TITLE

Master List of Early Childhood Development Centres 2012

COUNTRY

Name	Country code
South Africa	zaf

STUDY TYPE

Education Data

ABSTRACT

The Master List of Early Childhood Development Centers (ECDCs) is a record of all schools in South Africa. The data forms part of the national Education Management Information Systems (EMIS) database used to inform education policymakers and managers in the Department of Basic Education (DBE) and the Provincial education departments, as well as to provide valuable information to external stakeholders. The list is maintained by provincial departments and regularly sent to DBE for updating. A key function of the master list is to uniquely identify each ECDC in the country through an identifier called the EMIS number. Additionally, the list contains data on quintile categories that are based on the socioeconomic status of the community in which the school is situated. Analyses comparing ECDCs' performance often use school quintiles as control measures for socioeconomic status, to take into account the effect of, for example, poor infrastructure, shortage of materials and deprived home backgrounds on ECDC performance. There are also other basic data fields in the master list that could provide the means to answer some of the most frequently asked questions about learner enrolment, teachers and learner-teacher ratio of schools. It is a useful dataset for education planners and researchers and is even widely used in the private sector by those who regularly deal with early learning development.

KIND OF DATA

Administrative records and survey data

UNIT OF ANALYSIS

Individuals and institutions

Version

VERSION DESCRIPTION

v.1: Edited, anonymised dataset for public use

Scope

NOTES

ECDC Data

National EMIS number, ECDC name, address, registration date, exam number, status (open), sector (public, independent), type (early childhood development), phase (pre-primary), specialisation, ownership of school land and building (public, independent), Section 21 school and function, quintile, no fee school

Geographic Data

Province, GIS latitude, longitude and source, Magisterial district, District municipality, Local municipality, Ward, Sub-Place, Educational region, district and circuit, Township/Village, Suburb, Town/City, Urban/Rural

Learner and Educator data

ECDC learners, Educator numbers

Coverage

GEOGRAPHIC COVERAGE

The data has national coverage

GEOGRAPHIC UNIT

The lowest level of geographic aggregation covered by the dataset is local municipality. The dataset includes GIS coordinates for ECDC locations.

UNIVERSE

The survey covers all ECDCs in South Africa, both public and independent.

DATA COLLECTION MODE

Other

DATA COLLECTION NOTES

The Master List of ECDCs is compiled by the Education Management Information Systems (EMIS) Directorate to form a complete database of all early learning centers in South Africa. The survey has to be completed by all centers, both public and independent. It involves, amongst other aspects, a complete count of learners and personnel, as well as details with regard to the learners, resources and school equipment. ECDC principals are sent both digital (on a cd) and hard copy versions of the survey questionnaire and the educator forms. These are required to be completed on or as close to the survey date as possible. The principal returns the completed survey tools to the respective District or Regional DBE Office. ECDCs that do not have the infrastructure to capture the information electronically should submit the manually completed survey form.

Data Appraisal

DATA APPRAISAL

The 2012 series includes data for quarter 1, quarter 2, quarter 3 and quarter 4.

There is no date variable with the original data - a date variable has been created by DataFirst.
