basic prices

Basic prices exclude any taxes payable on products and include any subsidies receivable on products while purchasers' prices include such taxes as well as trade and transport margins.

Factor cost is not favoured by the 1993 SNA, nevertheless, it can still be computed as:

Gross value added at basic prices
- Other taxes on production
+ Subsidies
= Gross value added at factor cost

In practice, however, the difference between factor cost and basic prices is negligible because other taxes on production constitute a very small proportion of taxes in Kenya.

Likewise, the 1993 SNA defines only GDP at market prices and does not make any reference to GDP at factor cost. In order to derive the GDP at market prices, taxes less subsidies on products must be added to total gross value added at basic prices. Thus, GDP at market prices is derived as:

Sum of gross values added of all economic activities at basic prices
+ Taxes on products
- Subsidies on products
= GDP at market prices

Gross national income (GNI) replaces gross national product (GNP). The rationale behind the change is that this aggregate is a concept of income rather than a concept of production.

The *output of banks* include financial intermediation services indirectly measured (FISIM), which is defined as the difference between interest receivable and payable by financial intermediaries. FISIM replaces the "imputed bank service charges". The 1993 SNA recommends that FISIM should be allocated to users instead of recording it as intermediate consumption of a nominal industry. FISIM payable by households and government has been recorded as final consumption for these sectors while the unallocated item – recorded as a negative item in summing up GDP – only include FISIM payable by producers.

Government expenditure on military durable goods has been included in gross fixed capital formation. The 1993 SNA has extended the concept of *fixed assets* to include certain immaterial assets, namely mineral exploration, computer software and large databases, and artistic and literary originals. Accordingly, gross fixed capital formation includes expenditure on such assets whether by purchase or costs for own development. It has been possible to estimate mineral exploration in the revised national accounts.

Base year

In order to analyse the behaviour of the GDP over time independently of the influence of price changes, calculations are made at constant prices. In loose terms, constant price measures inform about the volume of goods and services produced, independent of changes in prices. The GDP series at constant prices are calculated by selecting a reference period, called the base year, and valuing current supply and of goods and services in the prices of that year. The base year for the national accounts estimates at constant prices has now been changed from 1982 to 2001.

Commodity flow

A systematic commodity flow technique has been introduced. This technique entails a systematic confrontation of supply and use data for products at as detailed a level as possible. The format is as follows:

+ Output at basic prices	+ Intermediate consumption
+ Imports	+ Final consumption expenditure
+ Trade and transport margins	+ Gross fixed capital formation
+ Taxes on products	+ Changes in inventories
	+ Exports
= Total supply at purchasers' prices	= Total use at purchasers' prices

Separate commodity flows are compiled for output from domestic producers and for imports. A commodity flow is attached to each production account at the most detailed level and output has been allocated to the use categories listed above except that changes in inventories are not estimated. Exports are available from the foreign trade statistics (goods) and the balance of payments (services). The allocation of supply for domestic use to final and intermediate consumption is often guided by the nature of the products produced.

Separate commodity flows have been compiled for imports of goods and services. The allocation of goods to uses is based on the classification of imports by Broad Economic Categories, which approximately identifies goods for intermediate consumption, goods for final consumption and capital goods

Margins and taxes on production are added to calculate uses at purchasers' prices. Information on taxes – tax rates and total tax income by category – is available while the estimates of margins are based on reasonable assumptions.

GDP by activity

As in the previous estimates, GDP is calculated from the production side as the sum of values added.

General government

General government comprises

- central government
- parastatals and statutory bodies
- local government
- social security funds

Non-market producers form the major part of general government. They produce services that are supplied free or at prices that are not economically significant. In general, there are no suitable market prices for this kind of services, and the output is valued as the sum of its costs of production. Thus

+ Intermediate consumption
+ Compensation of employees
+ Consumption of fixed capital
+ Other taxes on production
= **Gross output**

The net operating surplus is by convention assumed to be zero. With the exception of the Airports Authority, the government producers are considered non-market producers with output calculated as explained above. Consumption of fixed capital is calculated in total for general government and allocated to the major economic activities (ISIC-categories).

