ABSTRACT

The Master List of Schools is a record of all schools in South Africa. The data forms part of the national Education Management Information Systems (EMIS) database used to inform education policymakers and managers in the Department of Basic Education (DBE) and the Provincial education departments, as well as to provide valuable information to external stakeholders. The list is maintained by provincial departments and regularly sent to DBE for updating. A key function of the master list is to uniquely identify each school in the country through a school identifier called the EMIS number. Additionally, the list contains data on school quintiles - categories (quintiles) based on the socioeconomic status of the community in which the school is situated. Analyses comparing schools' performance often use school quintiles as control measures for socioeconomic status, to take into account the effect of, for example, poor infrastructure, shortage of materials and deprived home backgrounds on school performance. There are also other basic data fields in the school master list that could provide the means to answer some of the most frequently asked questions about learner enrolment, teachers and learner-teacher ratio of schools. It is a useful dataset for education planners and researchers and is even widely used in the private sector by those who regularly deal with schools.

DATA COLLECTION NOTES

The Master List of Schools is compiled by the Education Management Information Systems (EMIS) Directorate by combining information from the Annual SNAP Survey for Ordinary Schools and the Annual National Assessment (ANA) to form a complete database of all ordinary and special needs schools in South Africa. The data from the SNAP Survey and ANA is completed by all ordinary and special needs education schools maintained by provincial departments and regularly sent to DBE for updating. School principals are sent both digital (on a cd) and hard copy versions of the survey questionnaire and the educator forms. These are required to be completed on or as close to the survey date as possible. The principal returns the completed survey tools to the respective District or Regional DBE Office.

Questionnaires

QUESTIONNAIRES

Data from the SNAP survey and ANA that are used to compile the Master List of Schools is collected with a survey questionnaire and educator forms. The principle completes the survey questionnaire and each educator (both state paid and other) in each school completes an educator form. Schools record their EMIS number provided by the DBE on the questionnaire and form for identification.

Data Appraisal

DATA APPRAISAL

The 2019 series only includes data for quarter 3 and quarter 4.
