## **Revised estimates General Household Survey 2004**

This document sets out the information that is needed to access the General Household Survey (GHS) data.

The files essential for accessing the data are provided in text format. This format was chosen to make the data usable with many statistical programs as possible, and thus accessible to a wide range of people as possible. Other files with relevant information have been provided in Word 2000 format. If you do not have software appropriate for this format, please contact Stats SA and paper copies will be forwarded to you.

Other important information can be found in the:

- Questionnaire
- Additional code lists (occupation and industry)
- Relevant statistical release
- Record layouts
- Stats SA's Web-site: [www.statssa.gov.za](http://www.statssa.gov.za)

### **THE DATA FILES**

The files and the corresponding sections of the questionnaire are as follows:

- Person:** Data from Flap and Section 1
- Worker:** Data from Section 2
- Tourism:** Data from section 3
- House:** Data from Section 4

The information in each file contains the following:

#### **Description of variables**

The description of the variables comprise of the following information:

**Descriptive name:** This is a short English description plus the variable name in the original file used by Stats SA to construct the ASCII file.

**Position of the variable:** The position of the data within the record, recorded in the format (@xxx y.). "@xxx" indicates that the data begins at position (i.e. column) xxx and "y." indicates that it is y digits wide. All data is numeric and right justified.

**Source:** This is either the question in the questionnaire or, for derived variables, the method of derivation. Derived variables are usually found towards the end of a record.

**Valid range:** The range of valid values for the variable. For continuous variables this reflects the upper and lower limits as found in the data.

**Not applicable:** The code for not applicable is provided for each variable. These are numeric.

**Missing value:** A code for “missing”/unspecified values is given for each variable.

**Notes:** Specific observations to be noted by users.

Most questions in the General Household Survey questionnaire are pre-coded, i.e. there is a set number of choices from which one or more must be selected. For open-ended ‘write-in’ questions, the description will note that post-coding occurred and explain how this was done. Most variables have been pre-coded from the questionnaire and is not repeated in the variable description. Where the coding is not apparent, the description either provides the codes or indicates where code lists are to be found.

### Linking files

The data from different files can be linked on the basis of a record identifier. The record identifier is the first field/s in each file. Each record contains a number (UqNr), which constitutes a unique household identifier. All records with a given household identifier, no matter which file they are in, belong to the same household. For individuals, a further two digits constitute the Person number (PersonNr). When these are added to the household identifier, a unique individual identifier is created. Again, these can be used to link records from the PERSON and WORKER files. The syntax needed to merge information from different files will differ according to the statistical package used.

## METHODOLOGY

### Sample design

A multi-stage stratified sample was drawn using probability proportional to size principles.

The sample was drawn from the master sample, which Statistics South Africa uses to draw samples for its regular household surveys. The master sample is drawn from the database of enumeration areas (EAs) established during the demarcation phase of Census 1996. As part of the master sample, small EAs consisting of fewer than 100 households are combined with adjacent EAs to form primary sampling units (PSUs) of at least 100 households, to allow for repeated sampling of dwelling units within each PSU. The sampling procedure for the master sample involves explicit stratification by province and within each province, by urban and non-urban areas. Within each stratum, the sample was allocated disproportionately. A PPS sample of PSUs was drawn in each stratum, with the measure of size being the number of households in the PSU. Altogether approximately 3 000 PSUs were selected. In each selected PSU a systematic sample of ten dwelling units was drawn, thus, resulting in approximately 30 000 dwelling units. All households in the sampled dwelling units were enumerated.

The master sample is divided into five independent clusters. In order to avoid respondent fatigue (the LFS is a rotating panel survey which is conducted twice yearly), the GHS sample uses a different cluster from the LFS clusters.