The source data from government financial statistics are on a cash basis. This is used as an approximation of accrual data assuming that the difference between cash and accrual recording is fairly stable. The financial year for general government ends on June 30. Calendar years are calculated as the average of two financial years.

NOTE: The source of data in all National Accounts tables is Central Bureau of Statistics.

Notes and Definitions

1. **General** - All trade between Kenya and other countries is defined as "external". This trade is classified under the headings of Direct Imports, Domestic Exports, and Re-exports.

2. **S.I.T.C** - The United Nations' Standard International Trade classification revised and modified to cater for Kenya's needs has been used since January 1964. In June 1989 the S.I.T.C. was revised again and all classifications since June 16th 1989 have been based on those revisions (known as S.I.T.C. Rev. 3). In general the classifications are comparable, but cases where comparison is difficult are indicated in the tables.

3. **Direct Imports** - These are defined as goods directly imported into Kenya for warehousing. Direct Imports include Government imports and goods subsequently re-exported.

4. **Imports for Home Use**: Imports for home use mean goods:-

   i. which on importation are cleared through Customs, plus
   ii. released by Customs from bonded warehouses and
   iii. entered into manufacturing plants, less
   iv. nationalized re-exports, that is, re-export of goods originally cleared for home used but subsequently re-exported.

In some cases transfers of goods imported in a previous year, or goods transferred at a higher value than when originally imported, or transfers of goods initially imported by parcel post, may distort the relationship between quantity and value, or a value out of proportion to the quantity.

5. **Valuation of Imports** - Direct Imports are valued at c.i.f. port or place of entry into Kenya; customs duty and internal handling charges are excluded.

6. **Country of Origin** - The country in which the goods were grown or produced; in the case of manufactured goods, the country in which the manufacturing process was substantially completed. When the country of origin cannot be determined the goods are shown as originating in the country from which they were consigned. From 1976 imports are classified as originating from the country of last consignment.

7. **Domestic Exports** - These are defined as Kenya produce and manufactures exported to other countries or sold as aircrafts, or ships' stores. From 1976 exports and re-exports are classified as destined to the country of consignment except where such goods are consigned via another country.

8. **Re-exports** - These consist of imported goods re-exported in the same form to other countries or as aircrafts' or ships' stores.

9. **Valuation of Domestic Exports and Re-exports** - These are valued of f.o.b. ship or aircraft; the value includes any Kenya cess levy or export tax levied on the goods.

10. **Country of Destination** - The country to which the goods are finally sent, as far as is known at the time of export.

11. **COMESA** – The current COMESA countries are Angola, Burundi, Congo DR, Comoros, Djibouti, Egypt, Eritrea, Ethiopia, Kenya, Madagascar, Malawi, Mauritius, Namibia, Rwanda, Seychelles, Sudan, Swaziland, Uganda, Zambia, and Zimbabwe.

12. With the recent creation of the **East African Cooperation** that became **East African Community**, goods can easily cross the borders without Customs documentation hence not accounted in trade. Nevertheless the value of the goods traded in such manner is of a small proportion that cannot distort the recorded trade.

13. **Specie and Currency Notes** - This item is included at its intrinsic value as base metal and paper respectively.

14. **Gold** - Import and export of gold is included in the external trade statistics.

15. **Parcel Post Imports** - Up to 1970 no imports by parcel post were analysed by article. From 1971 onwards, commercial imports by parcel post have been assigned to their S.I.T.C. code.

16. **Trade Indices** - A Paascherized-Laspeyre formula has been used and 1982 taken as the base year. Indices have been computed for Direct Imports and Total Exports.

17. **Exclusions** - Travelers' samples, passengers' baggage, motor vehicles moved on a triptyque or carnet de passage de Duane, naval and military stores, duty free goods with a value of less than Sh.1,000 moved by air freight, goods in transit to neighbouring countries outside Kenya, diplomatic goods imported and exports by parcel post are excluded from the trade statistics.

18. **Petroleum Products** - All values and quantities given for petroleum products exclude any by products, such as lubricating oils and greases.

