The Consuming Urban Poverty Project, an international research project trying to understand urban poverty and its consequences in respect of food systems planning and governance in Africa's secondary cities. We are interested in understanding how communities access food and the role that food retail plays in food security. (Detail university) University in partnership with Jaramogi Oginga Odinga University of Science and Technology, Maseno University, Copperbelt University and the University of Cape Town is conducting this research. As part of this research, we would like to include your retail outlet in a mapping exercise and ask you a few questions to understand a bit more about your trade. Your identity will remain strictly confidential and will not be revealed to anyone. If you need any further information, please contact research leader [to be inserted at each city] at [insert appropriate contact number]. There are no right or wrong answers. The interview will take about 45 minutes. Your answers will be combined with those of over 200 other food retail outlets we are talking to in (Insert City) to get an overall picture. Any answers you provide will be kept absolutely confidential, and there is no way anyone will be able to identify you by what you have said in this interview. We are not recording either your address or your name, so you will remain anonymous so please feel free to tell us what you think. The data we collect from these interviews will always be kept in a secure location. You have the right to terminate this interview at any time and you have the right to refuse to answer any questions you might not want to respond to.

Please provide detail of the ward or location description of the site under review

survey

1. Male or female

- Male
- Female

2. Where is the store located

Enumerator to complete: Please detail the ward name - do not ask this of the operator

- Market (zoned/approved)
- Market (illegal/non-approved)
- Mall