### Weighting the GHS of July 2004

A two-stage weighting procedure was done on the GHS 2004. The PSU inclusion probability is given by

$$P_{PSU} = \frac{n_{PSU}}{N_{PSU}} \cdot n_s,$$

where  $n_{PSU}$  is the number of households constituting the selected PSU during census fieldwork,  $n_s$  is the number of PSUs per stratum, and  $N_{PSU}$  is the number of households constituting the selected stratum during census fieldwork. The household inclusion probability per PSU is given by

$$P_{HH} = \frac{n_{HH}}{H_{HH}},$$

where  $n_{HH}$  is the number of selected dwelling units per PSU,  $H_{HH}$  is the number of dwelling units in the PSU in question at a particular time different from the census time.

The household weight adjusted for non-response is given by  $\frac{1}{P_{HH} \cdot r_{HH}}$

where  $r_{HH}$  is the response rate and is given by  $r_{HH} = \frac{n_{RESP}}{n_T}$  where  $n_{RESP}$  is the number of responding households and  $n_T$  is

the total number of visited households per PSU. The adjusted sample weights are now given by

$$W_{HH} = \frac{1}{P_{PSU} \cdot P_{HH} \cdot r_{HH}}$$

A SAS macro called CALMAR was used to benchmark  $W_{HH}$  to the mid-year estimates. The mid-year estimates were adjusted to give population estimates for July 2004 (when survey fieldwork took place).

### Coverage

The target population is private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

### Definitions of terms

**The population of working age** – people aged 15-65 years.

**Not economically active population** includes people who are not available for work, such as full-time scholars and students, full-time homemakers, those who are retired and those who are unable or unwilling to work.

**Economically active population** includes people aged 15–65 who are employed and those not employed.

#### **Official and expanded definition of unemployment**

Statistics South Africa (Stats SA) uses the following definition of unemployment as its official definition. The *unemployed* are those people within the economically active population who: (a) did not work during the seven days prior to the interview, (b) want to work and are available to start work within two weeks<sup>1</sup> of the interview, and (c) have taken active steps to look for work or start some form of self-employment in the four weeks prior to the interview. The expanded definition of unemployment excludes criterion (c).

**Workers** include the self-employed, employers and employees.

**Formal dwellings** include a house on a separate stand, a flat or apartment in a block of flats, a townhouse, a room in a backyard, and a room or flatlet on a shared property.

**Informal dwellings** include shacks or shanties in informal settlements or in backyards.

**Piped water in dwelling or on site** refers to piped water inside the household's own dwelling or in their yard. It excludes water from a neighbour's tap or a public tap that is not on site.

- **Electricity for cooking, heating and/or lighting** refers to electricity from the public supplier

**Table A: Contents of the GHS 2004 questionnaire**

| Section             | Number of questions | Details of each section   |
|---------------------|---------------------|---|
| <b>Cover page</b>   |                     | Household information, response details, field staff information, result codes, etc.  |
| <b>Flap</b>         | 6                   | Demographic information (name, sex, age, population group, etc.)  |
| <b>Section 1</b>    | 58                  | Biographical information (education, health, disability, welfare)   |
| <b>Section 2</b>    | 21                  | Activities related to work and unemployment   |
| <b>Section 3</b>    | 12                  | Trips undertaken in the 12 months prior to the survey interview   |
| <b>Section 4</b>    | 79                  | Household information (type of dwelling, ownership of the dwelling and other assets, electricity, water and sanitation, environmental issues, services, transport, expenditure, etc.) |
| <b>All sections</b> | 176                 | Comprehensive coverage of living conditions   |

**DEFINITIONS OF TERMS**

*The population of working age* – people aged 15–65 years.

*Not economically active population* includes people who are not available for work, such as full-time scholars and students, full-time homemakers, those who are retired and those who are unable or unwilling to work.

*Economically active population* includes people aged 15–65 who are employed and those not employed.

### ***Official and expanded definition of unemployment***

Statistics South Africa (Stats SA) uses the following definition of unemployment as its official definition. The *unemployed* are those people within the economically active population who: (a) did not work during the seven days prior to the interview, (b) want to work and are available to start work within two weeks<sup>2</sup> of the interview, and (c) have taken active steps to look for work or start some form of self-employment in the four weeks prior to the interview. The expanded definition of unemployment excludes criterion (c).