19. **Further Information** - More detailed definitions and notes on trade are contained in the Annual Trade Report of Kenya, published by the Customs and Excise Department.

NUMBER AND SIZE OF ESTABLISHMETS

Notes and Definitions

Statistics are shown for establishments rather than firms, which may be made up of more than one establishment. Establishments are defined to mean specific locations in which a clearly identified type of economic activity is being undertaken. In some instances particular operations being undertaken under one roof are further identified into one or more separate establishments provided any of these operations have 50 or more people engaged in them, and provided according to International Standard Industrial Classification, each one of these can be distinctly so classified.

The economic classification used in this Chapter is a slightly modified version of the United Nations 4-digit International Standard Industrial Classification.

Establishments include limited liability companies as well as other forms of business organisations. Public bodies of an "enterprise" nature engaged in "business" activity are also included. The agricultural establishments shown are only those located in the former Scheduled Areas and exclude the very large number of smallholdings outside these areas. Other very small non-agricultural rural establishments are also excluded. The coverage is in fact limited to the "modern" sector, defined to include all establishments in urban areas, large scale farms and other "modern" enterprises located in rural areas plus that part of the public sector which is engaged in activities of an "enterprise" nature.

The source of these data is the *Annual Enumeration of employed and self-employed persons*, which covers the "modern" sector. An attempt is made to include all active "businesses.

Statistics of local companies registered include businesses already in existence, which are converted into companies of limited liability. New nominal capital created in a year includes capital increases by existing limited liability companies through bonus issues, etc.

Statistics of foreign companies consist of details of those companies which are registered outside Kenya but which maintain a place of business in Kenya. The nominal capital of foreign companies is not shown since the total registered capital of these companies gives no indication of the amount they have invested in Kenya.

Bankruptcy statistics do not include companies winding up under the Official Receiver.

SIZE DISTRIBUTION OF ESTABLISHMENTS

Number* of Establisments By Industry and Employment Groups, 2005

Notes and Definitions

The terms "small farms" and "large farms" are used in many tables in this Section. "Large farms" are those which used to be included in the former "Scheduled Areas" less those which have been transferred for sub-division into settlement schemes. "Small farms" include all other areas of arable farming covered in the surveys from which data set out in this Section are derived. Surveys covering the small farms areas started on a limited basis and have been gradually expanded so that they now cover all significant areas of arable farming. In a few districts, e.g. Uasin Gishu, farming is predominantly carried out on large scale holdings. However, they have some areas under small farm settlement schemes. In such cases of predominantly large scale farming the small farms have been brought into the basic agriculture statistics surveys.

The small farms are between 0.2 and 12 hectares though there are some outside this range. In large scale farming districts namely, Nakuru, Uasin Gishu, Trans-Nzoia, Kericho, Nandi and Laikipia, the average size of farms is around 700 hectares. Overall, 25 per cent of the farms range between 20 and 50 hectares.

Most production and price figures shown in the tables refer to calendar years. For this reason they would in some instances differ from data published by marketing organizations in so far as these bodies publish data on other than calendar year basis. Other differences may be due to the fact that a product and its price might be shown at a different stage of processing.

Statistics on value of marketed production are derived from quantities and average prices realised by farmers for commodities delivered to various marketing agents. Attempts are made to estimate value of other production not directly delivered to the boards.

Data on small farms have been collected by means of sample surveys that are subject to sampling errors as well as possible non-sampling errors at district level.

NB: These categories relate to period preceeding the creation of new districts, data from the new districts are not available

*The three categories are defined as follows:

High potential:annual rainfall of 857.5mm or more (over 980mm in Coast Province).

Medium potential: annual rainfall of 735mm-857.5mm.(735mm-980mm in Coast Province and 612.5mm-857.5mm in Eastern Province).

Low potental:Annual rainfall of 612.5mm or less.

Notes and Definitions

The table on timber production covers timber and other forests controlled by the Forest Department. Timber cut on private farms and estates is excluded, and also a very small amount of timber issued free by the Forest Department. The amounts excluded in this way form only a small proportion of total production.

