

KwaZulu-Natal Income Dynamics Study

Household Identification Form

Good (morning/afternoon/evening), I'm _____ and we are conducting a survey for Data Research Africa. In 1993 we interviewed people living in this compound/homestead/stand. This earlier study has been very helpful in learning about people's living conditions and in planning government policies. As a follow-up to this earlier work, we would again like to ask questions about the people who lived here in 1993, as well as about additions to the household. The information you give to us will be kept confidential. You and your household members will not be identified by name or address in any of the reports we plan to write.