***Workers*** include the self-employed, employers and employees.

***Formal dwellings*** include a house on a separate stand, a flat or apartment in a block of flats, a townhouse, a room in a backyard, and a room or flatlet on a shared property.

***Informal dwellings*** include shacks or shanties in informal settlements or in backyards.

***Piped water in dwelling or on site*** refers to piped water inside the household's own dwelling or in their yard. It excludes water from a neighbour's tap or a public tap that is not on site.

***Clean water*** refers to piped water (regardless of from where) and water from a water carrier/tanker.

***Electricity for cooking, heating and/or lighting*** refers to electricity from the public supplier

***Hygienic toilet facility*** refers to a flush toilet, chemical toilet or pit latrine with a ventilation pipe.

### **DATA FILE: PERSON**

*Unique number (UqNr)* (@ 1 13.)  
Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same households from other files.

*Person number (PersonNr)* (@14 2.)  
Person number within Household  
Valid range: 1 – 28

Note: The two fields above create a 15-digit unique person identifier, which can be used to link data from this file with data for the same individuals from other files.

*Province (Prov)* (@16 1.)  
South African provinces  
Derived variable: Derived from the first digit of the Unique Number.  
Valid range: 1 – 9  
Values:

1. Western Cape
2. Eastern Cape
3. Northern Cape
4. Free State
5. KwaZulu-Natal
6. North West
7. Gauteng

8. Mpumalanga
9. Limpopo

**FLAP**

*Stayed Nights (B\_4Night)*

(@17 1.)

|          |   |
|----------|---|
| <b>B</b> | <p><b>Has ..... stayed here</b> (in this household) <b>for at least four nights on average per week during the last four weeks?</b></p> <p>1 = YES</p> <p>2 = NO      → <i>End of questions for this person</i></p> |
|----------|---|

**Note to users**

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered "No" in this question. It is through this question where household members are identified within the selected dwelling unit.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

1 = Yes

*Gender (Gender)*

(@18 1.)

|          |  |
|----------|--|
| <b>C</b> | <p><b>Is ..... a male or a female?</b></p> <p>1 = MALE</p> <p>2 = FEMALE</p> |
|----------|--|

**Note to users**

This question is asked for each household member, to determine his or her gender. This question is only applicable if there is a "Yes" in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

1 = Male

2 = Female

*Age (Age)*

(@19 3.)

|          |  |
|----------|--|
| <b>D</b> | <b>How old is .....?</b> ( <i>In completed years - In whole numbers</i> )<br><i>Less than 1 year = 00.</i> |
|----------|--|

**Note to users**

This question is asked to find out the ages of the household members. The question is asked to each member of the household. The instruction is to write the years in whole numbers and not in words. Moreover, these years must be completed, thus if a person is two years and six months, the instruction is to write the two completed years. For those children who are less than a year, the instruction is to write 00.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

*Less than 1 year = 0*  
Valid range: 0 – 108

*Population group (Popgrp)*

(@22 1.)

|          |   |
|----------|---|
| <b>E</b> | <b>What population group does ..... belong to?</b><br>1 = AFRICAN/BLACK<br>2 = COLOURED<br>3 = INDIAN/ASIAN<br>4 = WHITE<br>5 = OTHER, <i>SPECIFY</i> |
|----------|---|

**Note to users**

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions, which may be influenced by his/her own observation or using people’s names during the interview. This question may seem very sensitive to some respondents especially in this post apartheid era, but it is really important to find out the composition of the South African population.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

- 1 = African/Black
- 2 = Coloured
- 3 = Indian/Asian
- 4 = White

**SECTION 1**

*Relationship to the head (q11relshh)*

(@23 2.)