Notes and Definitions

1. **Coverage:-** The Census of industrial Production, 1967 covered all establishments with five or more employees, engaged in manufacturing, mining and quarrying, and building and construction sectors.

Census of Industrial Production, 1972 was more extensive in coverage than that undertaken in 1967 and covered establishments with twenty or more persons engaged in the mining and quarrying, manufacturing, building and construction sectors. For smaller establishments which engaged between five and twenty people, a 25 per cent sample was taken and a 20 per cent sample for establishments engaging less than five people.

The annual surveys of industrial production, undertaken in between the more complete censuses and are therefore limited in scope, were conducted for years 1965-1966; 1968-1971; 1973-1976, covering only large scale establishments, defined as those with fifty or more employees

The last census was for 1977 and covered all establishments employing 20 or more persons, a 50 per cent sample of those employing between 5 and 19 persons and 10 per cent sample of establishments in the 1-4 group.

The unit of enumeration of large-scale enterprises in the Surveys is the firm rather than the establishment. However, firms are offered the option of responding by establishment. In so far as the same firms are split by economic activity, the responding unit is often of an establishment nature **(see notes on Page 103).**
The monthly survey of Industrial Production (MSIP) collects data on quantities and value of output for major products. A volume index for manufacturing is calculated and is used for extrapolation in the absence of other reliable volume indices.

2. **Non-Response:** - Estimates have been made for non-response.
3. **Definitions:** - The definitions used for the Surveys of Industrial production are as follows.

(i) **Compensation of employees** – Compensation of employees is calculated on the basis of the annual Labour Enumeration Survey and includes wages and salaries in cash, wages and salaries in kind and employers' social contributions.

(ii) **Intermediate Consumption** – Consists of the value of goods and services that are used as inputs in the production process. It excludes the use of fixed assets and is valued at purchasers' prices i.e. the price that is payable by the purchaser.

(iii) **Output** - Output is sum of the total values of goods and service sold, bartered, used for payments in kind, including compensation of employees in kind, goods and services supplied by one establishment to another belonging to the same enterprise and changes in inventories of finished goods and work-in-progress.

(iv) **Value Added.** – Value added at basic prices is the difference between output and intermediate consumption.

4. In 1972, Kenya adopted the 4-digit **United Nations Standard Industrial Classification (ISIC)** of all economic activities. The main change that affected the manufacturing sector was the exclusion of repair of motor vehicles, which was hitherto included in the manufacturing sector in the 3-digit ISIC.
5. Changes have occurred lately especially with the adoption of SNA 93 System of National Accounts in 2004 leading to re-classifications of data using the recommended ISIC rev. 3 in order to get detailed data by kind of activity for production statistics. This means that there is wider coverage and further refinements of the data. The data series have also been revised from year 2001 onwards.

Notes and Definitions

Statistics of Private buildings are compiled from returns of private buildings and extensions completed in the municipalities. The term "extention" includes all major alterations and additions to buildings.
Buildings which are partially residential and partially non-residential have been classified according to their main usage. The classification is based on the floor area. This is defined as plinth area together with floor area of any external ancillaries such as garages, servants' quarters, store rooms, lavatories, etc.
A block of flats maisionnettes is counted as a single building.

NOTES AND DEFINITIONS:

The figures cover only private firms with fifty or more employees.
Kenya statistics of mineral production are compiled from returns made by mining concerns. For salt and lime, only commercial output is covered. Consequently considerable quantities of these items which are mined and used on farms, etc. are not recorded. The value given for gold, lime and diamond are the amounts realised by the producers. The production of limestone and gypsum excludes the part used in the production of local cement.

Notes and Definitions

Currency - Notes of the Central Bank of Kenya were first issued on 14th September 1966, and coins on 10th April 1967. The volume of Kenya currency in circulation is shown in Table 105.

