

# South Africa - SNAP Survey of Ordinary Schools 2023

**Department of Basic Education**

Report generated on: August 14, 2024

Visit our data catalog at: <https://www.datafirst.uct.ac.za/dataportal/index.php>

## Identification

### SURVEY ID NUMBER

zaf-dbe-snaps-2023-v1

### TITLE

SNAP Survey of Ordinary Schools 2023

### COUNTRY

Name	Country code
South Africa	zaf

### STUDY TYPE

Education Data

### ABSTRACT

The SNAP Survey of Ordinary Schools collects data from all schools in South Africa each year. The data forms part of the national Education Management Information Systems (EMIS) database used to inform education policymakers and managers in the Department of Basic Education and the Provincial education departments, as well as to provide valuable information to external stakeholders. For example, data from schools in the survey is used to compile and maintain the Master List of Schools in the country for education planning purposes.

### KIND OF DATA

Survey data

### UNIT OF ANALYSIS

Individuals and institutions

## Version

### VERSION DESCRIPTION

Version 1 Edited, anonymised data for non-commercial use

### VERSION DATE

2024

### VERSION NOTES

Version 1 of the SNAPS dataset was provided to DataFirst by the Department of Basic Education (DBE) on 12 March 2014. Version 1.1 is this deposit, converted from an Access Database to Stata, and labelled with coding provided by the DBE.

Version 1.2: In the original upload the learner enrolment file was omitted. Version 1.2 includes this file. The other data files are still labeled 1.1 as no changes to these have been made. The new version number reflects the inclusion of the missing file only.

Version 1.3: In this version variables names have been changed to lower case. The "natemis" variable is also now numeric across all data files. As versioning is done at file level as well as dataset level the files are now reversioned to 1.2 except for the Learner Enrolment data file which becomes version 1.3. Further disclosure control was undertaken on the "General" file and therefore this file is also version 1.3. The dataset is versioned in line with the latest data file, and so becomes version 1.3.

Version 1.4: Includes the first versions of the 2014-2015 data publically released by DataFirst. These data files are versioned as 1.1 (with 1.0 being the original MS Access files received from the DBE)

Version 1.5: Includes the 2016 SNAPS and introduces, for the first time, results from national senior certificate (NSC) between 2014-2016 to the dataset. These data files are versioned as 1.1 (with 1.0 being the original MS Access files received from the DBE)

Version 1.6: Excludes the national senior certificate examinations data that was erroneously included in the previous version. These results have been collated into their own separate data file which can also be found on the DataFirst data portal. Note that the versions of the individual data files remain the same given that they were unchanged.

Annual datasets for the period 2017-2022 are not included as these have not yet been provided by DBE.

This is the data from the 2023 SNAP Survey. This version is a continuation of the SNAPS dataset provided by DBE to DataFirst with the previous rounds covering the period 1997-2016 (Version 1.1 to Version 1.6 ).

This data is Version 1 of the 2023 data. DataFirst will merge this data with the earlier data once we have the 2017-2022 data. The merged dataset will then become Version 1.7

## Scope

### NOTES

#### School Data

School Name and email address, National EMIS number, Province, School level (Pre-Primary, Primary, Secondary, Intermediate or Combined), School Funding Type (Public or Independent), Ownership of school land [State, Church, Mine, Farm, Hospital, Trust, Company, Private Individual, Factory), Educational region, Educational district, and Circuit. Earlier surveys collected data on Municipality, Nearest Town and Distance to Nearest Town (Km). Earlier surveys also collected data on Language of teaching and learning but from 2011 this data is no longer collected.

#### Learner data

Total number of learners by grade and gender

#### Staff data

Category (Educators, Practitioners, Professional non-teaching staff, Administrative staff, Support staff, Hostel staff); Nature of appointment (full-time or part-time, permanent, temporary, substitutes), gender and source of remuneration (Schools Governing Body or the State). The distinction between "staff" and "practitioners" in the data files is that 'practitioners' are found almost exclusively in schools with Grade R and are not qualified educators, but people who teach in or assist, usually in the Grade R class.

### TOPICS

Topic	Vocabulary
Primary Education	World Bank
Secondary Education	World Bank

## Coverage

### GEOGRAPHIC COVERAGE

The survey has national coverage

### GEOGRAPHIC UNIT

The data includes a variable for town.

### UNIVERSE

The survey covers all Ordinary Schools in South Africa, both Public and Independent. In some data collection years information on special needs education schools was collected and in these cases this data is included in the data files from DataFirst

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name	Affiliation
Department of Basic Education	Government of South Africa

## Data Collection

### DATES OF DATA COLLECTION

Start	End
1997	2023

## DATA COLLECTION MODE

Mail Questionnaire

## DATA COLLECTION NOTES

The Snap Survey for Ordinary Schools is completed by all ordinary schools, both public and independent. School principals are sent both digital (on a cd) and hard copy versions of the survey questionnaire and the educator forms. These are required to be completed on or as close to the survey date as possible. The principal returns the completed survey tools to the respective District or Regional DBE Office. School officials from the DBE Head Office and District officials periodically visit a random sample of 2% or 3% of schools to establish the accuracy of basic school information provided by schools in the survey.

## DATA COLLECTORS

Name	Abbreviation	Affiliation
Department of Basic Education	DBE	Government of South Africa

## Questionnaires

## QUESTIONNAIRES

Data is collected with a survey questionnaire and educator forms. The principle completes the survey questionnaire and each educator (both state paid and other) in each school completes an educator form. Schools record their EMIS number provided by the DBE on the questionnaire and form for identification.