|            |  |
|------------|--|
| <b>1.1</b> | <p><b>What is .....’s relationship to the head of the household?</b><br/>(i.e. to the person in column 1)</p> <p>1 = <i>Mark the head/acting head</i></p> <p>2 = HUSBAND/WIFE/PARTNER</p> <p>3 = Son/daughter/stepchild/adopted child</p> <p>4 = BROTHER/SISTER</p> <p>5 = FATHER/MOTHER</p> <p>6 = GRANDPARENT/GREAT GRANDPARENT</p> <p>7 = GRANDCHILD/GREAT GRANDCHILD</p> <p>8 = OTHER RELATIVE (E.G. IN-LAWS OR AUNT/UNCLE)</p> <p>9 = NON-RELATED PERSONS</p> |
|------------|--|

**Note to users**

This question is asked for each member of the household to determine their relationship to the head of the household. The respondent is asked to give the information on how each member is related to the head of the household. The enumerator is instructed to cross check the information in this question with the one on the flap, especially on the head or acting head of the household.

**Universe**

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview.

**Final code list**

- 1 = Mark the head/acting head
- 2 = Husband/wife/partner
- 3 = Son/Daughter/Stepchild/Adopted child
- 4 = Brother/Sister
- 5 = Father/Mother
- 6 = Grandparent/Great grandparent
- 7 = Grandchild/Great grandchild
- 8 = Other relative (e.g. in-laws or aunt/uncle)
- 9 = Non-related persons
- 99 = Unspecified

*Marital status (Q12amari)*

(@25 1.)

|              |   |
|--------------|---|
| <b>1.2.a</b> | <p><b>What is .....’s present marital status?</b></p> <p>1 = MARRIED OR LIVING TOGETHER AS HUSBAND AND WIFE</p> <p>2 = WIDOW/WIDOWER</p> <p>3 = DIVORCED OR SEPARATED</p> <p>4 = NEVER MARRIED</p> <p style="text-align: right;">} → <i>Go to Q 1.3.a</i></p> |
|--------------|---|

**Note to users**

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question.

If the response is widow/widower, divorced or separated and never married the enumerator is instructed to go to Q 1.3.a, which is on mortality for households.

**Universe**

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview

**Final code list**

- 1 = Married or living together as husband and wife
- 2 = Widow/Widower
- 3 = Divorce or Separated
- 4 = Never married
- 9 = Unspecified

*Spouse/partner (Q12bspou)*

(@26 1.)

|              |  |
|--------------|--|
| <b>1.2.b</b> | <p><b>Does .....’s spouse/partner live in this household?</b></p> <p>1 = YES</p> <p>2 = NO                      → <i>Go to Q 1.3.a</i></p> |
|--------------|--|

**Note to users**

This question is only applicable for those people who indicated that they are “Married or living together as husband and wife” (Q1.2.a). If the response is “NO” the enumerator is instructed to skip to Q1.3a which is on mortality for households.

**Universe**

Only those people who are married or living together as husband and wife.

**Final code list**

- 1 = Yes
- 2 = No
- 8 = Not applicable
- 9 = Unspecified

*Spouse number (Q12cpsnn)*

(@27 2.)

|              |   |
|--------------|---|
| <b>1.2.c</b> | <p><b>Which person is the spouse/partner of .....?</b></p> <p><i>Give person number</i></p> |
|--------------|---|

**Note to users**

This question is only applicable for those people who said “Yes” in (Q 1.2.a), thus “Married or living together as husband and wife”. It confirms the information on the previous question, which seeks to determine whether couples within the visited household live together or not.

**Universe**

Only applicable to those living with their spouses in the same dwelling unit.

**Final code list**

- Valid range: 1 – 15
- Not applicable: 88
- Unspecified: 99

*Father alive (Q13afath)*

(@29 1.)

}

|  |                                     |                        |
|--|-------------------------------------|------------------------|
|  | 1 = YES<br>2 = NO<br>3 = DON'T KNOW | <i>→ Go to Q 1.4.a</i> |
|--|-------------------------------------|------------------------|

**Note to users**

This question wants to find out if the father is still alive or has passed away. The father does not necessarily have to be member of the household. That means one's father may be alive but living somewhere outside the selected dwelling unit. For codes 2 and 3 the instruction is to go to Q 1.4.a.