The unit of currency in Kenya is the Kenya Shilling, which is divided into one hundred cents. The Kenya shilling was tied to the Special Drawing Rights(SDR) on 27th October, 1975. The SDR is a weighted average of exchange rates of the five leading world currencies, namely, the USA dollar, the Pound Sterling the Deutsche Mark, the Japanese Yen and the French Franc. The Euro has been introduced to replace the Deutchemark, French Franc, Dutch Guilder, Italian Lira and Belgian Franc. Notes of the Central Bank of Kenya are circulated in the following denominations: Ksh.5/-, 10/-, 20/-, 50/-, 100/-, 200/- , 500/- and 1,000/- and coins in denominations of 5 cents, 10 cents, 50 cents, 1/-, 5/-, 10/-, 20/- and 40/- (the first two coins being nickel brass, and the other cupro-nickel).

As from 14th September 1967, East African Currency Board notes ceased to be legal tender in Kenya. The dates for the withdrawal of the legal tender status from the E. A. Currency Board "coin" was 10th April 1969, and the Board wound up at the end of 1969. Data on the Boards assets and currency in circulation is shown in the 1974 and earlier issues of the Statistical Abstract.

Commercial Banking - The main categories of deposits are defined as follows:-
Demand: Subject to transfer by cashing or cheques. These deposits normally carry no rates of interest.

Time: Usually not subject to transfer by cheque and lodged for a definite period subject to notice of withdrawal; interest paid to depositors.

Saving: Lodged for no fixed period. Certain conditions are applicable to depositors who wish to avail cheque facilities. Interest is paid to depositors.

The Agricultural Finance Corporation - The former Land and Agricultural Bank of Kenya and the Agricultural Finance Corporation were legally amalgamated on 21st March, 1969 to form the **Agricultural Finance Corporation(AFC).** The AFC assumed the functions that were previously performed by the two bodies. Assets and liabilities of the Bank are shown in the 1974 and earlier issues of the Statistical Abstract.

Insurance-Statistics on insurance have been obtained through an annual survey of insurance companies. These surveys for the years up to 1967 were conducted by East African Statistical Department. From 1968 to 1970, Central Bank of Kenya conducted this survey while for the years 1971 – 1991 the survey was done by Central Bureau of Statistics. From 1992 onwards **Commissioner of Insurance** has assumed responsibility for this survey.

Non-Bank Financial Intermediaries - Statistics on Non-Bank Financial Intermediaries have been obtained through a quarterly survey of these institutions by the Central Bank of Kenya since 1968. The Non-Bank Financial Institutions included in the survey are:

1. Housing Finance of Kenya Ltd.
2. Prime Capital and Credit Ltd.
3. Savings and Loans Kenya Ltd.
4. Family Finance Building Society

Notes and Definitions

1 Kenya Railways Corporation

Statistics on the operation of the Railways Corporation relating to: Revenue; Expenditure; Traffic carried; Kilometres of lines open for Traffic; and Stocks of transport equipment are derived from the annual report of the Corporation. For accounting purposes capital expenditure is defined as including purchases of land, expenses of loan issue and interest paid out of capital. This definition of capital expenditure differs slightly from the "economists" definition used elsewhere in this Abstract, e.g. in the tables on Gross Capital Formation included in the National Accounts Section.

3 Kenya Ports Authority

As in the case of the Railways, statistics on Kenya Ports Authority relating to revenue and expenditure are derived from the annual report of the Authority. Consequently, as noted above the definition expenditure differs from the "economists" definition used elsewhere in this Abstract.

3 Shipping

(a) Statistics relate to both steam and sailing ships engaged in international or coastwise trade, arriving either with cargo or in ballast. A tug with lighters in two is counted as a single steamship with a tonnage equal to the combined tonnage of the tug plus the lighters. Naval craft are not included.

(b) Returns are made by the following Kenya Ports - each call at a port being counted separately:- Mombasa, Malindi, Lamu, Kilifi and Shimoni.

5 Air Traffic

a) All scheduled services are operated from Nairobi Jomo Kenyatta, Mombasa Moi and Eldoret International Airports, while Wilson Airport operates non-scheduled commercial services only.
b) Air Force/Military, Police, training, testing and private aircraft movements are not recorded.
c) Transit passengers are included once in the total number of passengers handled as from 1970. Prior to 1970 they were included twice.
d) Passengers in transit are those expected to continue their journey either in the same aircraft or in another after a brief stopover.
f) Passengers landing or embarking are mainly those completing or commencing their journey, but the statistics do include a small number changing aircraft or staying over for a few days.
f) Freight handled is weight of cargo and mail unloaded from or loaded into aircrafts. It does not include aircraft fuel or stores or goods remaining in the aircrafts.
g) Movements - Each touchdown and take-off is counted as a separate movement.
h) 1 kilogram (kg.) = 2.205 lb., 1,000 kilograms = 2,205 lb. = 1 Metric Tonne.
i) For the purpose of direction of air traffic, countries of origin and destination of the aircraft have been grouped into regions, in order to avoid disclosing the operations of individual companies. The countries included in each region are as follows:-
   (1) United Kingdom - includes Eire.
   (2) Continental Europe - Belgium, Bulgaria, Czechoslovakia, Denmark, Finland, France, Germany, Greece, Hungary, Italy, Luxembourg, Netherlands, Norway, Poland, Rumania Spain, Sweden, Switzerland, USSR and Yugoslavia.
   (3) Middle East - Cyprus, Egypt, Iran, Israel, Lebanon, Syria, Turkey.

   (4) Arabian Peninsula, Pakistan and India - Aden, Bahrain, Sri Lanka, India, Kuwait, Oman, Pakistan, Saudi Arabia, and Yemen.
   (5) Africa North of the Equator (excluding Egypt) - Algeria, Cameroon, Central African Republic, Chad, Dahomey, Ethiopia, Gabon, Ghana, Ivory Coast, Libya, Mali, Mauritania, Morocco, Nigeria, Senegal, Sierra Leone, Somalia, Sudan, Togo, Tunisia, and Upper Volta.
   (6) Africa South of the Equator and Adjoining Islands - Angola, Congo Brazzaville, Malagasy (Madagascar), Mauritius, Malawi, Mozambique, Reunion, Republic of South Africa, Rhodesia, Congo D.R.C (Zaire), and Zambia.

6 Roads:-

The Roads Department completed the road reclassification in 1970. All roads in Kenya now fall under one of the following categories: -

i) ***A - International Trunk Roads*** - Link centres of international importance, and crossing international boundaries or terminating at international ports.
ii) ***B - National Trunk Roads*** - Link nationally important centres.
iii) ***C - Primary Roads*** - Link locally important centres to each other and to higher-class roads.
iv) ***D - Secondary Roads*** - Link locally important centres to each other and to higher class roads.
v) ***E - Minor Roads*** - Any link to a minor centre.
vi) ***F-Special Purpose Roads*** - Include Parks, township, agriculture, fish and strategic roads.

EDUCATION

Coverage

The statistics in respect of primary and secondary school enrolments refer to enrolment as at January of each year. The statistics cover all schools, i.e. both public and some private schools.

Data on Technical Training Institutes excludes enrolments at Mombasa, Eldoret, and Kenya polytechnics and refer only to the former technical secondary schools that were converted to Technical Training Institutes and Institutions of Technology. Enrolment at the Kenya Technical Teachers College is included together with other Teachers' Training colleges.

Data on higher education consists of enrolments at the Universities of Nairobi, Moi, Kenyatta, Egerton, Jomo Kenyatta University of Agriculture and Technology (JKUAT) and Private Accredited Universities.

Definitions

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "private" schools.

Teachers are categorized into professionally and non-professionally qualified groups. A professionally qualified teacher must either have attended a teacher training college and have been awarded a teaching certificate or be a graduate with a degree of Bachelor of Education or a degree in any other discipline and a teaching diploma.

Any person registered as an examination candidate who immediately before registration was not enrolled as a pupil/student in an educational institution is categorized as a private candidate.