**Universe**

This is applicable to each member of the household.

**Final code list**

- 1 = Yes
- 2 = No
- 3 = Don't know
- 9 = Unspecified

*Father part of the household (Q13bfpar)*

(@30 1.)

|              |   |                        |

| <b>1.3.b</b> | <b>Is .....’s biological father part of the household?</b><br>1 = YES<br>2 = NO | <i>→ Go to Q 1.4.a</i> |
|--------------|---|------------------------|

**Note to users**

This is a follow up question to the previous one (Q 1.3.a), but interested on whether the father is the member of the visited household or not. The instruction is that for those who said “No” the interview must proceed to question Q 1.4.a.

**Universe**

Only for those with “Yes” in the previous question (1.3.a).

**Final code list**

- 1 = Yes
- 2 = No
- 8 = Not applicable
- 9 = Unspecified

*Father person number (Q13cfpsn)*

(@31 2.)

|              |  |
|--------------|--|
| <b>1.3.c</b> | <b>Which person is .....’s biological father?</b><br><i>Give person number</i> |
|--------------|--|

**Note to users**

This is a follow up question, to the previous question (Q 1.3.b) to verify whether the father is part of the household or not. The answer to this question can be cross-checked with (Q 1.1) to find out about the status of the father.

**Universe**

Only for those who said “Yes” in the previous questions (1.3.a and 1.3.b).

**Final result code**

- Valid range: 1 – 11
- Not applicable: 88
- Unspecified: 99

*Mother still alive (Q14amoth)*

(@33 1.)

|              |  |                          |

| <b>1.4.a</b> | <b>Is ..... 's biological mother still alive?</b><br>1 = YES<br>2 = NO<br>3 = DON'T KNOW | } → <i>Go to Q 1.5.a</i> |
|              |  |                          |

**Note to users**

This question wants to find out if the mother is still alive or has passed away. The mother does not necessarily have to be a member of the household. That means one's mother may be alive but living somewhere outside the selected dwelling unit. For codes 2 and 3 the instruction is to go to Q 1.5.a.

**Universe**

This is applicable to each member of the household.

**Final result code**

- 1 = Yes
- 2 = No
- 3 = Don't know
- 9 = Unspecified

*Mother part of household (Q14bmpar)*

(@34 1.)

|              |  |                        |

| <b>1.4.b</b> | <b>Is ..... 's biological mother part of the household?</b><br>1 = YES<br>2 = NO | → <i>Go to Q 1.5.a</i> |
|--------------|--|------------------------|

**Note to users**

This is a follow up question to the previous one (Q 1.4.a), but interested on whether the mother is the member of the visited household or not. The instruction is that for those who said "No" the interview must proceed to question Q 1.5.a.

**Universe**

Only for those who said, "Yes" in the previous question (1.4.a).

**Final code list**

- 1 = Yes
- 2 = No
- 8 = Not applicable
- 9 = Unspecified

|--------------|---|

**Note to users**

This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. Even if a person can spend as little time as possible to collect water per week, as long as the minutes add up to one hour per week she/he qualifies. The instruction in this question is that the water that is collected should not be for sale. If the answer is “No” a person should skip to Q 1.6.a

**Universe**

For all household members in the selected dwellings.

**Final code list**

1 = Yes

2 = No

9 = Unspecified

|-------------|--|

**Note to users**

This question asks the respondent about the medical aid scheme that covers the medical expenses partially, or in total and very often the employer makes a contribution towards the installments. The enumerator has to make this clear to the respondent. This question looks at coverage by existing schemes. The question should be answered with a “Yes” even if the person is not a principal member of a scheme but as long as s/he is covered by it. For example a child or a spouse is often covered by the scheme of which his/her employed parent or partner is a member is a member.