PUBLIC HEALTH

Notes and Definitions

The Statistics in Table 163 must be read with caution Since there is a single fee for registration, and no annual licence, respective registers may include those who do not practice or who have left the country The Statistics of diseases reported may imply that relatively little progress is being made In fact,the improvement in statistical coverage is obscuring the real progress which is taking place

Notes and Definitions

The form in which the Government accounts are kept and published is determined by the administrative structure, and the requirements of financial control. Tables 166(a) – 169(a) and 169(b) of this section accounts have been rearranged into a format which makes analysis of revenue and expenditure more convenient. In carrying out this reclassification, the recommendations of the United Nations for the analysis of Government accounts have been followed.

Table 166(a) is a summary of the Appropriation Accounts while Table 166(b) and 166(c) summarizes the results of the reclassification of revenue and expenditure. The totals of revenue and expenditure as shown in the following tables differ from the totals shown in 'the Government Appropriation Accounts and in the published estimates of expenditure and revenue. The principle reasons for these differences are:-

The divisions of the budget into Recurrent and Development Accounts causes transfer of various expenditure items from one account to the other. The figures included in these tables eliminate any resultant double counting in the Appropriation Accounts;

Both revenue and expenditure are gross of Appropriation-in-Aid (the revenue earned by Departments and Ministries by the provision of goods and services appropriate to meet their own expenditure) instead of net as voted in the Budget;

Expenditure under Consolidated Fund Services has been included with the Central Government figures, to give a complete picture of Budget.

The figures for the year 2000/01 – 2003/04 reconcile total revenue and expenditure as shown by the reclassification with the accounting figures in the Appropriation Accounts. From them it is possible to see, firstly, revenue and expenditure as Appropriation-in-Aid and, secondly, the amount of double-counting arising from inter-account and other internal transfers.

Notes, Definitions and Coverage

Most of the tables in this section are derived from the **Annual Enumeration of Employees and Self-employed Persons**. This enumeration takes place at the end of June. The annual wage bill is estimated from monthly data - the reported earnings for the month of June being multiplied by twelve.

Wage employment figures as shown in this section may not compare with those shown elsewhere in the Abstract, e.g. in the Industrial Production Section. This is due to differences in coverage, timing, etc. between the annual enumeration of employees and the other enquiries in which information on employment is also collected.

Public services include Central **Government, Parastatal Bodies, Local Government, E.A. Development Bank and Kenya National Examinations Council.**

All private establishments in urban areas, large-scale farmers and other large-scale enterprises located in the rural areas as well as establishments of the public sector engaged in industrial, commercial, agricultural and other activities are asked to state their main activity, and this is the basis of industrial classification.

Wage employment figures include casual employees, part-time workers, directors and partners serving on a regular basic salary contract. Self-employed persons and family workers who do not receive regular wages or salaries are excluded. Employment in the informal sector of the economy is not included in the Abstract. Also excluded are employment figures for rural small-scale agriculture and pastoralists activities.

Earnings or wages cover **all cash payments**, including basic salary, cost of living allowances, profit bonus, together with the value of rations and free board, and an estimate of the employer's contribution towards housing. Earnings as shown in this section are lower than the estimate of factor income going to employees because they exclude pensions, employers' contributions to the National Social Security Fund or private provident funds and personal emoluments for the armed forces. Earnings in informal sector, rural small scale agriculture and pastoralists activities are excluded.

The economic classification used in this chapter from 1976 is a slightly modified version of the United Nations' 4-digit international Standard industrial Classification.

Notes and Definitions

The weight used for the new Kenya Consumer Price Indices as published in this Abstract are derived from the Urban Household Budget Survey undertaken in 1993/94.

The base period for the new series is October 1997=100 and the series has been computed from October 1997 onwards.

Lower income index of consumer prices is designed to measure changes in retail prices of goods and services consumed by household in the lower income groups. In the previous years the index referred to households earning upto Kshs 2,000 per month. It is now redefined to be one with income of up to Kshs 10,000 per month.
In the new series middle and upper income groups in Nairobi have been combined. These refers to households with income more than Kshs 10,000 per month.
Rest of Urban Town refers to those urban towns outside Nairobi and household earning below Kshs 10,000 per month.

Weighting System for the Old Nairobi CPI (Base period: Feb/Mar 1986)