**Note to users**

This question is applicable to all household members aged 15 and above, regarding their involvement with the economic activities in the last seven days. This is part of the questionnaire where there would be a differentiation between economically active population and those who are not economically active. The instruction to the enumerators is that these activities must be for at least one hour within the seven days. In order to be certain that the categories have been answered there should either be “Yes” or “No” in all of them. If the answer is “Yes” for a person in any part of Q2.1 then skip to Q2.4, and if No to **all** options for a person then the enumerator has to continue with the next question.

*For agricultural activities, the off season in agriculture is not a temporary absence.*

1 = YES

2 = NO

→Go to Q 2.11

### Note to users

This is only applicable to household members who answered “No” to all the categories in Q 2.1. This question identifies people temporarily absent from their income earning and own production activities. The most common group is people on annual leaves. They did not work in the past seven days, but they have a job to go back to and should be recorded as active in their usual jobs as they are still part of the labour force. There is no time limit given, which for example, allows women on maternity leave to be recorded as temporarily absent. It is relatively easy to identify people absent from wage jobs. It is more difficult when the person is self-employed in a business activity or working on his/her own farm.

Note that if a person is not working because of the off-season in agriculture or any other seasonal industries, s/he should not be regarded as temporarily absent. If such a person is recorded as temporarily absent then we would miss any measure of seasonal employment in particular.

For “No” response, the enumerator is instructed to skip to Q 2.11 and ask for the unemployment and non-economic activity questions.

**Note to users**

This question is applicable to household members who have been performing certain economic activities in the seven days prior the interview. The instruction to the enumerator is to give person's occupation/job title even if the activity was performed just an hour before the interview. It is important that the occupation is in English as the occupational codes are only in this language.

**Note to users**

This question is applicable to household members who have been performing certain economic activities in the seven days prior the interview. It is important that the industry is in English as the industry codes are only in this language. The instruction to the enumerator is to ask the respondent to name the place of work where the main tasks were performed in the last seven days as it has been reflected in Q 2.4. For hawkers and others without a specific place to work, they have to write "No fixed location". Questions 2.6 and 2.7 were written-in. The responses to these two questions were used to determine the industry. The industry was coded to three digits on the basis of the International Standard Industrial Classification of all Economics activities (ISIC) 1993 (see code list for industry).

→Go to Q2.18

### Note to users

This question is applicable to household members who have been performing certain economic activities in the last seven days (from Q 2.1 and Q 2.2: “Yes”). This question is only applicable if there was no answer in Q 2.8, thus in case of a non-response, refusal or don’t know. Since this kind of information is very personal the enumerator is instructed to inform the respondent that there are certain closures (Acts of confidentiality) that protect individuals in cases of these nature. Statistics South Africa as a government department is therefore compelled to abide by them. The instruction to the enumerator is to skip to Q2.18 after the respondent has answered this question.

### Universe

All members of the household aged 15 and above who were economically active in the last seven days.

### Final code list

Valid range: 1 – 16

Not applicable: 88

Unspecified: 99

### (Unemployment and non-economic activities)

Note: this section was asked only to household members aged 15 and above who did not work in the seven days prior to the interview and did not have a job.

|-------------|---|

### Note to users

This is applicable to all household members aged 15 and above who did not work and did not have a job to return to in the seven days prior the interview (those with “No” in Q 2.2). The intention of this question is to find out the reasons people were not working in the seven days prior to the interview. For any other reason that is not specified in the given categories there is provision to specify it. However, if the person has found a job and is supposed to start at a definite date in the future, there should be a skip to Q 2.15.

## Universe

All household members aged 15 and above who did not work and did not have a job to return to in the seven days prior to the interview.

### Final code list

- 01 = Has found a job, but is only starting at a definite date in the future
- 02 = Scholar or student and prefers not to work
- 03 = Housewife/homemaker and prefers not to work
- 04 = Retired and prefers not to seek formal work

### Note to users

This is applicable to all household members aged 15 and above who did not work and were absent from work in the last seven days (those with “No” from Q 2.2). The interest in this question is to determine whether people can accept suitable job if given. For those who answered “No” and “Don’t know” there should be a skip to Q 2.15.

## Universe

All household members aged 15 and above who did not work in the last seven days and did not have job to return to.

**Note to users**

This question is only applicable if a person is prepared to accept a suitable job offer as reflected in question (Q 2.12). The interest is to find out whether a person has taken any action to look for a job in the past four weeks. The instruction to the numerator is to complete both given categories with either a “Yes” or “No” answer.

**Universe**

All household members who have taken action to look for work in the past four weeks.

**Note to users**

This is applicable to household members who answered “No” to all the categories in Q 2.1 and answered Q 2.10. Regardless of whether a person is unemployed or not economically active the interest in this question is to find out whether a person has ever worked before. For those who answered “No” in this question they should skip to Q 2.17.

**Note to users**

This is only applicable if there is a “Yes” in the previous question Q 2.14. The interest in this question is to find out for how long a person has worked in the last job he/she occupied. The instruction to the enumerator is to probe for more information, as people in this caliber are usually uncertain of the required information.

**Universe**

All household members who are currently not working but have worked before.

|-------------|---|

**Note to users**

This is applicable to all persons unemployed or not economically active regardless of whether a person has worked before or not. The interest in this question is to find out how people support themselves even though they are not working. The enumerator is instructed to ask all the given categories. There should either be a “Yes” or “No” for each category. For any other reason that is not categorised the enumerator has to complete the information in the provided space. If the answer is code “1 “= Did odd jobs during the past seven days, then the instruction to the enumerator is to go back to Q 2.1.

**Note to users**

This question is about the reason for the last trip undertaken by one or more members of the household. The emphasise should be on the last trip whether it was important or not, even if less money was spent than the rest. It must be noted that people who took the trip with the intention of making profits are not included in this category.

**Note to users**

This question asks whether the last trip undertaken was a package trip or not. A packaged trip is a single product that combines two or more travel services, for example (transport, accommodation, meals, entertainment, sightseeing etc). This package trip can be sold through the travel agencies or directly to the final consumers as a single product, for a global price. The enumerator is instructed to skip to **Q3.11** for those who have answered “No” or “ Don't know”.

**Note to users**

This question Q3.10 is a combination of both the cost of the package trip and the other money spent on other things. The figure in category (a) Package trip should be the same as the one in Q3.9. The idea behind items included in the package is to unpack whatever has been paid for in the package trip, hence a person has only to tick “Items included in the package” but without any amounts. That means you only the amount spent/consumed on other things not included in the package.

**Note to users**

This question is asked to all the members of household and the enumerator has to read out the question and make sure that each category is asked. The purpose of this question is to determine what kind of accommodation the members of the household, when taking trips mostly use. The respondent has to include the number of nights spent against the category.

### Universe

**Note to users**

This question is about the monthly installments payments made on the dwelling unit for the past month, which is the total payment toward the repayment of the mortgage or bond accounted in the past month. The enumerator is instructed to tell the respondent to break the amount given into Capital and Interest.

- Capital – The repayment towards the principal amount owed.
- Interest - The finance charges incurred as a result of the mortgage or bond loan.

## Note to users

This question is asked to only the responsible adult in the household, and the enumerator has to record only the additional lump sum. For example if a household should pay R1 000 per month toward the payment of the bond and actually pays extra amount monthly and in addition to that paid an extra R5 000 as a lump sum, then the additional R5 000 must be shown in Q4.13. It must be noted that this lump sum should have been paid sometimes in the past 12 months for it to be recorded.

**Note to users**

This question is been asked to all the household members and the enumerator has to make it clear to the respondent that if more than one means of transport is, or would be used then take the one used over the longest distance. If the household does not use a particular facility then the enumerator has to ask what the household member would use to get there. It must be noted that the question is asking about the nearest facility and not necessarily the one that the household is or maybe using. The instruction of option “Others” in Q4.60 should be noted.
